with many of its ideas, and I discovered new ways of thinking about teaching." —Eugenia T. Paulus, professor of chemistry, North Hennepin Community College, and 2008 U.S. Community Colleges Professor of the Year from The Carnegie Foundation for the Advancement of Teaching and the Council for Advancement and Support of Education "Thank you Carnegie Mellon for making accessible what has previously been inaccessible to those of us who are not learning scientists. Your focus on the essence of learning combined with concrete examples of the daily challenges of teaching and clear tactical strategies for faculty to consider is a welcome work. I will recommend this book to all my colleagues."

—Catherine M. Casserly, senior partner, The Carnegie Foundation for the Advancement of Teaching "As you read about each of the seven basic learning principles in this book, you will find advice that is grounded in learning theory, based on research evidence, relevant to college teaching, and easy to understand. The authors have extensive knowledge and experience in applying the science of learning to college teaching, and they graciously share it with you in this organized and readable book." —From the Foreword by Richard E. Mayer, professor of psychology, University of California, Santa Barbara; coauthor, *e-Learning and the Science of Instruction*; and author, *Multimedia Learning*

Videojournalism-Kenneth Kobre 2013-01-17 *Videojournalism* is a new field that has grown out of traditional print photojournalism, slideshows that combine sound and pictures, public radio, documentary filmmaking and the best of television news features. This amalgam of traditions has emerged to serve the Internet's voracious appetite for video stories. *Videojournalism* is written for the new generation of "backpack" journalists. The solo videojournalist must find a riveting story; gain access to charismatic characters who can tell their own tales; shoot candid clips; expertly interview the players; record clear, clean sound; write a script with pizzazz; and, finally, edit the material into a piece worthy of five minutes of a viewer's attention. *Videojournalism* addresses all of these challenges, and more - never losing sight of the main point: telling a great story. This book, based on extensive interviews with professionals in the field, is for anyone learning how to master the

art and craft of telling real short-form stories with words, sound and pictures for the Web or television. The opening chapters cover the foundations of multimedia storytelling, and the book progresses to the techniques required to shoot professional video, and record high quality sound and market the resulting product. Videojournalism also has its own website - go to just one URL and find all the stories mentioned in the book. You also will find various "how-to videos on the site. To keep up with the latest changes in the field such as new cameras, new books, new stories or editing software, check the site regularly and "like" www.facebook.com/KobreGuide.

Broadcast News and Writing Stylebook -- Pearson eText-Robert A. Papper 2015-07-22 Updated in its 5th edition, Papper's Broadcast News and Writing Stylebook is the first and most widely used handbook in broadcast news. This book clearly and concisely outlines the rules of broadcast news writing, reporting, grammar, style, and usage. With chapter-by-chapter coverage of story types, from business stories to crime and legal reporting, education, government, health, the environment, weather, and sports, the Broadcast News and Writing Stylebook lays out the particular demands of composition, form, style, and usage in all the diverse areas of broadcast news. Because the news business has changed -- and continues to evolve -- so has this text. Written by the person who has overseen the major industry research for the past 18 years, the latest edition looks into the future of news by exploring the business of news. Citing the latest data and trends, the book takes a hard look at where the industry stands and where it appears to be headed.

recounts mounting racial aggressions in ongoing encounters in twenty-first-century daily life and in the media. Some of these encounters are slights, seeming slips of the tongue, and some are intentional offensives in the classroom, at the supermarket, at home, on the tennis court with Serena Williams and the soccer field with Zinedine Zidane, online, on TV-everywhere, all the time. The accumulative stresses come to bear on a person's ability to speak, perform, and stay alive. Our addressability is tied to the state of our belonging, Rankine argues, as are our assumptions and expectations of citizenship. In essay, image, and poetry, *Citizen* is a powerful testament to the individual and collective effects of racism in our contemporary, often named "post-race" society.

The Law of Journalism and Mass Communication-Robert Trager 2017-10-25 The Law of Journalism and Mass Communication, Sixth Edition, by Robert Trager, Susan Dente Ross, and Amy Reynolds offers a clear and engaging introduction to media law with comprehensive coverage and analysis of key cases for future journalists and media professionals. You are introduced to key legal issues at the start of each chapter, building your critical thinking skills before progressing to real-world landmark cases that demonstrate how media law is applied today. Contemporary examples, emerging legal topics, international issues, and cutting-edge research all help you to retain and apply principles of media law in practice. The thoroughly revised Sixth Edition has been reorganized and shortened to 12 chapters, streamlining the content and offering instructors more opportunities for classroom activities. This edition also goes beyond the judiciary—including discussions of tweets and public protests, alcohol ads in university newspapers, global data privacy and cybersecurity, libel on the internet, and free speech on college campuses—to show how the law affects the ways

mass communication works and how people perceive and receive that work.

A Long Walk to Water-Linda Sue Park 2010-11-15 The New York Times bestseller A Long Walk to Water begins as two stories, told in alternating sections, about two eleven-year-olds in Sudan, a girl in 2008 and a boy in 1985. The girl, Nya, is fetching water from a pond that is two hours' walk from her home: she makes two trips to the pond every day. The boy, Salva, becomes one of the "lost boys" of Sudan, refugees who cover the African continent on foot as they search for their families and for a safe place to stay. Enduring every hardship from loneliness to attack by armed rebels to contact with killer lions and crocodiles, Salva is a survivor, and his story goes on to intersect with Nya's in an astonishing and moving way.

Seventh Flag-Sid Balman, Jr. 2019-10-08 The US and Europe have unraveled since World War II and radicalism has metastasized into every community, tearing away the decency, optimism, and security that shaped those robust democracies for more than eight decades. No place is immune, including the small West Texas town of Dell City, where four generations of an iconic American family and a Syrian Muslim family carve a farming empire out of the unforgiving high desert. These families' partnership is as unlikely as the idea of a United States, and their powerful friendship can be traced back to a bloody knife fight in a Juarez cantina just after World War II. The bond forged that night between Jack Laws, an Irish American who staked his claim in West Texas after the war, and Ali Zarkan, whose great-grandfather sailed from the Middle East to Texas in the mid-1800s as part of President Franklin Pierce's attempt to create the US Army Camel Corps, shapes each generation of the families as they come of age and adapt to shifting paradigms of gender, commerce, patriotism, loyalty, religion, and sexuality. From the beaches of the Western Pacific to the battlefields of the Middle East and from the lawless streets of Juarez to the darkest corners of the Internet, the two families fight real and perceived enemies—journeying, as they do, through the football fields of Texas and West Point, the hippie playgrounds of Asia, the music halls of Austin, the terrorist cells of Europe and the political backrooms where fortunes are gained or lost over the rights to Western water.

Underlying their experiences is the basic question of what constitutes identity and citizenship in America, or in Texas, a land over which six flags have flown. The seventh flag, ultimately, is not one of a state or a nation, but of a mosaic of cultures, religions, and people from every corner of the world—all struggling to define what it means to be unified under an ambiguous banner.

Anthem-Ayn Rand 2020-12-01 Equality 7-2521 finds himself out of step with the collectivist society of the future, and discovers a means to freedom in Ayn Rand's fable of the individual in conflict with society. First published in 1938, Anthem takes place in a dystopian future world in which humanity is enduring a new dark age, human life is regimented in every respect and personal identity has been all but snuffed out by a totalitarian government. The narrator, writing his story in secret, realizes he is a criminal simply for having thoughts of his own. Exploring the ruins of a previous civilization he discovers relics, conducts forbidden experiments and learns enough to question the very structure of his society. Can he share this knowledge with his fellow citizens? The author strips the relationship of humanity to civilization down to its bare essence in this modern parable that starkly illuminates the challenge an oppressive government presents to individuality. With an eye-catching new cover, and professionally typeset manuscript, this edition of Anthem is both modern and readable.

Your House Will Pay-Steph Cha 2019-10-15 WINNER OF THE LOS ANGELES TIMES BOOK PRIZE “[A] suspense-filled page-turner.”

—Viet Thanh Nguyen, winner of the Pulitzer Prize for The Sympathizer “A touching portrait of two families bound together by a split-second decision.” —Attica Locke, Edgar-Award winning author of Bluebird, Bluebird A Best Book of the Year Wall Street Journal / Chicago Tribune / BuzzFeed / South Florida Sun-Sentinel / Book Riot / LitHub / BOLO Books A powerful and taut novel about racial tensions in Los Angeles, following two families—one Korean-American, one African-American—grappling with the effects of a decades-old crime In the wake of the police shooting of a black teenager, Los Angeles is as tense as it’s been since the unrest of the early 1990s. But Grace Park and Shawn Matthews have their own problems. Grace is sheltered and largely oblivious, living in the Valley with her Korean-immigrant parents, working long hours at the family pharmacy. She’s distraught that her sister hasn’t spoken to their mother in two years, for reasons beyond Grace’s understanding. Shawn has already had enough of politics and protest after an act of violence shattered his family years ago. He just wants to be left alone to enjoy his quiet life in Palmdale. But when another shocking crime hits LA, both the Park and Matthews families are forced to face down their history while navigating the tumult of a city on the brink of more violence.

The Psychosocial Implications of Disney Movies-Lauren Dundes 2019-07-11 In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney’s films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of

Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

How People Learn II-National Academies of Sciences, Engineering, and Medicine 2018-09-27 There are many reasons to be curious about the way people learn, and the past several decades have seen an explosion of research that has important implications for individual learning, schooling, workforce training, and policy. In 2000, *How People Learn: Brain, Mind, Experience, and School: Expanded Edition* was published and its influence has been wide and deep. The report summarized insights on the nature of learning in school-aged children; described principles for the design of effective learning environments; and provided examples of how that could be implemented in the classroom. Since then, researchers have continued to investigate the nature of learning and have generated new findings related to the neurological processes involved in learning, individual and cultural variability related to learning, and educational technologies. In addition to expanding scientific understanding of the mechanisms of learning and how the brain adapts throughout the lifespan, there have been important discoveries about influences on learning, particularly sociocultural factors and the structure of learning environments. *How People Learn II: Learners, Contexts, and Cultures* provides a much-needed update incorporating insights gained from this research over the past decade. The book expands on the foundation laid out in the 2000 report and takes an in-depth look at the constellation of influences that affect individual learning. *How People Learn II* will become an indispensable resource to understand learning.

Readings in Multimedia Computing and Networking-Kevin Jeffay 2001-08-10 Readings in Multimedia Computing and Networking

captures the broad areas of research and developments in this burgeoning field, distills the key findings, and makes them accessible to professionals, researchers, and students alike. For the first time, the most influential and innovative papers on these topics are presented in a cohesive form, giving shape to the diverse area of multimedia computing. The seminal moments are recorded by a dozen visionaries in the field and each contributing editor provides a context for their area of research by way of a thoughtful, focused chapter introduction. The volume editors, Kevin Jeffay and HongJiang Zhang, offer further incisive interpretations of past and present developments in this area, including those within media and content processing, operating systems, and networking support for multimedia. This book will provide you with a sound understanding of the theoretical and practical issues at work in the field's continuing evolution. * Offers an in-depth look at the technical challenges in multimedia and provides real and potential solutions that promise to expand the role of multimedia in business, entertainment, and education. * Examines in Part One issues at the heart of multimedia processes: the means by which multimedia data are coded, compressed, indexed, retrieved, and otherwise manipulated. * Examines in Part Two the accommodation of these processes by storage systems, operating systems, network protocols, and applications. * Written by leading researchers, the introductions give shape to a field that is continually defining itself and place the key research findings in context to those who need to understand the state-of-the art developments.

Designing Socially Just Learning Communities-Rebecca Rogers
2009-05-07 Demonstrating the power and potential of educators working together to use literacy practices that make changes in people's lives, this collaboratively written book blends the voices of participants in a teacher-led professional development group to provide a truly lifespan perspective on designing critical literacy practices. It joins these educators' stories with the history and practices of the group - K-12 classroom teachers, adult educators, university professors, and community activists who have worked together since 2001 to better understand the relationship between literacy and social justice. Exploring issues such as gender equity, linguistic diversity, civil rights and freedom and war, the book
