CASAC Exam Study Guide 2020-2021: Addiction Counseling Exam Prep Review Book and Practice Test Questions for the CASAC Test-Trivium Drug Counselor Exam Prep Team 2019-09-18 Prelude to Prison-Marsha Weissman 2015-01-08 By the close of the twentieth century, the United States became known for its reliance on incarceration as the chief means of social control, particularly in poor communities of color. The carceral state has been extended into the public school system in these communities in what has become known as the "school-to-prison pipeline." Through interviews with young people suspended from school, Weissman examines the impact of zero tolerance and other harsh disciplinary approaches that have transformed schools into penal-like institutions. In their own words, students describe their lives, the challenges they face, and their efforts to overcome those challenges. Unlike other studies, this book illuminates the students' perspectives on what happens when the educational system excludes them from regular school. Weissman draws attention to research findings that suggest punitive disciplinary policies and practices resemble criminal justice strategies of arrest, trial, sentence, and imprisonment. She demonstrates how harsh school discipline prepares young people from poor communities of color for their place in the carceral state. An invaluable resource for policy makers, Prelude to Prison presents recommendations for policy, practice, and political change that have the potential to dismantle the school-to-prison pipeline.

Trauma and Transformation-Rivka A. Edery 2013-05-10 Praise for RIVKA EDERY and TRAUMA AND TRANSFORMATION: A TWELVE STEP GUIDE. How does one formulate a recovery and treatment plan for the profound consequences of surviving trauma? Why should the survivor begin a process of healing with the admission of what happened to them? Is the role of spirituality in trauma recovery necessary in order to heal? In Trauma and Transformation: A Twelve Step Guide, clinical social worker Rivka Edery demystifies the misunderstood resource of spirituality, as it applies to healing from trauma. She provides a guide to a personal spiritual approach that can lead a survivor in a new and powerful direction, perhaps not previously considered. Combining the details of the survivor's inner reality with a step-by-step process of applying spiritual tools to each phase of recovery, Edery demonstrates how such a framework can be highly successful for survivors who seek to lessen their pain and confusion. Edery hypothesizes that for a treatment process to be truly effective, a survivor needs to have special skills in order to overcome their challenges. This is accomplished when a survivor embraces this process. Edery shows you how, step by step. Coming forward with a bold form of guidance, Edery includes specific directions to trauma survivors who wish to make amends for being abusers themselves. Trauma and Transformation: A Twelve Step Guide is the indispensable guide to thoroughly understanding the basic principles of The Twelve Steps as a spiritual program used to treat alcoholics and other individuals with a range of self-destructive and addictive tendencies. Offering a chapter-by-chapter synopsis of each of the Twelve Steps of Alcoholic Anonymous, this book offers insight, and guidance for anyone genuinely concerned about how to heal the physical, mental and spiritual wounding caused by traumatic experiences. "Every addict lives a life of trauma. The concept is a natural fit, superb, effective, right on target." Ted Rado, L.C.S.W. - R, clinical director of a large residential drug treatment program. "This book is a clear and compelling resource that bridges the gap between Psychotherapy and 12-Step work. The wisdom of this experienced trauma specialist shines through on each page. Without question, it is an indispensable resource for both therapists and clients seeking a renewed model and an essential companion for healing." Susan J. Price, M.S.W., Author, The Female Ego

TIP 52: Clinical Supervision and Professional Development of the Substance Abuse Counselor-U.S. Department of Health and Human Services 2019-11-23 This Treatment Improvement Protocol (TIP) is a companion to TIP 51, Substance Abuse Treatment: Addressing the Specific Needs of Women. These two volumes look at how gender-specific treatment strategies can improve outcomes for men and women, respectively. The physical, psychological, social, and spiritual effects of substance use and abuse on men can be quite different from the effects on women, and those differences have implications for treatment in behavioral health settings. Men are also affected by social and cultural forces in different ways than women, and physical differences between the genders influence substance use and recovery as well. This TIP, Addressing the Specific Behavioral Health Needs of Men, addresses these distinctions. It provides practical information based on available evidence and clinical experience that can help counselors more effectively treat substance use disorders

Charvat present a volume that can be used both for general research methods and as a practical guide for conducting research in the field. Baker and Charvat devote an entire chapter to ethical issues involved in researching children and their families and the limits of confidentiality within this population. Each chapter begins with a scenario that presents a question or problem to work through, enabling readers to apply the methods to a specific setting. Special sections explore the value of continuous quality-improvement activities, which enable the collection and analysis of data outside of the strictures of publishable research, and the implementation of program evaluations, which can be helpful in obtaining further research and programmatic funding.

FDA Regulation of Tobacco Products-Victoria C. Lockwood 2009 Last year, lawmakers reintroduced bipartisan, bicameral legislation (H.R. 1108, S. 625) to give the Food and Drug Administration (FDA) broad new authority to regulate the manufacture, distribution, advertising, promotion, sale, and use of cigarettes and smokeless tobacco products. Amended versions of both bills have been reported out of committee and await floor action in their respective chambers. The Secretary of Health and Human Services has stated in a July 21, 2008, letter that the Bush Administration "would strongly oppose this legislation." The Family Smoking Prevention and Tobacco Control Act was first introduced in the 108th Congress, the product of lengthy negotiations in which lawmakers sought to balance the competing interests of public health groups and Philip Morris, the nation's leading cigarette company. While these organizations support the legislation, the FDA Commissioner, other tobacco manufacturers, and tobacco industry and convenience store associations have expressed concerns about the bills, which would create a new Chapter IX in the Federal Food, Drug, and Cosmetic Act (FDCA) solely for the regulation of tobacco products. Among their many provisions, the measures would authorize FDA to: restrict tobacco advertising and promotions, especially to children; develop standards that require changes in tobacco product composition and design, such as the reduction or elimination of toxic chemicals; and require manufacturers to obtain agency approval in order to make reduced-risk and reduced-exposure claims for their products. In the mid-1990s, FDA claimed authority under the FDCA to regulate cigarettes and smokeless tobacco products as delivery devices for nicotine, an addictive drug. The agency's 1996 tobacco regulation was invalidated by the U.S. Supreme Court in March 2000. The Court concluded that Congress had clearly intended to preclude FDA from regulating tobacco products. It found that because the FDCA prohibits the marketing of products that have not been found to be safe and effective, the statute would have required FDA to ban such manifestly harmful products as cigarettes and smokeless tobacco if the agency had jurisdiction over them. Such a ban, argued the Court, would plainly contradict congressional intent. The Supreme Court's decision made it clear the Congress would have to enact legislation giving FDA statutory authority over tobacco products in order for the agency to assert jurisdiction. Lawmakers first drafted such language in the 105th Congress as part of legislation to implement the 1997 proposed national tobacco settlement.

The Come as You Are Workbook-Emily Nagoski 2019-06-11 A new, practical workbook from the New York Times bestselling author of Come As You Are that allows you to apply the book's groundbreaking research and understanding of why and how women's sexuality works to everyday life. In the twentieth century, women's sexuality was seen as "Men's Sexuality Lite": basically the same, but not quite as good. From genital response to sexual desire to orgasm, we just couldn't understand that complicated, inconsistent, crazy-making "lady business." That is, until Emily Nagoski changed the game with her New York Times bestseller, Come As You Are. Using groundbreaking science and research, she proved that the most important factor in creating and sustaining a sex life filled with confidence and joy is not what the parts are or how they're organized, but how you feel about them. Which means that things like stress, mood, trust, and body image are not peripheral factors in a woman's sexual wellbeing; they are central to it. And, that even if you don't yet feel that way, you are already sexually whole. Nagoski's book changed countless women's lives and approaches to sex, and now she offers the next step. The Come As You Are Workbook is a practical companion to this bestselling guide, filled with new activities, prompts, and thought-provoking examples to help you exercise and expand on the knowledge you've learned. This collection of worksheets, journaling prompts, illustrations, and diagrams is a practical and engaging companion for anyone who wants to further their understanding of their own bodies and sex lives.
