West German Industry and the Challenge of the Nazi Past, 1945-1955-S. Jonathan Wiesen 2003-01-14 In the aftermath of World War II and the Holocaust, West German industrialists faced a major crisis in their public image. With mounting revelations about the use of forced and slave labor, the "Aryanization" of Jewish property, and corporate profiteering under National Socialism, industrialists emerged from the war with their national and international reputations in tatters. In this groundbreaking study, Jonathan Wiesen explores how West German business leaders remade and marketed their public image between 1945 and 1955. He challenges assumptions that West Germans--and industrialists in particular--were silent about the recent past during the years of denazification and reconstruction. Drawing on sources that include private correspondence, popular literature, and a wealth of unpublished materials from corporate archives, Wiesen reveals how German business leaders attempted to absolve themselves of responsibility for Nazi crimes while recasting themselves as socially and culturally engaged public figures. Through case studies of individual firms such as Siemens and Krupp, Wiesen depicts corporate publicity as a telling example of postwar selective memory. In his introduction and conclusion, Wiesen considers the recent establishment of a multibillion dollar fund to provide financial compensation to the victims of industrial exploitation during World War II. This acknowledgment by German industry of its ongoing responsibility for its past crimes underscores the contemporary relevance of Wiesen's study.

The administration of examinations for 15-19 year olds in England-Great Britain: Parliament. House of Commons: Education Committee 2012-07-03 This report from the Education Committee looks at the administration of examinations for 15-19 year olds in England. The Committee expresses serious concerns about incentives in the exam system and about competition on syllabus content. Incentives in the system should be changed so the downward pressure through the competition of exam boards is mitigated. The Committee considers a number of options to change incentives, including: (i) A single board. This offers a simpler system, with no risk of competition, but the Committee believes the cost, risk and disruption outweigh the benefits; (ii) Franchising of subjects to exam boards. This removes syllabus competition, but again has downsides; (3) Or the current system of multiple boards. The Committee sees no benefit in competition on syllabus content, but the setting and marking of exams and associated administration, if properly regulated, could generate incentives and drive quality up, offering value for money to schools and colleges. The Committee also recommends the development of national syllabuses, accredited by Ofqual. The syllabuses would be developed by exam boards in conjunction with learned bodies and employer organisations and could therefore retain the benefits of competition on quality and the incentive for exam boards to innovate.
