The Devil's Claim-Alexander Wilding 2015-01-28 The Devil’s Claim is a historical fiction set in seventeenth century Herefordshire, England, a time in which the first-born son inherits all. ?By the day’s end, this innocent young man will sell his soul to the devil and be on the road to Hell and damnation. It’s December 15, 1644, his fourteenth birthday. It will be a day that William Blinkingsop will never forget. ?William’s father called him into the library to talk about his future. It was to be the worst day of his life—being the third son meant that he wouldn’t inherit any of his father’s land. ?Hugo the eldest will inherit, and Thomas the second son will manage the estate. The smug smile on his two brothers’ faces as they came out of the library told him that they thought that Mommy’s little favorite had been put into his place. ?Faced with only the church or the army as a career, William cursed his luck and his two brothers who stood between him and a life of ease. ?The devil doesn't come to you when you’re strong; he comes to you when you’re weak or upset. That night, the devil came to William and offered to arrange two accidents for his brothers, so he would become heir. William jumped at the chance. Two accidents later, he was heir to his father’s land. ?However, when you let the devil into your life, he takes over. When William was seventeen, his father was taken ill, and a pillow across the sick man’s face meant William inherited his father’s money ?Life was good for William, and he denied himself nothing. All the pleasures of the flesh were his, and he crushed anyone who stood between him and profit. ?However, money and power meant nothing to him when three days before his forty-fifth birthday, the devil sent a demon to tell him he was claiming his prize. ?William, in fear, rushed to the church in the hope the priest might save him. At midnight on the twelfth of December 1689, the fight for his soul with the devil begins. Will it be Heaven or Hell that wins the day? Reflexive Epistemology-D. Zolo 2012-12-06 Professor Danilo Zolo has written an account of Otto Neurath's epistemology which deserves careful reading by all who have studied the development of 20th century philosophy of science. Here we see the philosophical Neurath in his mature states of mind, the vigorous critic, the scientific Utopian, the pragmatic realist, the sociologist of physics and of language, the unifier and encyclopedist, always the empiricist and always the conscience of the Vienna Circle. Zolo has caught the message of Neurath's ship-at-sea in the reflexivity of language, and he has sensibly explicated the persisting threat posed by consistent conventionalism. And then Zolo beautifully articulates the 'epistemological priority of sociology'. the provocative theme Was Neurath correct? Did he have his finger on the pulse of empiricism in the time of a genuine unity of the sciences? His friends and colleagues were unable to follow all the way with him, but Danilo Zolo has done so in this stimulating investigation of what he tellingly calls Otto Neurath's 'philosophical legacy' . The Big Questions-Lou Marinoff 2009-09-07 Professor Lou Marinoff's first book drew on the wisdom of the great philosophers to solve our everyday problems, launching a movement that restored philosophy to what it once was: useful in all walks of life. Now, in The Big Questions, he takes the concept to the next level, applying centuries of philosophy and great literature to answer central questions of modern existence. Urging us not to accept victimhood as the by-product of modern life, Professor Marinoff uses specific case studies from his counseling practice to show how wisdom from the great thinkers can help us define our own philosophy, and thereby reclaim our sense of well-being. He asks and answers questions that go to the heart of the human condition: How do we know what is right? How can we cope with change? Why can't we all get along? And, most centrally, how can we use the centuries of wisdom that have come before us to help us answer these questions and feel at ease in the world? Accessible, entertaining, and profoundly useful, The Big Questions mixes wisdom from the great thinkers with specific case studies to illuminate how a shift in perspective can truly be life changing. Lou Marinoff is the author of the international hit Plato, Not Prozac!, which has been published in twenty languages. A professor of philosophy at the City College of New York, Marinoff is also the founding president of the American Philosophical Practitioners Association. Praise for Plato, Not Prozac: 'What exactly is philosophical practice? Marinoff calls it 'therapy for the sane.' In a nutshell, it's using the 2,500-year-old tradition of philosophy to solve everyday problems, like work, relationship and family issues. It's a return to what philosophy was meant to be - a guideline for a way of life.'-Salon.Com 'Plato, Not Prozac! looks to become the bible of the "philosophical counseling" movement.' -Philadelphia Inquirer Magazine 'The ancient think

Beyond Collapse-T. Joseph Miller Jr 2012-10-20 Civilizations come and go... ..and they don't always go quietly. In our global civilization, the consequence of it all crashing is going to be far-reaching, and with nowhere to hide. With so many moving parts and a lack of long-term stewardship by our leaders, odds are good that you will want to make at least a few preparations... but the question you often ask is: how? That's where I come in. In Beyond Collapse, we not only get you prepared for such an event, but we also help you and your fellow survivors come together, defend one another, preserve what may be lost and rebuild civilization together. Unlike most books of this type, we don't require a paramilitary mindset, tinfoil headgear, bunkers, or living "off-grid." Everything in here is geared towards gaining skills and resources that are just as useful and socially acceptable in peaceful times as they will be when society and civilization crashes. You will find this book useful for beginners, or those who have been preparing for a long time. The best part is, you will find it useful even if civilization holds up just fine.
