Ditched by Dr. Right-Elizabeth Warner 2008-12-18 In witty slice-of-life vignettes and laugh-out-loud cultural riffs, Elizabeth Warner shares her divinely demented view of the world. Raised by a mild-mannered psychiatrist father and a slightly off-kilter mother, Warner opted out of the life that awaited the youth of WASP heaven (aka Philadelphia’s Main Line)—that is, to be “typically weaned, whelped, and privately schooled, whereupon you move on to the roost-and-spawn phase.” Yet no matter how far afield she ventures-to New York to become a master junk-mail marketer or to L.A. to do a little acting-Warner can’t help but feel that sometimes she’s getting nowhere fast on “some kind of Protestant monarist to doom.” Whether she’s spelling out the invisible word “help” on a guy’s shoulder blades during unfulfilling sex, getting out of jury duty by smearing herself with soy sauce, or convincing her mother that the words “career girl” are not her death knell, Warner proves that sometimes it doesn’t matter where you go in life—just as long as you’ve got a killer punch line.

Digital Video and HD-Charles Poynton 2003-01-03 Rapidly evolving computer and communications technologies have achieved data transmission rates and data storage capacities high enough for digital video. But video involves much more than just pushing bits! Achieving the best possible image quality, accurate color, and smooth motion requires understanding many aspects of image acquisition, coding, processing, and display that are outside the usual realm of computer graphics. At the same time, video system designers are facing new demands to interface with film and computer system that require techniques outside conventional video engineering. Charles Poynton’s 1996 book A Technical Introduction to Digital Video became an industry favorite for its succinct, accurate, and accessible treatment of standard definition television (SDTV). In Digital Video and HDTV, Poynton augments that book with coverage of high definition television (HDTV) and compression systems. For more information on HDTV Retail markets, go to: http://www.insightmedia.info/newsletters.php#hdvtv With the help of hundreds of high quality technical illustrations, this book presents the following topics: * Basic concepts of digitization, sampling, quantization, gamma, and filtering * Principles of color science as applied to image capture and display * Scanning and coding of SDTV and HDTV * Video color coding: luma, chroma (4:2:2 component video, 4fSC composite video) * Analog NTSC and PAL * Studio systems and interfaces * Compression technology, including M-JPEG and MPEG-2 * Broadcast standards and consumer video equipment

Alice’s Adventures in Wonderland (Collins Classics)-Lewis Carroll 2010-06-03 HarperCollins is proud to present a range of best-loved, essential classics.

Alice’s Adventures in Wonderland-Lewis Carroll 2015-09-29 Commemorating the 150th anniversary of one of the most beloved classics of children’s literature, this illustrated edition presents Alice like you’ve never seen her before. In 1865, Charles Lutwidge Dodgson, an Oxford mathematician and Anglican deacon, published a story about a little girl who tumbles down a rabbit hole. Thus was the world first introduced to Alice and her pseudonymous creator, Lewis Carroll. This beautiful new edition of Alice’s Adventures in Wonderland features rarely seen illustrations by Salvador Dalí that illuminate the surreal yet curiously logical and mathematical realm into which Alice famously falls. In an informative and wide-ranging introduction, Carroll expert Mark Burstein discusses Dalí’s connections with Carroll, his treatment of the symbolic figure of Alice, and the mathematical nature of Wonderland. In addition, mathematician Thomas Banchoff reflects on the friendship he shared with Dalí and explores the mathematical undercurrents in Dalí’s work.

Through the use of a diverse mix of historical and contemporary documents, the book explores how the problematisation of intersex infant genitalia in 1950s psychiatry propelled the emergence of the gender apparatus in order to socialise sexed individuals into the ideal productive and reproductive subjects of White, middle-class postwar America.

Death in the City of Light-David King 2011-09-20 The gripping, true story of a brutal serial killer who unleashed his own reign of terror in Nazi-Occupied Paris. As decapitated heads and dismembered body parts surfaced in the Seine, Commissaire Georges-Victor Massu, head of the Brigade Criminelle, was tasked with tracking down the elusive murderer in a twilight world of Gestapo, gangsters, resistance fighters, pimps, prostitutes, spies, and other shadowy figures of the Parisian underworld. But while trying to solve the many mysteries of the case, Massu would unravel a plot of unspeakable deviousness. The main suspect, Dr. Marcel Petiot, was a handsome, charming physician with remarkable charisma. He was the “People’s Doctor,” known for his many acts of kindness and generosity, not least in providing free medical care for the poor. Petiot, however, would soon be charged with twenty-seven murders, though authorities suspected the total was considerably higher, perhaps even as many as 150. Petiot’s trial quickly became a circus. Attempting to try all twenty-seven cases at once, the prosecution stumbled in its marathon cross-examinations, and Petiot, enjoying the spotlight, responded with astonishing ease. Soon, despite a team of prosecuting attorneys, dozens of witnesses, and over one ton of evidence, Petiot’s brilliance and wit threatened to win the day. Drawing extensively on many new sources, including the massive, classified French police file on Dr. Petiot, Death in the City of Light is a brilliant evocation of Nazi-Occupied Paris and a harrowing exploration of murder, betrayal, and evil of staggering proportions.

Black Power TV-Deborah Heitner 2013-05-22 In Black Power TV, Deborah Heitner chronicles the emergence of Black public affairs television starting in 1968. She examines two local shows, New York’s Inside Bedford-Stuyvesant and Boston’s Say Brother. These shows offered viewers radical and innovative programming: the introspections of a Black police officer in Harlem, African American high school students discussing visionary alternatives to the curriculum, and Miriam Makeba comparing race relations in the United States to apartheid in South Africa. While Inside Bedford-Stuyvesant and Say Brother originated from a desire to contain Black discontent during a period of urban uprisings and racial conflict, these shows were re-envisioned by their African American producers as venues for expressing Black critiques of mainstream discourse, disseminating Black culture, and modeling Black empowerment. At the national level, Soul and Black Journal allowed for the imagining of a Black nation and a distinctly African American consciousness, and they played an influential role in the rise of the Black Arts Movement. Black Power TV reveals how regulatory, activist, and textual histories are interconnected and how Black public affairs television redefined African American representations in ways that continue to reverberate today.

Yassi Ada-George Fletcher Bass 1982 This book forms a final report on the underwater excavations I directed at Yassi Ada, Turkey, during the summers of 1961 through 1964 for the University Museum of the University of Pennsylvania. The excavation was the first to have been completed on the floor of the Mediterranean of a wreck with substantial hull remains. This pioneering work required the ingenuity, effort, and generosity of many people and institutions. The seventh-century ship was chosen for primary excavation not only for its lesser depth, which allowed longer working dives, but also because Throckmorton had uncovered traces of its timbers just beneath the sand and because it was more intelligible from the outset: a stack of concreted iron anchors, lying across at its upper end, suggested the forward part of the ship pointing up the slope, toward Yassi Ada, while a mass of broken terra-cotta tiles and cooking ware suggested the galley—and, presumably, the stern—at the deeper end of the site.
