[a] thrilling testament to the human spirit." —Ariel Dorfman, The New York Times Book Review "Wrestling with the Devil is a powerful testament to the courage of Ngũgĩ and his fellow prisoners and validation of the hope that an independent Kenya would eventually emerge." —Minneapolis Star Tribune "The Ngũgĩ of Wrestling with the Devil called not just for adding a bit of color to the canon’s sagging shelf, but for abolition and upheaval." —Bookforum An unforgettable chronicle of the year the brilliant novelist and memoirist, long favored for the Nobel Prize, was thrown in a Kenyan jail without charge Wrestling with the Devil, Ngũgĩ wa Thiong’o’s powerful prison memoir, begins literally half an hour before his release on December 12, 1978. In one extended flashback he recalls the night, a year earlier, when armed police pulled him from his home and jailed him in Kenya’s Kamiti Maximum Security Prison, one of the largest in Africa. There, he lives in a prison block with eighteen other political prisoners, quarantined from the general prison population. In a conscious effort to fight back the humiliation and the intended degradation of the spirit, Ngũgĩ—the world-renowned author of Weep Not, Child; Petals of Blood; and Wizard of the Crow—decides to write a novel on toilet paper, the only paper to which he has access, a book that will become his classic, Devil on the Cross. Written in the early 1980s and never before published in America, Wrestling with the Devil is Ngũgĩ’s account of the drama and the challenges of writing the novel under twenty-four-hour surveillance. He captures not only the excruciating pain that comes from being cut off from his wife and children, but also the spirit of defiance that defines hope. Ultimately, Wrestling with the Devil is a testimony to the power of imagination to help humans break free of confinement, which is truly the story of all art.</p> <p>National Fax Directory- 1993</p> <p>Adobe Dreamweaver Creative Cloud Revealed-Sherry Bishop 2014-08-06 Discover all that Adobe Dreamweaver CC has to offer! Each year 4.6 million new cases occur world-wide -- one new case every 7 seconds. Alzheimer's disease is the most common form of dementia. Parkinson's disease, another progressive brain disorder, affects about 4 million people world-wide. Millions more suffer with other neurodegenerative disorders. The number of people affected by these destructive diseases continues to increase every year. Dementia and other forms of neurodegeneration are not a part of the normal ageing process. The brain is fully capable of functioning normally for a lifetime, regardless of how long a person lives. While ageing is a risk factor for neurodegeneration, it is not the cause! Dementia and other neurodegenerative disorders are disease processes that can be prevented and successfully treated. This book outlines a program using ketone therapy and diet that is backed by decades of medical and clinical research and has proven successful in restoring mental function and improving both brain and overall health. You will learn how to prevent and even reverse symptoms associated with Alzheimer's disease, Parkinson's disease, amyotrophic lateral sclerosis (ALS), multiple sclerosis (MS), Huntington's disease, epilepsy, diabetes, stroke, and various forms of dementia. The information in this book is useful not only for those who are suffering from neurodegenerative disease but for anyone who wants to be spared from ever encountering one or more of these devastating afflictions. These diseases don't just happen overnight. They take years, often decades, to develop. In the case of Alzheimer's disease, approximately 70 percent the brain cells responsible for memory are destroyed before symptoms become noticeable. You can stop Alzheimer's and other neurodegenerative diseases before they take over your life.
