An Introduction to African Philosophy-Sam O. Imbo 1998-03-26 Organized topically rather than historically, this book provides an excellent introduction to the subject of African Philosophy. Samuel Oluoch Imbo synthesizes the ideas of key African philosophers into an accessible narrative. The author focuses on five central questions: What are the definitions of African philosophy? Is ethno-philosophy really philosophy? What are the dangers of an African philosophy that claims to be 'unique'? Can African philosophy be done in foreign languages such as English and French? Are there useful ways to make connections between African philosophy, African American philosophy, and women's studies? By making cross-disciplinary and transnational connections, Imbo stakes out an important place for African philosophy. Imbo's book is an invaluable introduction to this dynamic and growing area of study.

Entrepreneurial Law-George W. Kunev 2019-05-27 This text is designed to provide insight into the transactional legal needs of the entrepreneur. It is written to provide both business and law students with a foundational understanding of the doctrinal areas of the law that impact the entrepreneurial endeavor. Substantively, coverage begins with taking the entrepreneur from the initial business plan through choice of business entity and corporate governance considerations. It then moves to address the use, analysis, and drafting of transactional documents typically used in the conduct of business. This is followed by chapters covering applied intellectual property law and protection of intellectual property. Coverage concludes with a focus on methods of financing the business entity.

The Road to Mecca-Athol Fugard 1993-01-01 A South African pastor and a young teacher from Cape Town battle over the fate of an eccentric elderly widow.

Applied Sport Psychology-Jean Williams 2014-02-14 Applied Sport Psychology was written to introduce readers to psychological theories and techniques that can be used to enhance performance and personal growth of sport participants from youth to elite levels. The four-part organization covers learning, motivation, and social interaction; mental training for performance enhancement; implementing training programs; and enhancing health and well-being. This edition reflects the latest research, practice, and anecdotal examples in applied sport psychology. Applied Sport Psychology is particularly well suited as a text for classes in applied sport psychology and psychology of coaching. The book is also a valuable reference for practicing coaches, sport psychologists, and psychologists.

The Dream House-Craig Higginson 2016-04 A farmhouse is being reproduced a dozen times, with slight variations, throughout a valley. Three small graves have been dug in the front garden, the middle one lying empty. A woman in a wheelchair sorts through boxes while her husband clammers around the old demolished buildings, wondering where the animals have gone. A young woman - called 'the barren one' behind her back - dreams of love, while an ageing headmaster contemplates the end of his life. At the entrance to the long dirt driveway, a car appears and pauses - pointed towards the house like a silver bullet, ticking with heat. So begins The Dream House, Craig Higginson's riveting and unforgettable novel set in the Midlands of KwaZulu-Natal. Written with dark wit, a stark poetic style and extraordinary tenderness, this is a story about the state of a nation and a deep meditation on memory, ageing, meaning, family, love and loss. This updated 2016 edition contains new content, with Craig Higginson exploring the background to The Dream House, his varied experiences in a farmhouse in KwaZulu-Natal and the subsequent and poignant motivations for this moving novel.

The Law of Succession in South Africa-Juanita Jamneck 2012

Introduction to Law-Jaap Hage 2017-09-09 This book is exceptional in the sense that it provides an introduction to law in general rather than the law of one specific jurisdiction, and it presents a unique way of looking at legal education. It is crucial for lawyers to be aware of the different ways in which societal problems can be solved and to be able to discuss the advantages and disadvantages of different legal solutions. In this respect, being a lawyer involves being able to reason like a lawyer, even more than having detailed knowledge of particular sets of rules. Introduction to Law reflects this view by focusing on the functions of rules and on ways of arguing the relative qualities of alternative legal solutions. Where 'positive' law is discussed, the emphasis is on the legal questions that must be addressed by a field of law and on the different solutions which have been adopted by, for instance, the common law and civil law tradition. The law of specific jurisdictions is discussed to illustrate possible answers to questions such as when the existence of a valid contract is assumed.

Neethling - Potgieter - Visser Law of Delict-J. Neethling 2014

The Postconventional Personality-Angela H. Pfaffenberger 2011-04-01 Cutting-edge volume devoted to optimal adult development. Postconventional stages of personality development involve growth well beyond the average, and have become a rapidly growing subject of research not only in developmental psychology circles but also in areas such as executive leadership development. This book is the first to bring together many of the major researchers in the field, showcasing diverse perspectives ranging from the spiritual to the corporate. The contributors present research on essential questions about the existence and prevalence of high levels of personal growth, whether such achievement is correlated with other types of psychological growth, whether high levels of growth actually indicate happiness, what kinds of people exhibit these higher levels of development, how they may have developed this expanded perspective, and the characteristics of their viewpoints, abilities, and preoccupations. For anyone interested in Ken Wilber's integral psychology, as well as those in executive coaching, this volume is an invaluable resource and will be a standard reference for years to come. "This is an excellent resource for those interested in psychometrics collections and in transpersonal/humanistic psychology and life-span development ... A solid companion to other titles in the 'SUNY Series in Transpersonal and Humanistic Psychology.'" — CHOICE This is a convention-breaking book that makes a much-needed contribution to the field. Its varied scholarly chapters explore the far reaches of human growth and potential—including the oft-neglected dimension of personality development. Chapters are written by veteran researchers and exemplars in adult development studies. Included are wonderfully creative theoretical explorations on personality development as well as original contributions that push the envelope of spiritual and religious development to unprecedented lengths. — Melvin E. Miller, coeditor of *Self and No-Self: Continuing the Dialogue between Buddhism and Psychotherapy* "This book is the best place to go for current views on late-stage ego-development theory, practice, and measurement. It clarifies the promise and importance of these methods and models that stem from Loevinger (and H. S. Sullivan), casting an eye over a fascinating array of topics. But the book also explores the limitations and blind spots inherent in these methods. This is an excellent contribution to scholarly literature about the further reaches of human potential." — Zachary Stein, Harvard University

Personality Theories-Barbara Engler 2013-03-01 The Ninth Edition of PERSONALITY THEORIES continues to provide thorough coverage enhanced with helpful learning aids, opportunities for honing critical thinking skills, and integration of multicultural and gender-related issues. Each chapter focuses on one theory or group of theories and includes brief biographies that shed light on how the theories were formed. The author also provides criteria for evaluating each theory and cites current relevant research. A final chapter on Zen Buddhism covers a major non-Western theory of personality and serves to distinguish this program in the field. Surgery of the Spine and Spinal Cord-Erik van de Kelft 2016-07-04 This book offers essential guidance on selecting the most appropriate surgical management option for a variety of spinal conditions, including idiopathic problems, and degenerative disease. While the first part of the book discusses the neuroanatomy and biomechanics of the spine, pain mechanisms, and imaging techniques, the second guides the reader through the diagnostic process and treatment selection for disorders of the different regions of the spine, based on the principles of evidence-based medicine. I.e., it clearly explains why a particular technique should be selected for a specific patient on the basis of the available evidence, which is carefully reviewed. The book identifies potential complications and highlights technical pearls, describing newer surgical techniques and illustrating them with the help of images and accompanying videos. Though primarily intended for neurosurgeons, the book will also be of interest to orthopaedic surgeons, specialists in physical medicine, and pain specialists.

Systems Theory and Family Therapy-Raphael J. Becvar 2017-10-20 This book provides an overview of the basic concepts of a systems theoretical perspective using families and family therapy as examples and illustrations of their application in professional practice. This meta-perspective focuses on viewing problems in context. The difference between first-order and second-order cybernetics is explicated. Readers then are invited to see themselves as parts of the systems with which they are working consistent with a second-order cybernetics perspective. Along the way a difference between modernism and post-modernism as well as constructionism and social constructionism also are described. In addition, theories of individual and family development are presented with implications for their use in family therapy. The book concludes with more than 100 examples of how the meta-perspective of systems theory can be used in work with families.

Interpretation Of Statutes-Kafaltiya A.B. 2008

Nervous Conditions-Tsitsi Dangarembga 2020-10-19 'Immediately acclaimed by Alice Walker and Doris Lessing, Nervous Conditions has come to be considered one of Africa's most important novels of the twentieth century. Set in Rhodesia in the 1960s, almost twenty years before Zimbabwe won independence and ended white minority rule, the novel's heroine, Tambudzai Sigauke, embarks on her education. On her shoulders rest the economic hopes of her parents, siblings, and extended family, and within her burns the desire for "personhood," to no longer be part of such an "undistinguished humanity." With its searing observations, devastating exploration of the state of "not being", wicked humour and astonishing immersion into the mind of a young woman growing up and growing old before her time, the novel is a masterpiece.' Madelein Thien

Abnormal Psychology-Alban Burke 2012-09-27 Abnormal Psychology provides a good introduction to the study of psychological disorders from a South African perspective. Civil Procedure-Gerlis 2001-07-17 This textbook provides a comprehensive account of the most important new Civil Procedure Rules, Practice Directions and Pre-action Protocols, which make up our newly reformed civil procedure system. The substance of the rules are considered in detail and their effect explained to make it clear how they operate in practice. Case law is examined to demonstrate how the court applies the rules in practice. The Woolf Reforms are used to explain the rationale of the new system.; The book provides not only a clear guide to the meaning of the new rules but also a vital insight into the new culture, typified by case management, proportionality and the overriding objective, which has fundamentally reformed the principles on which our civil procedure system is based. A critique is given of the merits of the reforms and the likelihood that they will achieve their objectives.

Personality-Jerry M. Burger 2014-04-11 The respected, recognized best seller in the market, Jerry Burger's PERSONALITY is a solid mid-level book that fuses the best of theory-based and research-based instruction to give students an illuminating introduction to the subject. Burger pairs theory, application, and assessment chapters with chapters that describe the research programs aligned with every major theoretical approach. Biographical sketches of theorists and accounts of the stories behind influential research programs help students understand how classic and contemporary findings relate to each other, and reinforce the idea that theory and research perpetuate one another. In-book self-assessments promote students' interaction with the material.
