Gun Digest Treasury-Harold A. Murtz 1994 A compendium of 35 articles selected from the first 45 years of Gun Digest, plus 60 representative pages from catalog sections. Indexes all articles from Gun Digest and other DBI annuals through 1994.

Essential Guide to Handguns-Stephen R. Rementer 2005 Provides instructions on how to use handguns for personal defense and protection, describing the types of people who should not own guns, and discussing psychological preparedness, basic tactical self-protection tools, handling and maintenance, ammunition, revolvers, semi-automatic pistols, holsters, safe operation and range procedures, safe shooting and survival procedures, and other topics.

Science in History-J. D. Bernal 2012-10-04 J. D. Bernal's monumental work, Science in History, was the first full attempt to analyse the reciprocal relations of science and society throughout history, from the perfection of the flint hand-axe to the hydrogen bomb. In this remarkable study he illustrates the impetus given to (and the limitations placed upon) discovery and invention by pastoral, agricultural, feudal, capitalist, and socialist systems, and conversely the ways in which science has altered economic, social, and political beliefs and practices. In this first volume Bernal discusses the nature and method of science before describing its emergence in the Stone Age, its full formation by the Greeks and its continuing growth (probably influenced from China) under Christendom and Islam in the Middle Ages. Andrew Brown, Bernal's biographer, with a nice sense of paradox, has said of him, he 'was steeped in history, in part because he was always thinking about the future.' He goes on to say, 'Science in History is an encyclopaedic, yet individual and colourful account of the emergence of science from pre-historic times. There is detailed coverage of the scientific revolution of the Enlightenment, the Industrial Age and the first two-thirds of the twentieth century. . . The writing flows and is devoid of the tortured idioms that mar so many academic histories of science. After reading it, it is easy to agree with C. P. Snow's ortund observation that Bernal was the last man to know science. Faber Finds are reissuing the illustrated four volume edition first published by Penguin in 1969. The four volumes are: Volume 1: The Emergence of Science, Volume 2: The Scientific and Industrial Revolutions, Volume 3: The Natural Sciences in Our Time, Volume 4: The Social Sciences: Conclusion. 'This stupendous work . . . is a magnificent synoptic view of the rise of science and its impact on society which leaves the reader awe-struck by Professor Bernal's encyclopaedic knowledge and historical sweep.' Times Literary Supplement

Stop Acting Rich-Thomas J. Stanley 2011-07-12 The bestselling author of The Millionaire Next Door reveals easy ways to build real wealth With well over two million of his books sold, and huge praise from many media outlets, Dr. Thomas J. Stanley is a recognized and highly respected authority on how the wealthy act and think. Now, in Stop Acting Rich ? and Start Living Like a Millionaire, he details how the less affluent have fallen into the elite luxury brand trap that keeps them from acquiring wealth and details how to get out of it by emulating the working rich as opposed to the super elite. Puts wealth in perspective and shows you how to live rich without spending more Details why we spend lavishly and how to stop this destructive cycle Discusses how being "rich" means more than just big houses and luxury cars A defensive strategy for tough times, Stop Acting Rich shows readers how to live a rich, happy life through accumulating more wealth and using it to achieve the type of financial freedom that will create true happiness and fulfillment.

Father Martin D'Arcy-H. J. A. Sire 1997

Through a Mother's Eyes-Cary Stone 2019-07-31 A chilling look at human nature in a context where the lines between right and wrong become sadly blurred. It's a compelling account of one woman's life, and what drove her to take the life of her six-year-old son. How everyday choices shape our perceptions, justifications, and actions. One must consider how close to the edge we all are. It's a true story told in layman's terms, with the hope of preventing another tragic loss.

Art of Remington Arms-Tom Davis 2003-11-01

Armed - The Essential Guide to Concealed Carry-Bruce N. Eimer Ph D 2012-06-30 The Book Every Responsible Gun Owner MUST Read It seems everywhere you turn these days someone is offering advice on carrying a handgun for self-defense. But Armed--The Essential Guide to Concealed Carry is like nothing you've read before. Authored by Bruce N. Eimer, Ph.D., a noted psychologist with a dedication to teaching skills for staying armed and alive, Armed is the thinking gun owner's bible. This comprehensive volume breaks down not just the tools and tactics, but the mindset and choices a law-abiding citizen must have and make to become self-reliant, alert and legally armed. Inside you'll find: Why going armed is about owning your safety, not just a handgun The true mindset that drives anti-gunners How to avoid the "Hero Syndrome" What rules of engagement lead to justifiable use of force How to deal with the trauma after a shooting incident Practical dry-fire and live-fire drills Weapon retention--keeping a gun grab from happening to you The Force Continuum--how it works and the actions you'll take along its course to survive an attack And much, much more With comprehensive overviews on the gear that works and when it works, less-than-lethal rescue options, and common-sense solutions to everyday personal security problems, Armed--The Essential Guide to Concealed Carry is the one reference book that every truly responsible gun owner must read from cover to cover.

The First Americans-James Adovasio 2009-01-16 J. M. Adovasio has spent the last thirty years at the center of one of our most fiery scientific debates: Who were the first humans in the Americas, and how and when did they get there? At its heart, The First Americans is the story of the revolution in thinking that Adovasio and his fellow archaeologists have brought about, and the firestorm it has ignited. As he writes, "The work of lifetimes has been put at risk, reputations have been damaged, an astounding amount of silliness and even profound stupidity has been taken as serious thought, and always lurking in the background of all the argumentation and gnashing of tenets has been the question of whether the field of archaeology can ever be pursued as a science."

Rifling Machines and Methods-Clifford F. LaBounty 2012-06-01

The Gun Digest Book of Modern Gun Values-Phillip Peterson 2011-09-16 Learn to identify the firearms, evaluate their condition and determine value. Black Powder-Staton Rabin 2005-11-01 After his best friend is shot and killed, fourteen-year-old Langston borrows his science teacher's time machine and travels from Los Angeles in 2010 to Oxford, England, in 1278 to try to prevent Roger Bacon from publishing his formula for gunpowder.

Firearms Encyclopedia-George C. Nonte 1973 Defines gun and shooting terms. Includes appendix and index.

Ultimate Special Forces-Hugh McManners 2008 The insider's guide to the world's most highly trained military units, now in paperback. Commandos, Delta Force, SAS, SEALs... Hugh McManners, a former commando and defence correspondent for The Sunday Times, explores the training, skills, organisation and equipment behind the military expertise of the world's most highly-trained soldiers. Get the inside scoop on famous operations - from the SAS Iranian Embassy siege in London to the assault on Baghdad in the Iraq War. And discover more about combat equipment: from aircraft and submersibles to missiles, grenades and medical kit. A unique insight into the military expertise of todays global warriors.

Spycraft-Chad Brunner 2002-01-01

Trained to be an OSS Spy-Helias Doundoulakis, Gabriella Gafni 2014 Imagine the Terror: On a seemingly ordinary day in May, 1941, a boy from a tiny village in Crete faces an unexpected threat - the invasion of German troops. He runs for cover - his first escape in a series of encounters with destiny. Imagine the Adventure: The boy and his brother work for the SOE, an underground branch of the English Intelligence Service. When the resistance movement is uncovered, they quickly escape through the mountains of Crete, hiding from the enemy in broad daylight. Danger looms everywhere. Imagine the Glamour: The boy trains to be a spy for the OSS (the Office of Strategic Services), the SOE's newly formed American intelligence counterpart. Imagine the Peril: While on his undercover mission in Salonica, the boy constantly risks his life, operating a wireless radio in plain view. Will the German police ever discover him? Imagine the Courage: If captured, the boy resolves to take a poison capsule that will quickly end his young life, rather than endure torture. Often, he finds himself seconds away from that dreaded event. Imagine the Victory of living to tell the tale at age 91... It's all true! No imagination is necessary. This is the stuff of movies--a must-read story about the Game of Life. The author's story, along with those of other agents, was featured in the documentary Camp X: Secret Agent School, a production by YAP Films, and was aired on HISTORY Channel in Canada and other networks worldwide.

Sixguns-Elmer Keith 1961 "Over half a century has passed since I cut my teeth on an old .36 Navy Colt. For 40 years I have almost never been out of easy reach of a good sixgun. Thirty years I spent in the saddle, packing, punching cows and breaking saddle brones. The sixgun was worn just as regularly as my pants and many times was much more important to my existence. It pulled me out of several tight scrapes with wild horses, wilder cattle and some big game.

Though I have witnessed several gun fights, have had guns pulled on me and have been shot at several times, I have never had to use my gun on a man. Several times it was touch-and-go and perhaps only the current knowledge that I was both fast and accurate with a sixgun saved me from being embroiled. Though I do not recommend a sixgun for big game, thirty head of big game have fallen to mine, including elk, bear, deer, cougar, mountain goat and javelina. I have also trailed up a great many big game animals of various species that were wounded by sportsmen and then I finished them off. No record was kept of these or the many coyotes, bobcats and lesser game, or the livestock I have had to kill." This classic includes the following chapters: Introduction I. History of the Sixgun II. Selecting the Handgun III. Learning To Shoot IV. Sixgun Sights V. Long Range Shooting VI. Game Shooting VII. Double Action Shooting VIII. Gun Rigs and Holsters IX. Quick Draw and Hip Shooting X. Gun Fighting XI. Revolver Versus Auto Pistol XII. Aerial and Trick Shooting XIII. Slip Shooting, Fanning, Cavalry Guns XIV. Loading and Management of Cap and Ball Sixguns XV. Repairs, Remodeling, Resighting XVI. A Bullet Chapter XVII. Cartridge Reloading XVIII. Selection of Cartridges XIX. Ornamentation, Barrel Lengths, Balance, Velocities XX. Care and Cleaning Supplement

Shooter's Bible, 110th Edition-Jay Cassell 2018-10-02 Published annually for more than eighty years, the Shooter's Bible is the most comprehensive and sought-after reference guide for new firearms and their specifications, as well as for thousands of guns that have been in production and are currently on the market. GURPS High-Tech replaces GURPS High-Tech for Third Edition, GURPS Modern Firepower, and portions of GURPS Covert Ops.

The Gun Digest Book of the Remington 870-Nick Hahn 2012-12-03 While more than a few gun makers over the centuries have sold guns in numbers that meet the million mark, it's rare to do so with just a single model. But Remington did it, and they did it with a gun that defines simplicity, reliability, and dependability: the Model 870 shotgun. Now, Gun Digest, in collaboration with noted shotgun author and expert Nick Hahn, brings you a celebration of that one fantastic gun in Gun Digest Book of the Remington 870.

Classical Spies-Susan H Allen 2011-10-05 "Classical Spies will be a lasting contribution to the discipline and will stimulate further research. Susan Heuck Allen presents to a wide readership a topic of interest that is important and has been neglected." --William M. Calder III, University of Illinois, Urbana-Champaign Classical Spies is the first insiders' account of the operations of the American intelligence service in World War II Greece. Initiated by archaeologists in Greece and the eastern Mediterranean, the network drew on scholars' personal contacts and knowledge of languages and terrain. While modern readers might think Indiana Jones is just a fantasy character, Classical Spies discloses events where even Indy would feel at home: burying Athenian dig records in an Egyptian tomb, activating prep-school connections to establish spies code-named Vulture and Chickadee, and organizing parachute drops. Susan Heuck Allen reveals remarkable details about a remarkable group of individuals. Often mistaken for mild-mannered professors and scholars, such archaeologists as University of Pennsylvania's Rodney Young, Cincinnati's Jack Caskey and Carl Blegen, Yale's Jerry Sperling and Dorothy Cox, and Bryn Mawr's Virginia Grace proved their mettle as effective spies in an intriguing game of cat and mouse with their Nazi counterparts. Relying on interviews with individuals sharing their stories for the first time, previously unpublished secret documents, private diaries and letters, and personal photographs, Classical Spies offers an exciting and personal perspective on the history of World War II.

Last Son Of The War God-Clay Martin 2019-08-21 Tired of the trappings of modern life, Mike Bryant's will to live has run out. But when he crosses paths with a group of warriors who challenge him, he suddenly finds purpose. Deep in the White Cloud Mountains, a demon is awakening. The Last Son of The War God was forged in the storm of blood and fire. And now he's angry.

Behold Your Queen!-Gladys Malvern 2016-01-27 It is the ancient days of the Persian Empire. Hadassah was content in her quiet life in the Jewish quarter of the city of Babylon with her uncle Mordecai, who had raised her from childhood. But she was old enough to be married, and yet her uncle hadn't arranged a marriage for her. Meanwhile in Shushan, King Ahasuerus' marriage to the vain and selfish Vashti has ended, and a new wife must be found. Why not bring to him the most beautiful women of the kingdom, and let him choose? And so the loveliest young women of the empire are selected in local contests, and Hadassah is among those chosen to go to Shushan to meet the King. But as a Jewess in a foreign land with powerful enemies to her faith, she must conceal her true identity and take the Babylonian name of Esther. Will she find love with a man she has never met? And can she survive in a strict royal court controlled by the evil prime minister Haman, who wants to destroy her people?-Print ed.

The Winchester Book-George Madis 1985

The Shotgun Book-Jack O'Connor 1978 A standard reference work for shotgun owners and hunters includes information on new shotgun models, loads, and prices

The Mammoth Book Of Special Forces Training-Jon E. Lewis 2015-01-22 In this encyclopedic book, Lewis provides insights into the origins, training, tactics, weapons and achievements of special forces and special mission units throughout the world, focusing particularly on US and UK forces. He also looks at the codes that bind the members of these elite units together. He reveals training secrets in everything from wilderness survival to hand-to-hand combat. In doing so, he draws extensively on biographies, autobiographies, training manuals, interviews and press coverage of key operations. The elite forces covered include: The British Army's Special Air Service (SAS), established in 1950, which has served as a model for the special forces of many countries. Its counter-terrorist wing famously took part in the hostage rescue during the siege of the Iranian Embassy in London in 1980. The Parachute Regiment, the airborne infantry element of 16 Air Assault Brigade, which spearheads the British Army's rapid intervention capability. It is closely linked to United Kingdom Special Forces. The US Navy's SEALs (Sea, Air, Land Teams), trained to conduct special operations in any environment, but uniquely specialised and equipped to operate from and in the sea. Together with speedboat-operating Naval Special Warfare Combatant-Craft Crewmen, they form the operational arm of the Naval Special Warfare community, the Navy component of the US Special Operations Command. Their special operations include: neutralizing enemy forces; reconnaissance; counter-terrorism (famously in the killing of Osama bin Laden); and training allies. The US Army's Delta Force: The Special Mission Unit, 1st Special Forces Operational Detachment-Delta (1st SFOD-D), known simply as Delta Force, the Army component of Joint Special Operations Command. Its role is counter-terrorism, direct action and national intervention operations, though it has the capability to conduct many different kinds of clandestine missions, including hostage rescues and raids. The US Army Rangers, a light infantry combat formation under the US Army Special Operation Command. The Green Berets - motto: 'to free the oppressed' - trained in languages, culture, diplomacy, psychological warfare and disinformation. Russia's Spetsnaz, whose crack anti-terrorist commandos ended the Moscow theatre siege, and who have a reputation for being among the world's toughest and most ruthless soldiers. Spetsnaz units saw extensive action in Afghanistan and Chechnya, often operating far behind enemy lines. Israeli Special Forces, especially Shayetet 13 (Flotilla 13), whose motto, in common with the rest of the Israeli military, is 'Never again', a reference to the Holocaust. They are particularly adept at the specifically Israeli martial art Krav Maga, which they dub 'Jew-jitsu'.

Firearms: An Illustrated History-DK 2014-03-17 Published in conjunction with the Smithsonian Institution, Firearms: An Illustrated History charts the evolution of the gun, from the pistol and rifle to the machine gun and revolver. DK's trademark beautifully photographed catalogs of firearms and stunning close-up details of key weapons combine in this lavish history of the gun, tracing its development from early flintlocks and muskets to modern-day military guns.

The 30-06-Bob Shell 2006-04-01 The 30-06 is a comprehensive guide to the 30-06 rifle. Bob Shell covers the history and comparative performance of the 30-06 and similar type of guns. In addition he provides a guide to ammunition reloading.

The MacHine Gun V1-George M. Chinn 2011-07-01

Winchester Commemoratives-Tom Trolard 1985

Handloader's Digest-Philip P. Massaro 2015-12 It's Back And All New! Handloader's Digest, 19th Edition: The Return Of The World's Greatest Handloading Book! Handloader's Digest is the oldest and most trusted handloading resource available for the hunter, target shooter, or armed citizen who loads his or her own ammunition. If you load your own, or ever wanted to, you need Handloader's Digest, 19th Edition.

Firearms Curiosa-Lewis Winant 2009-12 This book is filled with pictures of rare, strange and unusual guns, firearms and other weapons. Lewis Winant was a major dealer and collector of firearms. He assembled here more than 300 pieces. The many strange and freakish gun fabrications that are shown in this book are a tribute to man's inventive energy as applied to the development of arms. From days just past and from days long gone, Lewis Winant has selected over 300 pieces as representative of the oddities that have been constructed to utilize the propelling force of gunpowder. There are pistols in knives and canes; pistols in flashlights, purses, plows, whips, bicycle handlebars, stirrups, keys, pipes, belts, sundials, and other contrivances. In addition there are other types classified as oddities, such as squeezers, knuckle-dusters, alarm and trap. There are combination weapons, turret, chain and harmonica pistols, guns using superposed loads and other variations from the norm. These remarkable firearms come from more than fifty collections.
