The Art Of Rhetoric-Aristotle 2014-09-02 In The Art of Rhetoric, Aristotle demonstrates the purpose of rhetoric—the ability to convince people using your skill as a speaker rather than the validity or logic of your arguments—and outlines its many forms and techniques. Defining important philosophical terms like ethos, pathos, and logos, Aristotle establishes the earliest foundations of modern understanding of rhetoric, while providing insight into its historic role in ancient Greek culture. Aristotle’s work, which dates from the fourth century B.C., was written while the author lived in Athens, remains one of the most influential pillars of philosophy and has been studied for centuries by orators, public figures, and politicians alike. The Uses of Argument-Stephen E. Toulmin 2003-07-07 A central theme throughout the impressive series of philosophical books and articles Stephen Toulmin has published since 1948 is the way in which assertions and opinions concerning all sorts of topics, brought up in everyday life or in academic research, can be rationally justified. Is there one universal system of norms, by which all sorts of arguments in all sorts of fields must be judged, or must each sort of argument be judged according to its own norms? In The Uses of Argument (1958) Toulmin sets out his views on these questions for the first time. In spite of initial criticisms from logicians and fellow philosophers, The Uses of Argument has been an enduring source of inspiration and discussion to students of argumentation from all kinds of disciplinary background for more than forty years.

An Introduction to Reasoning-Stephen Toulmin 1979

Rogerian Perspectives-Nathaniel Teich 1992-01 Advancing the application of Carl Rogers' ideas, this book presents new theoretical and practical views of Rogerian influences on rhetorical theory, the teaching of writing, and pragmatic discourse. Theoretically, discussions situate Rogerian principles within the contexts of persuasive and dialogical rhetoric, and of psychoanalytic and philosophical intersubjectivity. Also included are transcripts of an interview with Rogers, and a forum discussion epitomizing Rogerian principles in action.

Bad Feminist-Roxane Gay 2014-08-05 New York Times Bestseller A collection of essays spanning politics, criticism, and feminism from one of the most-watched young cultural observers of her generation, Roxane Gay. “Pink is my favorite color. I used to say my favorite color was black to be cool, but it is pink—all shades of pink. If I have an accessory, it is probably pink. I read Vogue, and I’m not doing it ironically, though it might seem that way. I once live-tweeted the September issue.” In these funny and insightful essays, Roxane Gay takes us through the journey of her evolution as a woman (Sweet Valley High) of color (The Help) while also taking readers on a ride through culture of the last few years (Girls, Django in Chains) and commenting on the state of feminism today (abortion, Chris Brown). The portrait that emerges is not only one of an incredibly insightful woman continually growing to understand herself and our society, but also one of our culture. Bad Feminist is a sharp, funny, and spot-on look at the ways in which the culture we consume becomes who we are, and an inspiring call-to-arms of all the ways we still need to do better.

Fundamentals of Critical Argumentation-Douglas Walton 2006 Fundamentals of Critical Argumentation presents the basic tools for the identification, analysis, and evaluation of common arguments for beginners. The book teaches by using examples of arguments in dialogues, both in the text itself and in the exercises. Examples of controversial legal, political, and ethical arguments are analyzed. Illustrating the most common kinds of arguments, the book also explains how to analyze and evaluate each kind by critical questioning. Douglas Walton shows how arguments can be reasonable under the right dialogue conditions by using critical questions to evaluate them.

Coalescent Argumentation-Michael A. Gilbert 2013-11-05 Coalescent Argumentation is based on the concept that arguments can function from agreement, rather than disagreement. To prove this idea, Gilbert first discusses how several components—emotional, visceral (physical) and kisceral (intuitive) are utilized in an argumentative setting by people everyday. These components, also characterized as "modes," are vital to argumentative communication because they affect both the argument and the resulting outcome. In addition to the components/modes, this book also stresses the goals in argumentation as a means for understanding one's own and one's opposer's positions.

Gilbert argues that by viewing positions as complex human events involving a variety of communicative modes, we are better able to find commonalities across positions, and, therefore, move from conflict to resolution. By focusing on agreement and shared goals in all modes, arguers can coalesce diverse positions and more easily distinguish between minor or unrelated differences and core disagreements. This permits much greater latitude for locating shared beliefs, values, and attitudes that will lead to conflict resolution.

Against the Death Penalty-Stephen Breyer 2016-08-23 A landmark dissenting opinion arguing against the death penalty Does the death penalty violate the Constitution? In Against the Death Penalty, Justice Stephen G. Breyer argues that it does: that it is carried out unfairly and inconsistently, and thus violates the ban on "cruel and unusual punishments" specified by the Eighth Amendment to the Constitution. "Today's administration of the death penalty," Breyer writes, "involves three fundamental constitutional defects: (1) serious unreliability, (2) arbitrariness in application, and (3) unconscionably long delays that undermine the death penalty's penological purpose. Perhaps as a result, (4) most places within the United States have abandoned its use." This volume contains Breyer's dissent in the case of Glossip v. Gross, which involved an unsuccessful challenge to Oklahoma's use of a lethal-injection drug because it might cause severe pain. Justice Breyer's legal citations have been edited to make them understandable to a general audience, but the text retains the full force of his powerful argument that the time has come for the Supreme Court to revisit the constitutionality of the death penalty. Breyer was joined in his dissent from the bench by Justice Ruth Bader Ginsburg. Their passionate argument has been cited by many legal experts — including fellow Justice Antonin Scalia — as signaling an eventual Court ruling striking down the death penalty. A similar dissent in 1963 by Breyer's mentor, Justice Arthur J. Goldberg, helped set the stage for a later ruling, imposing what turned out to be a four-year moratorium on executions.

Crusius 2002-08 Presents a process-oriented introduction to argumentation with coverage of the aims, or purposes, of argument: to inquire, to convince, to persuade, and to mediate.
