Wicked Sense-Fabio Bueno 2012-08-05 Witches inhabit our world, organized in covens and hiding behind a shroud of secrecy—the Veil. Skye’s London coven sends her to Seattle’s Greenwood High to find the Singularity, an unusually gifted witch who may break the Veil and trigger a dangerous new era of witch-hunting. Things get complicated when Skye meets a charming new classmate, Drake. Skye’s job becomes even trickier when she clashes with Jane, an intimidating rival witch. Drake falls for the mysterious Skye, but odd accidents, potion mix-ups, and the occasional brush with death kind of get in the way of romance. Once he discovers Skye is a witch, he goes to war for her, even though his only weapons are a nice set of abs and a sharp sense of humor. Fighting off wicked Jane and the other dark forces hell-bent on seizing the Singularity’s immense power, Skye and Drake will risk everything to save the covens. Going on a date has never been harder.

Ku Klux Klan in Kansas City, Kansas, The-Tim Rives 2019-08-19 The Ku Klux Klan kicked off a nationwide revival in 1921 and took Kansas City, Kansas, by storm. The majority white population--alarmed by the influx of immigrants, Catholics and Jews--joined the Klan in thousands. The Klan held picnics drawing crowds of twenty-five thousand and parades up Minnesota Avenue with thousands of Klansmen, electric lights and robed horses. They also intimidated African Americans, vandalized Catholic cemeteries and censored "offensive" books from public library shelves. Its members fed a political machine, electing more than one hundred Klansmen to local offices, from district attorney to mayor. Author Tim Rives shares this troubled and little-known story, where the men of the Klan's inner circle ruled the city for nearly thirty years.

Kelly 2012 It is 1910 and fifty-six year old William Henry Kelly, a caulker at Belfast's Queen's Island shipyard, is engaged in building the White Star liner Titanic, when Belle, his beloved wife of 30 years, is brutally murdered. Set against the background of the construction and demise of Belfast's iconic but ill-fated super liner, and the effects of the First World War on industrial and community relations in Belfast, it tells the story of an ordinary but intelligent working man's battle with social injustice and with the demons within himself. This tale of a hard-working man, whose personal tragedy is eclipsed by that of the doomed ship and her fifteen hundred lost souls, is told with humour, pathos and an affection for the characters.

Violent Femmes-Rosie White 2007-11-13 The female spy has long exerted a strong grip on the popular imagination. With reference to popular fiction, film and television Violent Femmes examines the figure of the female spy as a nexus of contradictory ideas about femininity, power, sexuality and national identity. Fictional representations of women as spies have recurrently traced the dynamic of women's changing roles in British and American culture. Employing the central trope of women who work as spies, Rosie White examines cultural shifts during the twentieth century regarding the role of women in the professional workplace. Violent Femmes examines the female spy as a figure in popular discourse which simultaneously conforms to cultural stereotypes and raises questions about women's roles in British and American culture, in terms of gender, sexuality and national identity. Immensely useful for a wide range of courses such as film and television studies, English, cultural studies, women's studies, gender studies, media studies, communications and history, this book will appeal to students from undergraduate level upwards.

The Cunning of Recognition-Elizabeth A. Povinelli 2002-06-28 The Cunning of Recognition is an exploration of liberal multiculturalism from the perspective of Australian indigenous social life. Elizabeth A. Povinelli argues that the multicultural legacy of colonialism perpetuates unequal systems of power, not by demanding that colonized subjects identify with their colonizers but by demanding that they identify with an impossible standard of authentic traditional culture. Povinelli draws on seventeen years of ethnographic research among northwest coast indigenous people and her own experience participating in land claims, as well as on public records, legal debates, and anthropological archives to examine how multicultural forms of recognition work to reinforce liberal regimes rather than to open them up to a true cultural democracy. The Cunning of Recognition argues that the inequity of liberal forms of multiculturalism arises not from its weak ethical commitment to difference but from its strongest vision of a new national cohesion. In the end, Australia is revealed as an exemplary site for studying the social effects of the liberal multicultural imaginary: much earlier than the United States and in response to very different geopolitical conditions, Australian nationalism renounced the ideal of a unitary European tradition and embraced cultural and social diversity. While addressing larger theoretical debates in critical anthropology, political theory, cultural studies, and liberal theory, The Cunning of Recognition demonstrates that the impact of the globalization of liberal forms of government can only be truly understood by examining its concrete—and not just philosophical—effects on the world.

Why Mummy Doesn't Give a ****!-Gill Sims 2020-03-05 Family begins with a capital eff. I'm wondering how many more f*cking 'phases' I have to endure before my children become civilised and functioning members of society? It seems like people have been telling me 'it's just a phase!' for the last fifteen bloody years. Not sleeping through the night is 'just a phase.' Potty training and the associated accidents 'is just a phase'. The tantrums of the terrible twos are 'just a phase'. The picky eating, the back chat, the obsessions. The toddler refusals to nap, the teenage inability to leave their beds before 1pm without a rocket being put up their arse. The endless singing of Frozen songs, the dabbing, the weeks where apparently making them wear pants was akin to child torture. All 'just phases!' When do the 'phases' end though? WHEN? Mummy dreams of a quirky rural cottage with roses around the door and chatty chickens in the garden. Life, as ever, is not going quite as she planned. Paxo, Oxo and Bisto turn out to be highly rambunctious, rather than merely chatty, and the roses have jaggy thorns. Her precious moppets are now giant teenagers, and instead of wittering at her about who would win in a fight - a dragon badger or a ninja horse - they are Snapchatting the night away, stroping around the tiny cottage and communicating mainly in grunts - except when they are demanding Ellen provides taxi services in the small hours. And there is never, but never, any milk in the house. At least the one thing they can all agree on is that rescued Barry the Wolfdog may indeed be The Ugliest Dog in the World, but he is also the loveliest.
