Geography, Resources and Environment, Volume 1-Robert Kates 1986-02 Gilbert F. White is the preeminent geographer of natural resources, hazards, and the human environment. During fifty years of professional work as civil servant, scientist, and educator, he authored numerous books and papers. This volume is the first collection of White's work, spanning his interests and career from 1934 to 1984. Individual introductions by the editors place each selection in historical perspective and assay its significance. With the companion volume, Theme from the Work of Gilbert F. White, White's writings, and the work that he inspired, are now readily accessible to all who share his concern for the stewardship of the earth.

The Geography of Crime (RLE Social & Cultural Geography)-David J. Evans 2014-01-10 This book presents original research into contemporary geographical aspects of the study of crime. The contributors, drawn from different disciplines within the social sciences and from various countries, give a review of the subject which provides a valuable insight into the geography of crime. Their approaches range from the behavioural to the environmental, and the crimes dealt with include violent crime and residential burglary. The book examines data sources, discusses different crimes and ways of studying them and considers the fear of crime. The criminal justice system in the UK is examined in detail, including policy, the operations of community and police committees and an account of the experience of crime prevention policies in Britain and North America is also given.

Revise HSC Geography in a Month-Kathryn Hocking 2002

Key Methods in Geography-Nicholas Clifford 2003-06-06 Key Methods in Geography is an introduction for undergraduates to the principal methodological issues involved in the collection, analysis and presentation of geographical information. It provides an accessible primer, which will be used by students as a reference throughout their degree, on all issues from research design to presentation. A unique feature of the book is that it provides definitions of terms from both human geography and physical geography. Organized into four parts: Getting Started in Geographical Research; Data Collection in Human Geography; Data Collection in Physical Geography; Analyzing and Representing Geographical Data. Each chapter is comprised of a short definition, a summary of the principal arguments, a substantive 5,000-word discussion, the use of real-life examples, and annotated notes for further reading. The teaching of research

methods is integral in all geography courses. Key Methods in Geography identifies the key analytical and observational strategies with which all geography undergraduates should be conversant.
