The Midnight Zoo-Sonya Hartnett 2011-09-13 Master storyteller Sonya Hartnett crafts a magical and moving fable about war and redemption . . . and what it means to be free. When the Germans attack their Romany encampment during World War II, Andrej and his younger brother, Tomas, flee through a ravaged countryside under cover of darkness, guarding a secret bundle. Their journey leads to a bombed-out town, where the boys discover a hidden wonder: a zoo filled with creatures in need of hope. Like Andrej and Tomas, the animals--wolf and eagle, monkey and bear, lioness and seal, kangaroo and llama-- have stories to share and a mission to reclaim their lives.

Statistics-Frederick L. Coolidge 2020-01-10 The Fourth Edition of Statistics: A Gentle Introduction shows students that an introductory statistics class doesn't need to be difficult or dull. Author Fred Coolidge minimizes students' anxieties about math by explaining the concepts of statistics in plain language first, before addressing the math. Each formula within the text has a step-by-step example to demonstrate the calculation so students can follow along. Only those formulas that are important for final calculations are included in the text so students can focus on the concepts, not the numbers. A wealth of real-world examples and applications gives a context for statistics in the real world and how it helps us solve problems and make informed choices. New to the Fourth Edition are sections on working with big data, new coverage of alternative non-parametric tests, beta coefficients, and the "nocebo effect," discussions of p values in the context of research, an expanded discussion of confidence intervals, and more exercises and homework options under the new feature "Test Yourself."

Munich-David Faber 2009-04-06 On 30 September 1938 Neville Chamberlain flew back to London from his meeting at Munich with the German Chancellor, Adolf Hitler. As he paused on the aircraft steps, he held aloft the piece of paper which bore both his and the Führer's signature, the promise that Britain and Germany would never go to war with one another again. He had returned bringing 'Peace with honour - Peace for our Time.' Drawing on a wealth of original archival material, David Faber sheds new light on this extraordinary story, tracing the key incidents leading up to the meeting at Munich and its immediate aftermath: Lord Halifax's ill-fated visit to Hitler; Chamberlain's secret negotiations with Mussolini, and the Berlin scandal that rocked Hitler's régime. He takes us to Vienna, to the Sudetenland, and to Prague. In Berlin, we witness Hitler inexorably preparing for war; and in London, we watch helplessly as Chamberlain makes one supreme effort after another to appease Hitler.

Gestures of Seeing in Film, Video and Drawing-Asbjørn Grønstad 2016-06-23 The first book of its kind, Gestures of Seeing in Film, Video and Drawing engages broadly with the often too neglected yet significant questions of gesture in visual culture. In our turbulent mediasphere where images - as lenses bearing on their own circumstances - are constantly mobilized to enact symbolic forms of warfare and where they get entangled in all kinds of cultural conflicts and controversies, a turn to the gestural life of images seems to promise a particularly pertinent avenue of intellectual inquiry. The complex gestures of the artwork remain an under-explored theoretical topos in contemporary visual culture studies. In visual art, the gestural appears to be that which intervenes between form and content, materiality and meaning. But as a conceptual force it also impinges upon the very process of seeing itself. As a critical and heuristic trope, the gestural galvanizes many of the most pertinent areas of inquiry in contemporary debates and scholarship in visual culture and related disciplines: ethics (images and their values and affects), aesthetics (from visual essentialism to transesthetics and synesthesia), ecology (iconoclastic gestures and spaces of conflict), and epistemology (questions of the archive, memory and documentation). Offering fresh perspectives on many of these areas, Gestures of Seeing in Film, Video and Drawing will be intensely awaited by readers from and across several disciplines, such as anthropology, linguistics, performance, theater, film and visual studies.

All Good Things-Leigh Somerville 2016-01-23 Ralph the dog is back, bringing with him the entire beautiful cast of characters from Leigh Somerville's inaugural novel "It All Started With a Dog." Back is Dupont Circle neighbor Susan, downstairs tenants Belle and Mary, super efficient legal assistant Georgia, George the aesthetic veteran, and a host of other memorable well-drawn individuals. Yet once again this wonderful continuation, "All Good Things," is the story of young Ben Turner, his grandfather John and the love they feel for marvelous Rachel Springer. At 62, engaged to the man of her dreams, Rachel suddenly finds the idea of marriage to be absurd-until she makes the chance discovery of a secret bequest left to her by her grandmother. "Leigh's books are somewhat reminiscent of Jan Karon's Mitford series in that we are given a marvelous set of characters we come to know and care about in short order. Where Leigh is surpassingly excellent, I think, is in the well drawn themes she lures us readers into considering: the resilience of true love, second chances, changing culture and its burdens, and the price of commitment. As a huge fan of her work, I just had to find out if Rachel really made it to the altar." -Laz Barnhill, author of " Lacey Took a Holiday" and " The Medicine People" "If you're looking for a ripping good story about characters you can take to heart, "All Good Things" is it. At the core is Rachel, embracing a new life at age 62 - marrying for the first time, opening her arms wide enough to take on a whole community of friends, complete with joys and tribulations, including hers. It's a fine tale well told, and that's about the best thing you can say about a book." - Robert Inman, author of "Home Fires Burning" and "Dairy Queen Days."
