The Just Bento Cookbook 2-Makiko Itoh 2019-06-19 The author of the best-selling Just Bento Cookbook is back with hundreds of delicious new Japanese-lunchbox-style recipes — including many low-carb, vegetarian, and vegan options -- that can be made quickly and without a lot of fuss. The passion for bento boxes shows no signs of letting up. Leading the way in popularizing these compact and portable boxed meals has been Makiko Itoh, blogger extraordinaire and author of the perennial bestseller, The Just Bento Cookbook. Itoh was instrumental in spreading the word that bentos are perfect for busy adults-on-the-go — they don't have to be cute and they don't have to take a lot of planning or prep time in order to be tasty, nutritious, and economical. In THE JUST BENTO COOKBOOK 2: Make-Ahead Lunches and More, Itoh offers hundreds of new recipes for bento-friendly dishes. The premise of this second cookbook is that

anyone can make delicious, healthy bentos quickly and easily. Itoh focuses on three types of bentos with specific and appealing benefits: bentos that can be made ahead of time, “express” bentos that can be put together fast, using components right off the shelf or out of the refrigerator, and bentos for special dietary needs. Full-color photos accompany the directions and showcase the finished dishes. THE JUST BENTO COOKBOOK 2 opens with Itoh’s basic bento rules, revised to reflect comments she’s heard from her many fans after the first book came out. “Build Up Your Stash” explains why having some items ready to pack up and go is the key to stress-free bento-making. Here are tips on making foods that store well, organizing storage space, the best containers to use for different foods, what store-bought items to have on hand, etc. The first section, “Make-Ahead Bentos,” features recipes for a wide variety of dishes that can be prepared the night before or first thing in the morning. Here are different kinds of meatballs and burgers, including both Western versions and Japanese variations; mouth-watering chicken, pork, beef, egg and fish dishes; a section on “Tofu and Vegan” treats such as Ginger Tofu Teriyaki and Green Lentils and Brown Rice; and recipes for Rice Sandwiches such as Egg-wrapped Rice Sandwich with Bacon Rice Filling. A special section of Low Carb recipes based on shirataki noodles and konnyaku (konjac) offers fun and creative ways to use this no-cal, no-carb, no-sugar, gluten-free “miracle” noodle in dishes like Rice and Shirataki Pilaf with Shrimp, Shirataki Chicken “Ramen” in a Lunch Jar, and Shirataki with Sesame. “Express Bentos” presents very quick-to-assemble boxes comprised of foods that don’t require detailed recipes and don’t rely on pre-homemade items. From Mediterranean Pasta and Yakisoba bentos to a Deconstructed Taco Salad and Stir-fry Bento, the ideas here will prove to be lifesavers for busy people who need to get out of the house in a hurry but still want their flavorful, filling, and healthy lunch. Other new and exciting additions to this second volume include an entire section of recipes for Vegetable Side Dishes (Roast Asparagus with Balsamic Vinegar, Spicy Broccoli, and Potato and Corn Salad), and one for Japanese Vegetable Side Dishes (Buttery Kabocha Squash, Crunchy Stir-fried Soy Beans, Hijiki Seaweed with Garlic). Recipes for different versions of dashi will help readers keep a supply of this staple ingredient at the ready. And advice on tools and equipment, types of bento boxes and accessories, as well as a glossary and resource section, will ensure that preparing bentos is as enjoyable as eating them.

The Just Bento Cookbook-Makiko Itoh 2018-12-24 Bento fever has recently swept across the West, fuelled not just by an interest in cute, decorative food, but by the desire for an economical, healthy approach to eating in these times of recession. A leading light in the popularization of bento has been Makiko Itoh, whose blog, Just Bento, boasts hundreds of thousands of subscribers, all of whom love her delicious recipes and practical bento-making tips. Now, for the first time, Itoh's expertise has been packaged in book form. The Just Bento Cookbook contains twenty-five attractive bento menus and more than 150 recipes, all of which have been specially created for this book and are divided into two main sections, Japanese and Not-so-Japanese. The Japanese section includes classic bento menus such as Salted Salmon Bento and Chicken Karaage Bento, while the Not-so-Japanese section shows how Western food can be adapted to the bento concept, with delicious menus such as Summer Vegetable Gratin Bento and Everyone Loves a Pie Bento. In addition to the recipes, Itoh includes sections on bento-making equipment, bento staples to make and stock, basic cooking techniques, and a glossary. A planning-chart section is included, showing readers how they might organize their weekly bento making. In a market full of bento books that emphasize the cute and the decorative, this book stands out for its emphasis on the health and economic benefits of the bento, and for the very practical guidelines on how to ensure that a daily bento lunch is something that can easily be incorporated into anyone's lifestyle. This is the perfect book for the bento beginner, but will also provide a wealth of new bento recipe ideas and tips for Just Bento aficionados.

Power, Process and Participation-Rachel Slocum 1995 This book focuses on participatory capacity-building in ways that address the practical needs and strategic interests of the disadvantaged and disempowered - it examines how differences in class, ethnicity, race, caste, religion, age and gender lead to the 'politics of exclusion'. It offers innovative, accessible tools to enable facilitators from both inside and outside communities to empower those who are frequently omitted from decision-making processes. The style and approach are interactive, stimulating reflection and involvement by all parties. Power, Process and Participation aims to enable facilitators from inside and outside communities to involve and empower those commonly excluded in decision making processes. It provides a balanced overview of how 'participation' has been used in this context and raises the questions that all those involved in this type of activity should ask themselves. There are three distinct sections: Part 1: Definitions, history and issues - which provides an overview of some of the broad issues underlying the themes addressed in this book. A useful brief history is given of well known participatory methodologies and key questions are asked on the

use and misuse of 'participation': whose ends does it serve, who is involved and what are the power relations, appropriate time frames and scale and how should it proceed in order to best serve the interests of the people involved? Part 2: Methods and ethics in our research and our use of the media N251pp - Whose expertise counts? How is it acknowledged? These are explored in the context of contributors' experience of undertaking research with women in Zimbabwe. Questions of ownership and consent as well as other issues are discussed further in the context of the use of video in participatory communication. Part 3: Tools for environmental and social change - The longest section in the book gives 35 tools and how to use them in facilitating participation. An introductory session explains how to use the section. Tools are cross referenced and for each the purpose, materials, process and estimated time is provided. For a number of the tools, examples of how they have been used in practice are included. Power, Process and Participation describes itself as a manual and although it does not immediately look like one, it is readable, logically arranged and combines instructions on how tools can be used with examples of how they have been used in practice. There are notes on how to use the book and how to choose from the tools offered. This book would be useful to anyone looking for both an overview of participation and how it can be used and misused; and guidance on facilitating the process.

Nothing is ever written down or said, no actual mentalism or magic gimmicks techniques or subtleties are used. The Ice Cold System was made with one goal in mind, to go up to anyone anywhere anytime, or even over the phone, and be able to tell them secrets about themselves, using life events that they have never told anyone! With no fishing, no Barnum statements, and again no magic ploys used whatsoever.

Real Sex-Mike Lousada 2017-05-30 The more modern culture shines its light on sex, the longer the shadow it casts. This shadow is commercialism, pornography and shame. This approach to sexuality distorts it to create performance pressure, increasing numbers of sexual 'dysfunctions' and a fundamental disconnect from ourselves and others. Yet sexuality is one of the most important paths to happiness, simply because it requires us to engage all the other aspects of ourselves. To have deeply satisfying sex we must engage the mind, the body and our feelings. Real Sex will show you how almost everything that our society has tried to teach you about your sexuality is misleading or simply wrong. Real Sex is a journey into the heart of your sexual self; a way of creating meaningful and fulfilling intimacy. It sets out seven keys that will teach you how to love and accept your mind, body, feelings, desires and sexuality at a deeper level, leaving behind feelings of guilt, insecurity and shame. Real Sex offers a new, integrated idea of sexuality that holds a positive perspective of the sexual beings that we are; longing for intimacy and aliveness that we know deep down makes our lives meaningful.

The Legend of Rigel-Christine Jamesson 2005-12 THE LEGEND AND MYSTERY OF RIGEL On a frigid

night in 1912 the great unsinkable Titanic sank 2 miles down to a watery grave. Many stories of heroes and villains have been passed down since that fateful night. Yet there is one hero in particular whose story has remained a mystery. Meet Rigel- the Titanic's Newfoundland dog mascot. His incredible story of courage and survival was originally published as an alleged factual account in 1912 just days after the sinking. Come along and enjoy this fictionalized story of Rigel's tragedy and triumph in spite of challenges no human could have survived! \* \* \* Yes Virginia, there may have been a Rigel. The story of Rigel was first reported in the "New York Herald" the day the Carpathia docked with Titanic's survivors. It also appeared in a well-known book: " The Sinking of Titanic and Great Sea Disasters" which was first published in 1912 a few short months after the disaster. After that there was no mention of him at all, no disclaimers, no retractions, nothing to my knowledge. Although there has been some recent mention of him in dog books all subsequent books and movies about Titanic by historians, crew and survivors don't mention him either. Why? Was he a figment of the reporter's imagination? That seems unlikely. If Rigel and new owner didn't exist then who was interviewed? Someone playing a cruel joke while wearing a uniform and holding onto a 150-pound dog? Unlikely again, but I suppose that could have happened. The only two well-known dogs that survived the sinking were toy breeds lovingly smuggled on board the lifeboats in their owner's coats. All of the other dogs on board lost their lives including a champion English Bulldog who was last seen trying to swim in the frigid water. Comparing a bulldog's swimming ability to a Newfoundland's is like expecting your Shetland Pony to win the Kentucky Derby. Bulldogs are among the worst swimmers in dog-dom and Newfoundlands are the absolute best. Many people are skeptical as to whether any creature could have survived a long distance swim in freezing water. Certainly none of the people did. "Newfie" owners and breeders have no problem believing a Newfoundland could do exactly what the record states. Bred to withstand the harsh conditions of the frigid north Atlantic they have been used to haul in heavy fishing nets and assist in water rescues. Newfoundlands could be called the "Polar bears" of the dog world. They have the same adaptations for swimming albeit on a smaller scale. And since Scientists have seen Polar Bears swimming 100 miles out to sea in freezing water and not looking the least bit exhausted, then why not? The near lifeboat collision was also never mentioned again. Perhaps it was dropped purposely. No one wanted to detract from the heroics of the Carpathia and crew. After pushing their small steamer full speed into the very same icefield that doomed Titanic, they deserved all the credit and praise that was bestowed on them. Finally there is the Jonas Briggs mystery. He isn't listed on either ship's crew list for that year. For many that is proof positive this was nothing more than a hoax. Apparently these people have never done genealogy research. Our ancestors were not sticklers for detail. Sometimes they'd spell names phonetically. Other times they'd scribble a name and then not be able to decipher it. I found one of my ancestor's names spelled 4 different ways. One spelling was way off. I changed Jonas to John in my book, a common name that could have been mistaken for Jonas. Taking into account the pandemonium surrounding the Carpathia's arrival there would certainly be some examples of miscommunication.
