Smart Polymer Nanocomposites-Deepalekshmi Ponnamma 2017-03-06 This book covers smart polymer nanocomposites with perspectives for application in energy harvesting, as self-healing materials, or shape memory materials. The book is application-oriented and describes different types of polymer nanocomposites, such as elastomeric composites, thermoplastic composites, or conductive polymer composites. It outlines their potential for applications, which would meet some of the most important challenges nowadays: for harvesting energy, as materials with the capacity to self-heal, or as materials memorizing a given shape. The book brings together these different applications for the first time in one single platform. Chapters are ordered both by the type of composites and by the target applications. Readers will thus find a good overview, facilitating a comparison of the different smart materials and their applications. The book will appeal to scientists in the fields of chemistry, material science and engineering, but also to technologists and physicists, from graduate student level to researcher and professional.

Saving Zasha-Randi Barrow 2013-01-01 In post-WWII Russia, one boy dares to save an entire race of outlawed dogs -- the German shepherd! World War II has just ended when thirteen-year-old Mikhail finds a dying man and his German shepherd, Zasha, in the woods. It's dangerous -- some say traitorous -- to own a German dog after Germany attacked Russia, so Mikhail must keep Zasha a secret to keep her alive. But Mikhail's rival, Katia, is determined to find the dog she is sure he's hiding. At the same time, a soldier named Dimitri is breeding a new Russian dog at a nearby farm. So many dogs were lost in combat, to starvation, and in the slaughter of German dogs that the country is in dire need of every kind of dog. Dimitri, too, has suspicions of Zasha's existence, and would like nothing more than to add her to his breeding program. He'll have to compete with the armed dog thieves who are also on her trail. Mikhail's inspiring journey to save his best friend, the last German shepherd in Russia, forces him to face some of life's hardest lessons about war, hate, forgiveness, hope, love, and man's best friend.

Paris Was the Place-Susan Conley 2013 oSensual and seductive, Paris Was the Place pulls you in and doesn't let you go. Find your nearest chair and start reading. With her poet's eye, Conley has woven a vivid, masterful tale of love and its costs. o -Lily King, author of Father of the Rain When Willie Pears begins teaching at a center for immigrant girls who are all hoping for French asylum, she has no idea it will change her life. As she learns their stories, the lines between teaching and mothering quickly begin to blur. Willie has fled to Paris to create a new family for herself by reaching out to her beloved brother, Luke, and her straight-talking friend, Sara. She soon falls for Macon, a charming, passionate French lawyer, and her new family circle seems complete. But Gita, a young girl at the detention center, is determined to escape her circumstances, no matter the cost. And just as Willie is faced with a decision that could have potentially dire consequences for both her relationship with Macon and the future of the center, Luke is taken with a serious, as-yet-unnamed illness, forcing Willie to reconcile with her father and examine the lengths we will go to for the people we care the most about. In Paris Was the Place, Conley has given us a beautiful portrait of on how much it matters to belong- to a family, to a country, to any one place, and how this belonging can mean the difference in our survival. This is a profoundly moving portrait of some of the most complicated and glorious aspects of the human existence- love and sex and parenthood and the extraordinary bonds of brothers and sisters. It is a story that reaffirms the ties that bind us to one another.

Race, Gender and Educational Desire-Heidi Safia Mirza 2008-11-19 'This book is a great genealogy of black women's unrecognised contributions within both education and the wide social context. I think it constitutes an important piece of work that is totally missing from the existing literature' - Diane Reay, Professor of Education, Cambridge University Race, Gender and Educational Desire reveals the emotional and social consequences of gendered difference and racial division as experienced by black and ethnicised women teachers and students in schools and universities. It explores the intersectionality of race and gender in education, taking the topic in new, challenging directions and asking How does race and gender structure the experiences of black and ethnicised women in our places of learning and teaching? Why, in the context of endemic race and gender inequality, is there a persistent expression of educational desire among black and ethnicised women? Why is black and ethnicised female empowerment important in understanding the dynamics of wider social change? Social commentators, academics, policy makers and political activists have debated the causes of endemic gender and race inequalities in education for several decades. This important and timely book demonstrates the alternative power of a black feminist framework in illuminating the interconnections between race and gender and processes of educational inequality. Heidi Safia Mirza, a leading scholar in the field, takes us on a personal and political journey through the debates on black British feminism, genetics and the new racism, citizenship and black female cultures of resistance. Mirza addresses some of the most controversial issues that shape the black and ethnic female experience in school and higher education, such as multiculturalism, Islamophobia, diversity, race equality and equal opportunities Race, Gender and Educational Desire makes a plea for hope and optimism, arguing that black women's educational desire for themselves and their children embodies a feminised prospectus for a successful multicultural future. This book will be of particular interest to students, academics and researchers in the field of education, sociology of education, multicultural education and social policy. Heidi Safia Mirza is Professor of Equalities Studies in Education at the Institute of Education, University of London, and Director of the Centre for Rights, Equalities and Social Justice (CRESJ). She is also author of *Young, Female and Black* (Routledge).

Hurricane Hurry-William Henry Giles Kingston 1914 On the north-east side of the street, about midway between the fish and flesh markets in the seaport town of Falmouth, and at about the silent and solemn hour of thirty-six minutes past one by my father's watch, on the morning of the 28th day of December, of the year of grace 1752, His Gracious Majesty George the Second being King of Great Britain and Ireland, (it is necessary in important matters to be particular). I was introduced with the usual forms and ceremonies into the ancient family of the Hurrys, as the undoubted child of my father Richard and my mother Joan, the ninth, and as it subsequently proved, the last of their promising offspring. On the 29th day of the January following, the Reverend Edward Walmsley, rector of the parish, baptised me by the names of Hurricane, with the addition of Tempest, which were selected by my parents, after numberless consultations, in compliment to my maternal grand-uncle, Sir Hurricane Tempest, Alderman of Bristol, though it did not appear from his remark when informed of the occurrence that it was likely to benefit in the remotest manner from the delicate attention which had been paid him. My early days were not remarkable, I got through the complaints incident to childhood in a manner satisfactory to my mother and the doctor, while my elder brothers and sisters took very good care that I should not be spoiled by over-indulgence. My brothers, as they advanced towards manhood, were sent into various professions, and as none of them had chosen the sea, it was decided, without my opinion being asked, that I should be made an offering to Neptune.

The Israeli Supreme Court and the Human Rights Revolution-Assaf Meydani 2011-07-25 This book explains the reciprocal relations between the Supreme Court and the Israeli political system. It is based on a unique approach that contends that the non-governability of the political system and an alternative political culture are two key formal and informal variables affecting the behavior of several political players within the Israeli arena. The analysis illustrates the usefulness of such a model for analyzing long-term socio-political processes and explaining the actions of the players. Until this model changes significantly, the decisions of the High Court of Justice express the values of the state and enable Israel to remain a nation that upholds human rights. The Court's decisions determine the normative educational direction and reflect Israel's democratic character with regard to the values of human rights.
