Star Trek: Signature Edition: Worlds in Collision-Judith Reeves-Stevens 2003-11-04 The Star Trek: Signature Edition series continues with this thrilling adventure featuring Commander Spock, Captain Kirk, and the U.S.S. Enterprise. Of all the experiences shared by Captain Kirk and the crew of the Starship Enterprise™ during their first five-year mission, two were among the most perilous: a journey to the nonphysical realm of Transition where the massive computer known as Memory Prime was situated, and the nightmarish mission to Talin IV, a world poised on the brink of destruction that Kirk was forbidden to save. In the twenty-third century, a hundred years before a sentient artificial life-form would be allowed to earn a Starfleet commission, the Federation considers the use of self-aware artificial intelligences to be little more than slavery, except for the immense computer system of Memory Prime—the key hub in the Federation's vast network of interstellar library planets. There, the A.I.s known as Pathfinders inhabit Transition—a virtual world so different from our universe that the A.I.s themselves debate whether or not the physical universe is real. But when an ancient enemy reaches out from the shadows of Vulcan's darkest history and threatens to destroy the Federation, Spock must risk his career, and his life, to enter the Pathfinders' realm. Technologically and politically, Talin IV is little different from late-twentieth century Earth. But as a series of mysterious events pushes that world closer to self-annihilation, the Prime Directive prevents Captain Kirk and his crew from doing anything to prevent it. When the worst appears to happen and Kirk takes desperate action to give the Talin a chance to step back from the nuclear abyss, Talin IV is consumed by radioactive fire. Now, with a world destroyed and the Enterprise dead in space, the careers of Kirk and his crew are over. Disgraced and despised, Kirk has only one chance to redeem himself and his crew: Somehow, he must make his way back to Talin IV and discover what really happened, even if it means proving that a world died because he broke Starfleet's most sacred law.

The Enterprise Ncc 1701 and the Model Maker-N. Datin McDonald 2015-11-17 The Star Trek Enterprise Model NCC 1701 began its journey in 1964 in my father's model shop, most of us had our first sighting of it in 1966 when it flew across out TV screen. No other cinematic vessel is nearly as famous and is still the most recognized and successful "starship" in history. It was donated by Paramount Studios to the National Air and Space Museum in Washington DC, where it will once again be on display for all its fans to view, in the summer of 2016. From Gene Roddenberry's imagination to Matt Jefferies ability to draw what was in Gene's head, to the Howard Anderson Co. for special effects, to my father's ability to read, decipher and construct from those blue-line plans to what we see today, my father had a wonderfully specialized talent and this is his story to tell.
