The Circuit-Francisco Jiménez 1999-10-25 "'La frontera'...I heard it for the first time back in the late 1940s when Papa and Mama told me and Roberto, my older brother, that someday we would take a long trip north, cross la frontera, enter California, and leave our poverty behind." one-room shacks, from picking grapes to topping carrots and thinning lettuce. Seen through the eyes of a boy who longs for an education and the right to call one place home, this is a story of survival, faith, and hope. It is a journey that will open readers' hearts and minds.

We Others-Steven Millhauser 2011-08-23 From the Pulitzer Prize-winning author: the essential stories across three decades that showcase his indomitable imagination. Steven Millhauser's fiction has consistently, and to dazzling effect, dissolved the boundaries between reality and fantasy, waking life and dreams, the past and the future, darkness and light, love and lust. The stories gathered here unfurl in settings as disparate as nineteenth-century Vienna, a contemporary Connecticut town, the corridors of a monstrous museum, and Thomas Edison's laboratory, and they are inhabited by a wide-ranging cast of characters, including a knife thrower and teenage boys, ghosts and a cartoon cat and mouse. But all of the stories are united in their unfailing power to surprise and enchant. From the earliest to the stunning, previously unpublished novella-length title story—in which a man who is dead, but not quite gone, reaches out to two lonely women—Millhauser in this magnificent collection carves out ever more deeply his wondrous place in the American literary canon.

Mr. Penumbra's 24-Hour Bookstore-Robin Sloan 2012-10-02 A gleeful and exhilarating tale of global conspiracy, complex code-breaking, high-tech data visualization, young love, rollicking adventure, and the secret to eternal life—mostly set in a hole-in-the-wall San Francisco bookstore The Great Recession has shuffled Clay Jannon out of his life as a San Francisco Web-design drone—and serendipity, sheer curiosity, and the ability to climb a ladder like a monkey has landed him a new gig working the night shift at Mr. Penumbra's 24-Hour Bookstore. But after just a few days on the job, Clay begins to realize that this store is even more curious than the name suggests. There are only a few customers, but they come in repeatedly and never seem to actually buy anything, instead "checking out" impossibly obscure volumes from strange corners of the store, all according to some elaborate, long-standing arrangement with the gnomic Mr. Penumbra. The store must be a front for something larger, Clay concludes, and soon he's embarked

on a complex analysis of the customers' behavior and roped his friends into helping to figure out just what's going on. But once they bring their findings to Mr. Penumbra, it turns out the secrets extend far outside the walls of the bookstore. With irresistible brio and dazzling intelligence, Robin Sloan has crafted a literary adventure story for the twenty-first century, evoking both the fairy-tale charm of Haruki Murakami and the enthusiastic novel-of-ideas wizardry of Neal Stephenson or a young Umberto Eco, but with a unique and feisty sensibility that's rare to the world of literary fiction. Mr. Penumbra's 24-Hour Bookstore is exactly what it sounds like: an establishment you have to enter and will never want to leave, a modern-day cabinet of wonders ready to give a jolt of energy to every curious reader, no matter the time of day.

The Right Stuff-Tom Wolfe 2008-03-04 From "America's nerviest journalist" (Newsweek)--a breath-taking epic, a magnificent adventure story, and an investigation into the true heroism and courage of the first Americans to conquer space. "Tom Wolfe at his very best" (The New York Times Book Review) Millions of words have poured forth about man's trip to the moon, but until now few people have had a sense of the most engrossing side of the adventure; namely, what went on in the minds of the astronauts themselves - in space, on the moon, and even during certain odysseys on earth. It is this, the inner life of the astronauts, that Tom Wolfe describes with his almost uncanny empathetic powers, that made The Right Stuff a classic.

Survival of the Friendliest-Brian Hare 2020 "For most of the approximately 200,000 years that our species has existed, we shared the planet with at least four other types of humans. They were smart, they were strong, and they were inventive. Neanderthals even had the capacity for spoken language. But, one by one, our hominid relatives went extinct. Why did we thrive? In delightfully conversational prose and based on years of his own original research, Brian Hare, professor in the department of evolutionary anthropology and the Center for Cognitive Neuroscience at Duke University, and his wife Vanessa Woods, a research scientist and award-winning journalist, offer a powerful, elegant new theory called "self-domestication" which suggests that we have succeeded not because we were the smartest or strongest,

but because we are the friendliest. This explanation flies in the face of conventional wisdom. Since Charles Darwin wrote about "evolutionary fitness," scientists have confused fitness with strength, tactical brilliance, and aggression. But what helped us innovate where other primates did not is our knack for coordinating with and listening to others. We can find common cause and identity with both neighbors and strangers if we see them as "one of us." This ability makes us geniuses at cooperation and innovation and is responsible for all the glories of culture and technology in human history. But this gift for friendliness comes at cost. If we perceive that someone is not "one of us," we are capable of unplugging them from our mental network. Where there would have been empathy and compassion, there is nothing, making us both the most tolerant and the most merciless species on the planet. To counteract the rise of tribalism in all aspects of modern life, Hare and Woods argue, we need to expand our empathy and friendliness to include people who aren't obviously like ourselves. need to expand our empathy and friendliness to include people who aren't obviously like ourselves. Brian Hare's groundbreaking research was developed in close collaboration with Richard Wrangham and Michael Tomasello, giants in the field of cognitive evolution. Survival of the Friendliest explains both our evolutionary success and our potential for cruelty in one stroke and sheds new light onto everything from genocide and structural inequality to art and innovation"--

What the Eyes Don't See—Mona Hanna-Attisha 2018-06-19 A NEW YORK TIMES NOTABLE BOOK • The dramatic story of the Flint water crisis, by a relentless physician who stood up to power.

“Stirring . . . [a] blueprint for all those who believe . . . that ‘the world . . . should be full of people raising their voices.’”—The New York Times “Revealing, with the gripping intrigue of a Grisham thriller.” —O: The Oprah Magazine Here is the inspiring story of how Dr. Mona Hanna-Attisha, alongside a team of researchers, parents, friends, and community leaders, discovered that the children of Flint, Michigan, were being exposed to lead in their tap water—and then battled her own government and a brutal backlash to expose that truth to the world. Paced like a scientific thriller, *What the Eyes Don't See* reveals how misguided austerity policies, broken democracy, and callous bureaucratic indifference placed an entire city at risk. And at the center of the story is Dr. Mona herself—an immigrant, doctor, scientist, and mother whose family's activist roots inspired her pursuit of justice. *What the Eyes Don't See* is a riveting account of a shameful disaster that became a tale of hope, the story of a city on the ropes that came together to fight for justice, self-determination, and the right to build a better world for their—and all of our—children. Metamorphoses-Ovid 1960 Ovid's magnificent panorama of the Greek and Roman myths-presented by a noted poet, scholar, and critic. Prized through the ages for its splendor and its savage, sophisticated wit, *The Metamorphoses* is a masterpiece of Western culture-the first attempt to link all the Greek myths, before and after Homer, in a cohesive whole, to the Roman myths of Ovid's day. Horace Gregory, in this modern translation, turns his own poetic gifts toward a deft reconstruction of Ovid's ancient themes, using contemporary idiom to bring to today's reader all the ageless drama and psychological truths vividly intact.

Kate Chopin-Per Seyersted 1980-04-01 Kate Chopin was a nationally acclaimed short story artist of the local color school when she in 1899 shocked the American reading public with *The Awakening*, a novel which much resembles *Madame Bovary*. Though the critics praised the artistic excellence of the book, it was generally condemned for its objective treatment of the sensuous, independent heroine. Deeply hurt by the censure, Mrs. Chopin wrote little more, and she was soon forgotten. For decades the few critics who remembered her concentrated on the regional aspects of her work. In the *Literary History of the United States*, where Kate Chopin is highly praised as a local colorist, *The Awakening* is not even mentioned. In recent years, however, a few critics have given new attention to the novel, emphasizing its courageous realism. In the present book, Mr. Seyersted carries out an extensive re-examination of both the life and work of the author, basing it on her total oeuvre. Much new Kate Chopin material, such as previously unknown stories, letters, and a diary, has recently come to light. We can now see that she was a much more ambitious and purposeful writer than we have hitherto known. From the beginning, her special theme was female self-assertion. As each new success increased her self-confidence, she grew more and more daring in her descriptions of emancipated woman who wants to dictate her own life. Mr. Seyersted traces the author's growth as an artist and as a penetrating interpreter of the female condition, and shows how her career culminated in *The Awakening* and the unknown story 'The Storm.' With these works, which were decades ahead of their time, Kate Chopin takes her place among the important American realist writers of the 1890's.

to most readers ; they are admirably told, with just enough dialect for local color; and they can hardly fail to be very popular. Some of these stories are little more than croquis — just a brief incident of idea sketched in with a few rapid strokes and left to the imagination of the reader to be materialized, if we may so speak. Others are longer and more finished, but all are full of that subtle, alien quality which holds the Creole apart from the Anglo-Saxon — a quality we do not quite understand and can never reproduce, but which is full of fascination to us from the very fact that it is so unlike ourselves.

A Respectable Woman-Kate Chopin 2014-04-03 They had entertained a good deal during the winter; much of the time had also been passed in New Orleans in various forms of mild dissipation. She was looking forward to a period of unbroken rest, now, and undisturbed tete-a-tete with her husband, when he informed her that Gouvernail was coming up to stay a week or two. This was a man she had heard much of but never seen. He had been her husband's college friend; was now a journalist, and in no sense a society man or "a man about town," which were, perhaps, some of the reasons she had never met him. But she had unconsciously formed an image of him in her mind. She pictured him tall, slim, cynical; with eye-glasses, and his hands in his pockets; and she did not like him. Gouvernail was slim enough, but he wasn't very tall nor very cynical; neither did he wear eyeglasses nor carry his hands in his pockets. And she rather liked him when he first presented himself. But why she liked him she could not explain satisfactorily to herself when she partly attempted to do so. She could discover in him none of those brilliant and promising traits which Gaston, her husband, had often assured her that he possessed. On the contrary, he sat rather mute and receptive before her chatty eagerness to make him feel at home and in face of Gaston's frank and wordy hospitality. His manner was as courteous toward her as the most exacting woman could require; but he made no direct appeal to her approval or even esteem.
