The Alligator Business Solution-H. Roy Austin 2017-03-28 The Alligator Business Solution, Small Business Competitive Advantage is a user's manual to help small businesses survive and thrive in the business swamp. The book covers all the major business functions small businesses must manage. Eighteen successful small businesses were interviewed so the book is both for, and about, small business. Since small business owners have limited time to read, chapters are short, often contain humor, and include both success and failure stories. Key points are emphasized as Gator Bites. There are beneficial chapter exercises, which when completed will create a business plan. Although written for small businesses, the principles apply to organizations of all types and sizes.

Strategic Management-Allen Amason 2011-03-17 Leadership, adaptability, value creation. These are the skills necessary for tomorrow's managers. Allen Amason approaches the topic of strategic management with these traits in mind. Rather than simply teaching theory and research, he seeks to communicate to them the fundamental keys to how strategy works. This book is designed to help students think critically and understand fully how to strategically manage their future firms. In so doing, it will enable them to adapt and learn, even as their circumstances change; to apply sound logic and reasoning, even in new and unfamiliar settings. By conveying enduring and fundamental principles of economic and human behavior rather than simply reporting on the latest innovations, this book succeeds in preparing students to excel in the business environment over time, regardless of how it evolves.

The Jericho Principle-Ralph Welborn 2003-05-12 Understanding the opportunities and dangers of innovation through intercompany collaboration The Jericho Principle identifies key trends and patterns in the increasing use of collaboration by corporations and creates a strategic and operational framework for answering key questions about the why and how of using collaboration to rapidly create innovation in uncertain times. Two business and technology strategists from Bearing Point Consulting, formerly KPMG, provide models and diagnostics that break down the various collaborative models in the marketplace, to give managers the tools and understanding they need to quickly and effectively launch the strategic partnerships and alliances that will drive innovation and value creation. Using case studies, client stories, and research, the authors offer the reader a clear view of the promise and peril of collaboration, revealing what works and what doesn't. Ralph Welborn (Westwood, MA), Senior Vice President, and Vincent Kasten (Fanwood, NJ), Managing Director, are senior business and technology strategists with Bearing Point Consulting, one of the world's leading management consulting and systems integration companies.
