PERT Study Guide 2020-Miller Test Prep 2020-05-27 Miller Test Prep's study guide for the PERT is the solution for students who want to maximize their score and minimize study time. Our study guides are carefully designed to provide only that clear and concise information you need. That's precisely why we put "Clear & Concise" on our cover. The standard for the study guide industry is to "throw in the kitchen sink" when it comes to making a book, meaning you are stuck with hundreds of pages of repetitive information, redundant and confusing examples, and more practice questions than any person could be expected to work through. This results in students feeling overwhelmed, leading to reduced self-confidence, which leads to lower scores! Instead, Miller Test Prep has worked specifically with tutors. Why tutors you ask? Tutors specialize in helping students comprehend information that has already been presented by a teacher. That means they see time and again what students struggle with and what actually works to help them. They specialize in helping students who have previously failed, to succeed. We compiled their decades of experience helping students just like you into this study guide, so you pass the first time! In this

Violent Criminal Acts and Actors Revisited-Lonnie H. Athens 1997 In Violent Criminal Acts and Actors Revisited, Lonnie Athens returns to his pioneering work and enlarges his original explanations of violent crime, constructed from case-by-case analyses of chilling, first-person accounts. He now takes into account not only the violent act and actor, but also the community that the actor inhabits and in which the act occurs. On the basis of this expanded theory, he outlines a new policy for the control of violent crime. Athens also tells the story behind his study, including research blunders made along the way, the violence out of which the study was born, the ongoing violence in which it was steeped, and the hostile reception it met when it was originally published. While recounting this journey, he uncovers some deeply rooted problems that still plague the field of criminology.
