Hunger-Knut Hamsun 2008-02-19 From the Back Cover: A true classic of modern literature-and a forerunner of the psychologically driven fiction of Kafka, Camus, and Saramago. Hunger is the story of a Norwegian artist who wanders the streets of Christiania (now Oslo), struggling on the edge of starvation while trying to sell his articles to the local newspaper. As the hunger overtakes his body and his mind, the writer slides inexorably into paranoia and despair. The descent into madness is recounted by the unnamed narrator in increasingly urgent and disjointed prose as he loses his grip on his body and on reality itself. At the end-for reasons that remain unclear-he suddenly decides to sign on as a crewman aboard a ship and leave the city behind, saving himself from his otherwise certain death. Arising from Hamsun's belief that literature ought to be about the mysterious workings of the human mind-an attempt, as he wrote, to describe "the whisper of the blood and the pleading of the bone marrow"--Hunger is a landmark work that pointed the way toward a new kind of novel.

Hunger-Roxane Gay 2017-06-13 From the New York Times bestselling author of Bad Feminist: a searingly honest memoir of food, weight, self-image, and learning how to feed your hunger while taking care of yourself. "I ate and ate and ate in the hopes that if I made myself big, my body would be safe. I buried the girl I was because she ran into all kinds of trouble. I tried to erase every memory of her, but she is still there, somewhere. . . . I was trapped in my body, one

that I barely recognized or understood, but at least I was safe.” In her phenomenally popular essays and long-running Tumblr blog, Roxane Gay has written with intimacy and sensitivity about food and body, using her own emotional and psychological struggles as a means of exploring our shared anxieties over pleasure, consumption, appearance, and health. As a woman who describes her own body as “wildly undisciplined,” Roxane understands the tension between desire and denial, between self-comfort and self-care. In *Hunger*, she explores her past—including the devastating act of violence that acted as a turning point in her young life—and brings readers along on her journey to understand and ultimately save herself. With the bracing candor, vulnerability, and power that have made her one of the most admired writers of her generation, Roxane explores what it means to learn to take care of yourself: how to feed your hungers for delicious and satisfying food, a smaller and safer body, and a body that can love and be loved—in a time when the bigger you are, the smaller your world becomes.

Sacred Hunger-Barry Unsworth 2012-01-10 Winner of the Booker Prize A historical novel set in the eighteenth century, Sacred Hunger is a stunning, engrossing exploration of power, domination, and greed in the British Empire as it entered fully into the slave trade and spread it throughout its colonies. Barry Unsworth follows the failing fortunes of William Kemp, a merchant pinning his last chance to a slave ship; his son who needs a fortune because he is in love with an upper-class woman; and his nephew who sails on the ship as its doctor because he has lost all he has loved. The voyage meets its demise when disease spreads among the slaves and the captain's drastic response provokes a mutiny. Joining together, the sailors and the slaves set up a secret, utopian society in the wilderness of Florida, only to await the vengeance of the single-minded, young Kemp.

Peter Nimble and His Fantastic Eyes-Jonathan Auxier 2011-12-05 Peter Nimble and His Fantastic Eyes is the utterly beguiling tale of a ten-year-old blind orphan who has been schooled in a life of thievery. One fateful afternoon, he steals a box from a mysterious traveling haberdasher—a box that contains three pairs of magical eyes. When he tries the first pair, he is instantly transported to a hidden island where he is presented with a special quest: to travel to the dangerous Vanished Kingdom and rescue a people in need. Along with his loyal sidekick—a knight who has been turned into an unfortunate combination of horse and cat—and the magic eyes, he embarks on an unforgettable, swashbuckling adventure to discover his true destiny. Praise for Peter Nimble and His Fantastic Eyes “Auxier has a juggler’s dexterity with prose that makes this fantastical tale quicken the senses.” -Kirkus Reviews

Hunger of Memory-Richard Rodriguez 2004-02-03 Hunger of Memory is the story of Mexican-American Richard Rodriguez, who begins his schooling in Sacramento, California, knowing just 50 words of English, and concludes his university studies in the stately quiet of the reading room of the British Museum. Here is the poignant journey of a “minority student” who pays the cost of his social assimilation and academic success with a painful alienation — from his past, his parents, his culture — and so describes the high price of “making it” in middle-class America. Provocative in its positions on affirmative action and bilingual education, Hunger of Memory is a powerful political statement, a profound study of the importance of language ... and the moving, intimate portrait of a boy struggling to become a man. From the Paperback edition.

Spirit Hunger-Gari Meacham 2012-10-23 We all have a desperate need for God - not just for following him or being committed to him, but to be intimately connected to him. We long for purpose, for affirmation, for attention, for nurture. But Gari Meacham writes that we fall short of being desperate for God, or we miss the longed-for romance with God we hear about in scripture. We’re uncertain how to distinguish our longings from our fears. When, says Meacham, did

our longings turn to hauntings? And when did we buy into the counterfeit yearnings for control, and the insecurity, perfectionism and other attitudes that quench Spirit Hunger? The answer to Spirit Hunger is to engage God like never before. In this book Meacham shows through her story and the stories of others how to turn worry into belief, problems and heartaches into a life of intimate prayer, and sighs for intimacy into closeness with God. She discusses her discoveries about prayer including why asking is sometimes hard, how we can notice and track God's movements as we seek his answers, and why it's sometimes such a struggle to believe after we've prayed. Meacham writes, "With the authenticity of my own life stories—marriage to a professional baseball player, struggles with severe food bondage, and a father who was a quadriplegic—I came to the crisp realization that my prayer life and my belief needed to match. Spirit Hunger provides a clear path towards matching these heart cries—leading away from crumbs and counterfeit, to a hungering for God."

A Hunger Artist-Franz Kafka 2017-04-13 A Hunger Artist is a short story by Franz Kafka. The protagonist, a hunger artist who experiences the decline in appreciation of his craft, is an archetypal creation of Kafka: an individual marginalized and victimized by society at large. The title of the story has been translated also to "A Fasting Artist" and "A Starvation Artist". A Hunger Artist was first published in the periodical Die neue Rundschau in 1922 and was subsequently included as the title piece in the short story collection. "A Hunger Artist" explores the familiar Kafka themes of death, art, isolation, asceticism, spiritual poverty, futility, personal failure and the corruption of human relationships. There is a sharp division among critical interpretations of "A Hunger Artist". Most commentators concur that the story is an allegory, but they disagree as to what is represented. Some critics[who?], pointing to the hunger artist's asceticism, regard him as a saintly or even Christ-like figure. In support of this view they emphasize the unworldliness of the protagonist, the priest-like quality of the watchers, and the traditional religious significance of the forty-day period. Other critics[who?] insist that A Hunger Artist is an allegory of the misunderstood artist, whose vision of transcendence and artistic excellence is rejected or ignored by the public. This interpretation is sometimes joined with a reading of the story as autobiographical. According to this view, this story, written near the end of Kafka's life, links the hunger artist with the author as an alienated artist who is dying.

For All Who Hunger-Emily M. D. Scott 2020 Emily Scott never planned on becoming a pastor. But when she started a church for misfits that met over dinner in Brooklyn, she discovered an unlikely calling--and an antidote to modern loneliness. "I absolutely devoured this exquisitely written memoir."--Nadia Bolz-Weber, New York Times bestselling author of Shameless As founding pastor of St. Lydia's in Brooklyn, New York, where worship takes place over a meal, Emily M. D. Scott spent eight years ministering to a scrappy collective of people with different backgrounds, incomes, and levels of social skills. Each week they broke bread, sang hymns, made halting conversation with strangers, then did the dishes. But in a city where everyone lives on top of one another yet everyone is lonely, these gatherings filled a longing that most people--even Scott--didn't realize they felt. With tenderness and humor, Scott weaves stories and reflections from the life of her unlikely congregation. Recalling her journey as a single woman and a pastor looking for love and friendship in a city of millions, she discovers how small acts of connection hold more power than we realize in a time when our differences are being weaponized, and creates activism and justice work fueled by empathy and relationship. For All Who Hunger articulates the value of church as a place where people can hear not only that they are loved but that they are good. When members of Scott's congregation build relationships with their neighbors in one of the world's most unequal cities, they find courage and resources to begin working for a more just world. For All Who Hunger is a story about a God whose love has no limits and a faith that opens our eyes to the truth. There's a place for you at the table.

Hunger Mountain-David Hinton 2012-11-13 Learning to see with the eyes of the ancient Chinese sages can change your view of the universe, as David Hinton demonstrates. He takes us on a series of walks up Hunger Mountain, a wilderness area near his home in Vermont. What he sees and describes about these outings is informed by the cosmos-view he's imbibed from his many years of translating Chinese poetry: a way of looking at nature, and our place in it, and a particular way of regarding the relationship between ourselves and the universe. It's a view that informs all the great Chinese poetry and art. It's found in Taoism and Chinese expressions of Buddhism, but it predates them by millennia, going back probably to the Paleolithic Age—and it's found in the structures of the Chinese language itself, and in the evolution of the system of writing. Each chapter takes its name and theme from a character of the Chinese alphabet, whose history and development Hinton examines. They originate as primitive marks, very literally expressing the simplest of ideas, from which they grow and develop through time to express concepts of great subtlety. The poets and artists understood this and kept their focus on the emptiness that gives birth to all

things as they used language and images that sprang from that emptiness. We learn about this as David walks up and around Hunger Mountain, making observations about the landscape, his place in it, and the underlying geological reality, telling stories of the great poets as he goes. It's the profoundest kind of nature writing, and it's an exceptionally accessible entrée to an ancient Chinese view of the universe.

Black Boy [Seventy-fifth Anniversary Edition]-Richard Wright 2020-02-18 A special 75th anniversary edition of Richard Wright's powerful and unforgettable memoir, with a new foreword by John Edgar Wideman and an afterword by Malcolm Wright, the author's grandson. When it exploded onto the literary scene in 1945, *Black Boy* was both praised and condemned. Orville Prescott of the *New York Times* wrote that "if enough such books are written, if enough millions of people read them maybe, someday, in the fullness of time, there will be a greater understanding and a more true democracy." Yet from 1975 to 1978, *Black Boy* was banned in schools throughout the United States for "obscenity" and "instigating hatred between the races." Wright's once controversial, now celebrated autobiography measures the raw brutality of the Jim Crow South against the sheer desperate will it took to survive as a black boy. Enduring poverty, hunger, fear, abuse, and hatred while growing up in the woods of Mississippi, Wright lied, stole, and raged at those around him—whites indifferent, pitying, or cruel and blacks resentful of anyone trying to rise above their circumstances. Desperate for a different way of life, he may his way north, eventually arriving in Chicago, where he forged a new path and began his career as a writer. At the end of *Black Boy*, Wright sits poised with pencil in hand, determined to "hurl words into this darkness and wait for an echo." Seventy-five year later, his words continue to reverberate. "To read *Black Boy* is to stare into the heart of darkness," John Edgar Wideman writes in his foreword. "Not the dark heart Conrad searched for in Congo jungles but the beating heart I bear." One of the great American memoirs, Wright's account is a poignant record of struggle and endurance—a seminal literary work that illuminates our own time.

Ordeal by Hunger-George R. Stewart 2013-09-30 "Compulsive reading—a wonderful account, both scholarly and gripping, of a horrifying episode in the history of the west." —Arthur M. Schlesinger Jr. The tragedy of the Donner party constitutes one of the most amazing stories of the American West. In 1846 eighty-

seven people—men, women, and children—set out for California, persuaded to attempt a new overland route. After struggling across the desert, losing many oxen, and nearly dying of thirst, they reached the very summit of the Sierras, only to be trapped by blinding snow and bitter storms. Many perished; some survived by resorting to cannibalism; all were subjected to unbearable suffering. Incorporating the diaries of the survivors and other contemporary documents, George Stewart wrote the definitive history of that ill-fated band of pioneers; an astonishing account of what human beings may endure and achieve in the final press of circumstance.

The Reproach of Hunger-David Rieff 2015-10-06 Hailed as “invaluable...a substantial work of political thought,” (New Statesman) in a groundbreaking report, based on years of reporting, David Rieff assesses whether ending extreme poverty and widespread hunger is truly within our reach, as is increasingly promised. Can we provide enough food for nine billion people in 2050, especially the bottom poorest in the Global South? Some of the most brilliant scientists, world politicians, and aid and development experts forecast an end to the crisis of massive malnutrition in the next decades. The World Bank, IMF, and Western governments look to public-private partnerships to solve the problems of access and the cost of food. “Philanthrocapitalists” Bill Gates and Warren Buffett spend billions to solve the problem, relying on technology. And the international development “Establishment” gets publicity from stars Bob Geldorf, George Clooney, and Bono. “Hunger, [David Rieff] writes, is a political problem, and fighting it means rejecting the fashionable consensus that only the private sector can act efficiently” (The New Yorker). Rieff, who has been studying and reporting on humanitarian aid and development for thirty years, takes a careful look. He cites climate change, unstable governments that receive aid, the cozy relationship between the philanthropic sector and giants like Monsanto, that are often glossed over in the race to solve the crisis. “This is a stellar addition to the canon of development policy literature” (Publishers Weekly, starred review). The Reproach of Hunger is the most complete and informed description of the world’s most fundamental question: Can we feed the world’s population? Rieff answers a careful “Yes” and charts the path by showing how it will take seizing all opportunities; technological, cultural, and political to wipe out famine and malnutrition.

Father Hunger-Douglas Wilson 2012 Filled with practical ideas and self-evaluation tools, Father Hunger both encourages and challenges men to embrace the high calling of fatherhood, becoming the dads that their families and our culture so desperately need them to be."

An Unspoken Hunger-Terry Tempest Williams 2015-03-18 The acclaimed author of Refuge here weaves together a resonant and often rhapsodic manifesto on behalf of the landscapes she loves, combining the power of her observations in the field with her personal experience—as a woman, a Mormon, and a Westerner. Through the grace of her stories we come to see how a lack of intimacy with the natural world has initiated a lack of intimacy with each other. Williams shadows lions on the Serengeti and spots night herons in the Bronx. She pays homage to the rogue spirits of Edward Abbey and Georgia O’Keeffe, contemplates the unfathomable wildness of bears, and directs us to a politics of place. The result is an utterly persuasive book—one that has the power to

change the way we live upon the earth.

Reality Hunger-David Shields 2010-02-23 A landmark book, “brilliant, thoughtful” (The Atlantic) and “raw and gorgeous” (LA Times), that fast-forwards the discussion of the central artistic issues of our time, from the bestselling author of *The Thing About Life Is That One Day You'll Be Dead*. Who owns ideas? How clear is the distinction between fiction and nonfiction? Has the velocity of digital culture rendered traditional modes obsolete? Exploring these and related questions, Shields orchestrates a chorus of voices, past and present, to reframe debates about the veracity of memoir and the relevance of the novel. He argues that our culture is obsessed with “reality,” precisely because we experience hardly any, and urgently calls for new forms that embody and convey the fractured nature of contemporary experience.

Food Bank Nations-Graham Riches 2018-04-19 In the world’s most affluent and food secure societies, why is it now publicly acceptable to feed donated surplus food, dependent on corporate food waste, to millions of hungry people? While recognizing the moral imperative to feed hungry people, this book challenges the effectiveness, sustainability and moral legitimacy of globally entrenched corporate food banking as the primary response to rich world food poverty. It investigates the prevalence and causes of domestic hunger and food waste in OECD member states, the origins and thirty-year rise of US style charitable food banking, and its institutionalization and corporatization. It unmask the hidden functions of transnational corporate food banking which construct domestic hunger as a matter for charity thereby allowing indifferent and austerity-minded governments to ignore increasing poverty and food insecurity and their moral, legal and political obligations, under international law, to realize the right to food. The book’s unifying theme is understanding the food bank nation as a powerful metaphor for the deep hole at the centre of neoliberalism, illustrating: the de-politicization of hunger; the abandonment of social rights; the stigma of begging and loss of human dignity; broken social safety nets; the dysfunctional food system; the shift from income security to charitable food relief; and public policy neglect. It exposes the hazards of corporate food philanthropy and the moral vacuum within negligent governments and their lack of public accountability. The advocacy of civil society with a right to food bite is urgently needed to gather political will and advance ‘joined-up’ policies and courses of action to ensure food security for all.

An Ethnography of Hunger-Kristin Phillips 2018-08-29 In *An Ethnography of Hunger* Kristin D. Phillips examines how rural farmers in central Tanzania negotiate the interconnected projects of subsistence, politics, and rural development. Writing against stereotypical Western media images of spectacular famine in Africa, she examines how people live with—rather than die from—hunger. Through tracing the seasonal cycles of drought, plenty, and suffering and the political cycles of elections, development, and state extraction, Phillips studies hunger as a pattern of relationships and practices that organizes access to food

and profoundly shapes agrarian lives and livelihoods. Amid extreme inequality and unpredictability, rural people pursue subsistence by alternating between—and sometimes combining—rights and reciprocity, a political form that she calls "subsistence citizenship." Phillips argues that studying subsistence is essential to understanding the persistence of global poverty, how people vote, and why development projects succeed or fail.
