The Story of Palo Duro Canyon-Duane F. Guy 2001 Of the canyons that break the eastern edge of the Staked Plains, Palo Duro is by far the most spectacular. As one approaches the edge, the earth opens up into a vast gash, a geological and ecological wonder. And whether you come to Palo Duro as a novice or veteran canyoneer, the thrill and the mystery are always intense. How did the canyon get here? What caused the vari-color of the walls and formations? Why do some formations stand completely separated from the canyon walls? Did the little stream running along the canyon floor form this canyon all by itself? Who were the first people to find this canyon and how did they react? On this last question imagination goes to work and contemplates what ancient people must have felt when they, even less aware than we, stumbled upon the chasm rim and quickly realized that they had found a bonanza, an immense concentration of water, wood, game, and protection--all they needed to sustain life.--Frederick W. Rathjen Originally published as an edition of the Panhandle Plains Historical Review, The Story of Palo Duro Canyon, with its seven essays devoted to geology, archeology, paleontology, vegetation, park development, and the amphitheater, and its road log from Canyon, Texas, through the Palo Duro State Park, has become a classic. This Double Mountain Books edition, with a new introduction by Frederick W. Rathjen, makes 04 Activeable once again a comprehensive discovery and invaluable memento for the

many thousands who visit the park each year.

Campfire Tales-Kent Mason 2012-10-19 If you are one of those lucky ones who have sat around a campfire and listened to the stories that are repeated there then you know that gazing into an open fire out there in that part of the world that is still the way God made it can have a profound effect upon a mans senses.

Peering intently into those dancing flames can rejuvenate a man's memory and oil his tongue. Many times the tales that are inspired by those surroundings arr priceless gems that should never be allowed to die. They should be kept alive so future generations may enjoy them. This book is a collection of yarns about hunting and fishing trips which the author has put down on paper for this and future generations to read and enjoy. Anyone who enjoys the feelings that being in the great outdoors can bring will enjoy this book.

Doctor Tales-Blair Beebe M. D. 2008-11 Stories about American healthcare have been told in print, on film, on television and radio, and in every form imaginable. The story of American healthcare, however, has never been told in quite the same way as in Dr. Blair Beebe's Doctor Tales. Through lyrical and compelling narrative, Dr. Beebe uses fourteen tales to tell his story of how our healthcare structure evolved to become the most advanced, and problematic, system in the world. Beginning with the viewpoint of an impressionable twenty-one-year-old first-year medical student, he continues with numerous patient encounters in hospital settings, and ends with a fictional community's response to an avian influenza epidemic transposed from a real outbreak in the Far East. Doctor Tales draws from the lives of real doctors, nurses, and patients to show the changes that have occurred during the second half of the twentieth century that have led to spectacular new treatments, and equally stunning shortfalls in healthcare.

Tales From the Back Green-Bill Paterson 2009-08-06 When these captivating Tales from the Back Green were broadcast on BBC Radio they were described by The Herald as 'a vividly engaging portrait of a vanished city' and The Scotsman as 'an engaging series fondly and wittily rendered'. Now published for the first time, actor Bill Paterson's stories brilliantly evoke his 1950s Glasgow boyhood. This is a world of intriguing characters and extraordinary events set against the background of the changes and challenges of the post-war era ? the nuclear threat, the fading dominance of the kirk, Rock and Roll, the disappearance of the beloved trams, and why penny whoppers were not worth tuppence. As a young surveyor, Paterson was witness to the dramatic transformation of the city, as austere tenements were swept away to make way for new roads and high-rise blocks. Tales From the Back Green is a brilliant realisation of childhood and youth; of memories Paterson describes as 'suspended in amber like Jurassic Park's mosquito, with its DNA still intact.' He wonders whether our memories change from grey to gold as the years pass - do we naturally recall our childhood as a time of optimism and hope?

Weird Scenes Inside The Canyon-David McGowan 2014-03-19 The very strange but nevertheless true story of the dark underbelly of a 1960s hippie utopia. Laurel Canyon in the 1960s and early 1970s was a magical place where a dizzying array of musical artists congregated to create much of the music that provided the soundtrack to those turbulent times. Members of bands like the Byrds, the Doors, Buffalo Springfield, the Monkees, the Beach Boys, the Turtles, the Eagles, the Flying Burrito Brothers, Frank Zappa and the Mothers of Invention, Steppenwolf, CSN, Three Dog Night and Love, along with such singer/songwriters as Joni Mitchell, Judy Collins, James Taylor and Carole King, lived together and jammed together in the bucolic community nestled in the Hollywood Hills. But there was a dark side to that scene as well. Many didn't make it out alive, and many of those deaths remain shrouded in mystery to

this day. Far more integrated into the scene than most would like to admit was a guy by the name of Charles Manson, along with his murderous entourage. Also floating about the periphery were various political operatives, up-and-coming politicians and intelligence personnel – the same sort of people who gave birth to many of the rock stars populating the canyon. And all the canyon’s colorful characters – rock stars, hippies, murderers and politicians – happily coexisted alongside a covert military installation.

Navy and Army Illustrated- 1905

Tales of a pathfinder-A.L. Westgard 1920 The Federal Government has already placed the zero milestone in Washington to designate the point from which a system of National highways will extend clear to the surf-beat of the Pacific and from lands of snow to lands of sun. The Federal Government, the States and the Counties are working out a system of National, State and County highways, the most important of which will be the first improved. The creation of such a system of highways will do more for the welfare and advancement of the people of the United States, more for the unity, security, development and glory of the Nation than could possibly be accomplished by a like expenditure of money and energy in any other line of endeavor. If this be true, what is the measure of the debt of gratitude which the public owes to the apostles of better roads and to the men who have pioneered the ways that are now to become the great National Thoroughfares. Among the latter, chief indeed of the Pathfinders, is the author of this volume, A.L. Westgard. - Foreword.

Tales from the Desert-Roger A. Williams 2012-10-01 This book describes a series of events occurring in the desert, often humorous, sometimes chaotic and even life-threatening, experienced by a boy and the man he became. The book also is well larded with science, lore and techniques for survival in the beautiful and often harsh desert environment. Growing up in Palm Springs a half-century ago, I was surrounded by celebrities. As a member of my high school tennis team in 1956, we were allowed to play at the world famous Racquet Club if we agreed to complete a foursome with guests when asked by the tennis professional. One day Marilyn Monroe needed a partner and I was chosen. On my first serve I hit my

partner in the buttocks. Some say the ball goes where you were looking.
