Betrayal In Blood-Michael Benson 2014-11-19 Her Cheating Heart "Mommy...won't be with us anymore." That's what attorney Kevin C. Bryant, 45, told his two young sons in the spring of 2003. At the time, blonde, pretty, 26-year-old Tabatha Bryant was alive and well in an upscale suburb of Rochester, New York. But that was about to change--because Bryant knew his wife was cheating--and he intended to end the affair by ending her life. On June 14, 2003, he called 911 to report Tabatha slain by an unknown intruder who'd shot her in the eye with a .22 and repeatedly stabbed her in the neck and upper body. His Evil Plan A drug bust led to Cassidy Green's confession that she'd driven the getaway car. She fingered boyfriend Cyril Winebrenner as the killer. He and Kevin Bryant were buddies who'd regularly gone on cocaine-fueled sex binges with hookers. Astoundingly, Winebrenner was also Tabatha's half-brother--but Bryant's \$5,000 had convinced him that money is thicker than blood. In a trial that shook "Country Club Row," prosecutors would present evidence and testimonies that revealed ever more sordid details, leading to final justice for the lawyer who tried to get away with murder...

Blood, Sand and Betrayal-Jose Benavides 2007-12 Intriguing Book of Poetry Published by a Brain Injury Survivor Gray Matters, Brain Injury: The Inside Perspective is a book filled with poetic insights of a woman who lived through a near-fatal brain injury. Her intimate knowledge and sense of humor can help survivors cope, as well as better understand their injuries and themselves. This book gives a personal sense or Inside Perspective of brain injury, thus enabling readers to better understand brain injury survivors. Brain injury occurs around the world in a variety of circumstances; in sports events, motor-vehicle accidents, terrorist attacks & war (and the list goes on)... According to the International Brain Injury Association, head injury is the leading cause of death and disability worldwide. Thirty percent of the soldiers that have returned from Iraq and are returning from Afghanistan have Traumatic Brain Injuries; more than two percent of the United States' population has sustained a Traumatic Brain Injury. Even with brain injury being so widespread, it is still hard to identify people living with the complications of this "invisible disability." Ms. Lerner knows that the lack of awareness regarding brain injury makes survivors' lives quite problematic. Writing Gray Matters was aimed at easing the integration of survivors back into the community. With a creative flair, she informs her readers about brain injury; she strikes a chord by sharing personal changes, loss and challenges, thus giving readers a sense of what it is like to walk in the shoes of a brain injury survivor. The chapters of the book cover topics including: brain injury, the symptoms of injury, rehabilitation, the brain, academic rehab, recreational therapy (including nature & the ocean's healing influence) and brain injury peer support. This book will considerably help brain injury survivors to better understand their injury and themselves, it will also aid them by being better understood by others. Gray Matters has helped family members and friends to better understand their loved ones. This book can also be a great asset to rehab professionals, by giving them a more intimate understanding of the dilemmas of a brain injury; for only when you know what an individual's problem is, can you treat it. Gray Matters offers an articulate, introspective and sometimes humorous view of what it is like to suffer a near-fatal blow to the head and live with its complications. The author presents a thorough, subjective viewpoint as well as a professional and objective understanding of brain injury. Gray Matters presents a deeper understanding of the inner-workings of the mind and how in many ways, brain injury effects life as we know it.

Blood Betrayal-Sheila Johnson 2006-09-01 Crazy Kills "The worst I've ever seen" - that's how Sheriff Cecil Reed described the July 7, 1995 slayings of Carolyn Headrick, 44, and her mother Dora Ann Dalton, 62. The two were found in their home in rural DeKalb County, Alabama, where they'd been shot, stabbed and then even speared by a Native American style lance. Randy Headrick, Carolyn's husband, was the beneficiary of \$325,000 in insurance money. But he swore he'd been at work when the murders were committed--and the police couldn't break his alibi. Bad News Headrick was a troublemaker who'd spent four years in a Texas prison for possession of a pipe bomb. More recently, he'd had an affair with a married woman--which his second wife Carolyn had discovered. The woman had later been harassed and her house had mysteriously burned down. The police knew Headrick was bad news but they just couldn't nail him on these murders. There was only one person who knew for sure if Headrick was the killer . . .

Living and Loving after Betrayal-Steven Stosny 2013-09-01 Betrayal has many faces, including anger, abuse, deceit, and infidelity. These feel like betrayal because they violate the implicit promise of emotional bonds, that your loved one will care about your wellbeing and never intentionally hurt you. If you've recently left a relationship where you felt betrayed by your partner—or if you want to repair one—it can seem impossible to view the world without the shadow of past betrayal hovering over you. As a result, you may struggle to create meaning in your life, find the strength to forgive, or build new, loving relationships. InLiving and Loving after Betrayal, therapist and relationship expert Steven Stosny offers effective tools for healing, based on his highly successful CompassionPower program. He founded the CompassionPower agency on the belief that we are more powerful when compassionate than when angry or aggressive, and that true strength comes from relating compassionately to others and remaining true to your deeper values. In this book, you'll learn practical strategies for overcoming betrayal-induced trauma and the chronic resentment and depression that result, using this innovative compassion-empowerment approach. Most books on betrayal only focus on the obvious issues, such as infidelity, abuse, or sex addiction. This book explores the effects of those kinds of betrayal, as well as less-talked-about types, such as emotional manipulation, dishonesty, deceit, and financial cheating. In addition, the book helps you regain a sense of trust in others so that you can eventually find another compassionate person to share your life with or, if you choose, to rebuild a relationship with your reformed betrayer. Recovering from the betrayal of partner isn't easy, but Living and Loving after Betrayaloffers potent ways to heal, grow, and love again.

Blood Betrayal-Tessa Dawn 2017-06-05 Saxson Olaru is one of the select, the few, the elite... As a ruthless sentinel sworn to protect the ancient Vampyr king and the house of Jadon, he has "HOJ" literally inscribed on his heart: a heart that was tragically broken centuries earlier, when human hunters slayed his mother and Dark Ones murdered his father. Having survived the unthinkable, he never dreamed he would come this close to another human predator, let alone

a female pretending to be his destiny. Kiera and Kyla Sparrow are twin sisters: humans, living very different lives. While Kiera is selfless, clever, and talented, Kyla is dark, duplicitous, and damaged—she belongs to a secret society of vampire-hunters, and she has sworn to destroy as many as she can. When Saxson's Blood Moon appears in a February sky, and the matching constellation, Cetus the Sea Monster, appears on Kiera's wrist, Kyla knows exactly what it means: The celestial gods have chosen her beautiful sister to be the eternal mate of an immortal vampire—she just doesn't know which one. And it really doesn't matter. If Kyla can recreate the sacred emblem on her own inner wrist, she can take Kiera's place and commit the ultimate Blood Betrayal. When duty, obedience, and honor clash with a deep, gnawing intuition, an honor-bound warrior will be forced to choose between allegiance to the house he loves and the quiet voice within, whispering: "Warning!" One wrong move. One wrong choice. And all will be lost forever.

The Betrayal of the People in the Aldrich-Wilson Federal Reserve Act and Rural Credits Bill-Thomas Cushing Daniel 1916

A Dog in a Hat-Joe Parkin 2012-02-01 In 1987, Joe Parkin was an amateur bike racer in California when he ran into Bob Roll, a pro on the powerhouse Team 7-Eleven. "Lobotomy Bob" told Parkin that, to become a pro, he must go to Belgium. Riding along a canal in Belgium years later, Roll encountered Parkin, who he saw as "a wraith, an avenging angel of misery, a twelve-toothed assassin". Roll barely recognized him. Belgium had forged Parkin into a pro bike racer, and changed him forever. A Dog in a Hat is Joe's remarkable story. Leaving California with a bag of clothes, two spare wheels, some cash, and a phone number, Parkin left the comforts of home for the windy, rainswept heartland of European cycling. As one of the first American pros in Europe, Parkin was what the Belgians call "a dog with a hat on" -- something familiar, yet decidedly out of place. Parkin lays out the hard reality of the life--the drugs, the payoffs, the betrayals by teammates, the battles with team owners for contracts and money, the endless promises that keep you going, the agony of racing day after day, and the glory of a good day in the saddle. A Dog in a Hat is the unforgettable story of the un-ordinary education of Joe Parkin and his love affair with racing, set in the hardest place in the world to be a bike racer. It is a story untold until now, and one that you will never forget.

The betrayal of Metz: being a new and revised ed. of 'The fall of Metz', with a postscript containing a summary of the proceedings of the court-martial upon marshal Bazaine-George Thomas Robinson 1874

The Betrayal of John Fordham-Benjamin Leopold Farjeon 1896 My name is John Fordham, and I am thirty-four years of age. So far as I can judge I am at present of sound mind, though sadly distraught, and my memory is fairly clear, except as to the occurrences of a certain terrible night in December two years ago, which are obscured by a black cloud which I have striven in vain to pierce. These occurrences, and the base use to which they have been turned by an enemy who has made my life a torture, have brought me to a pass which will cause me presently to stand before the world as a murderer. No man accuses me. It is I who accuse myself of the horrible crime, though I call God to witness that I know not how I came to do it, save that it must have been done in self-defense. But who will believe me in the face of the damning evidence which I afterwards found in my possession—and who will believe that when the fatal deed was done I did not see the features of the man I killed, and did not know who he was? My protestations will be regarded as weak inventions, and will be received with incredulity—as probably I should receive them were another man in my place, and I his judge. It is the guiltiest persons who most loudly proclaim their innocence, and I shall be classed among them. Am I, then, weary of life that I deliberately place myself in deadly peril, and invite the last dread sentence of the law to be passed upon me? In one sense, yes. Not a day passes that my torturer does not present himself to sting and threaten me and aggravate my sufferings. My nights are sleepless; even when exhausted nature drives me into a brief stupor my fevered brain is crowded with frightful images and visions. So appalling are these fancies that there is a danger of my being driven mad. Death is preferable. And yet, but a few moments before I committed the crime, I was looking forward hopefully to a life of peace and love with a dear and noble woman who sacrificed her good name for me, and whom I promised to marry when I was freed from a curse which had clung to me for years. The night was cold, the snow was falling, but there was joy in my heart, and I walked along singing. Great God! my heart throbs with anguish as I think of the heaven which might have been mine had not cruel fate suddenly dashed the cup of happiness from my lips. But it is useless to repine; I yield because it is forced upon me. One consoling thought is mine. The dear woman I love with a love as true and sincere as ever beat in the heart of man, will turn to me with pity, will visit me in the prison to which I go of my own accord, and in the solemn farewell we shall bid one another will extend her hands and forgive me for the wrong I have done her and our child.

The daily prayers, Psalms, readings and meditations make for a balanced spiritual practice. This edition is unique in using inclusive language for all its prayers, Bible readings, meditations, Psalms and Canticles, the "little songs" of scripture. Blood Diamonds, Revised Edition-Greg Campbell 2012-04-03 First discovered in 1930, the diamonds of Sierra Leone have funded one of the most savage rebel campaigns in modern history. These "blood diamonds" are smuggled out of West Africa and sold to legitimate diamond merchants in London, Antwerp, and New York, often with the complicity of the international diamond industry. Eventually, these very diamonds find their way into the rings and necklaces of brides and spouses the world over. Blood Diamonds is the gripping tale of how the diamond smuggling works, how the rebel war has effectively destroyed Sierra Leone and its people, and how the policies of the diamond industry - institutionalized in the 1880s by the De Beers cartel - have allowed it to happen. Award-winning journalist Greg Campbell traces the deadly trail of these diamonds, many of which are brought to the world market by fanatical enemies. These repercussions of diamond smuggling are felt far beyond the borders of the poor and war-ridden country of Sierra Leone, and the consequences of overlooking this African tragedy are both shockingly deadly and unquestionably global. Updated with a new epilogue.

The Blood Oranges: A Novel-John Hawkes 1972-04-17 No synopsis or comparison can convey the novel's lyric comedy or, indeed, its sinister power—sinister because of the strength of will Cyril exerts over his wife, his mistress, his wife's reluctant lover; lyric, since he is also a "sex-singer" in the land where music is the food of love. "Need I insist that the only enemy of the mature marriage is monogamy? That anything less than sexual multiplicity . . . is naive? That our sexual selves are merely idylers in a vast wood?" Thus the central theme of John Hawkes's widely acclaimed novel The Blood Oranges is boldly asserted by its narrator, Cyril, the archetypal multisexualist. Likening himself to a white bull on Love's tapestry, he pursues his romantic vision in a primitive Mediterranean landscape. There two couples—Cyril and Fiona, Hugh and Catherine—mingle their loves in an "Illyria" that brings to mind the equally timeless countryside of Shakespeare's Twelfth Night.
