Armies of the Adowa Campaign 1896-Sean McLachlan 2011-09-20 In the late 19th century, the new nation-state of Italy was eager to join her European neighbours in creating an international empire, and her eyes turned toward Africa as a source of potential colonies. Securing a foothold in Eritrea on the Red Sea coast, the Italians quickly became embroiled in a shooting war with the Ethiopians. The war proved a disaster for the Italians, who suffered three major defeats against the forces of Emperor Menelik's army, including a horrendous massacre at Adowa, the largest defeat of a colonial army prior to World War I. This book looks at the campaign with an emphasis on the colourful uniforms worn by both sides.

The Battle of Adwa-Raymond Jonas 2011-11-29 In 1896 a massive Ethiopian army routed an invading Italian force and brought Italy's conquest of Africa to an end. In defending its independence, Ethiopia cast doubt on the assumption that all Africans would fall under the rule of Europeans, and opened a breach that would lead to the continent's painful struggle for freedom from colonial rule.

The Battle of Adwa-Paulos Milkias 2005 Ethiopia trounced the Italians in 1896 in the greatest African victory over Europe since Hannibal, but failed to prevent the loss of Eritrea. The event was a powerful constitutive force in the rise of modern Africa and pan-Africanism and resounds in the shared memory of Africans and Black Americans even today.

"Between the Jaws of Hyenas"-Richard Alan Caulk 2002 With the publication of this book, the definitive

work on the diplomatic history of Ethiopia in the last quarter of the nineteenth century could be said to have seen the light of day. The book deals with a crucial period when the destiny of Ethiopia hang in the balance. The question - as indeed it was the case for the rest of Africa - was whether the country was to remain independent or become colonized. Menilek, combining diplomatic and military initiatives, not only ensured that Ethiopia remained independent but also expanded its territory to unprecedented limits. The book is based on a critical reading of the secondary literature as well as an exhaustive and analytical use of all the pertinent archival sources, the memoirs and biographies of the principal European characters, and Ethiopian chronicles, biographies and other primary sources. It can serve as the standard text for teaching courses on Ethiopia and the Horn at the university level. At the same time, it provides a useful background to those interested in the formation of the modern Ethiopian state as well as its troubled relations with what eventually became Eritrea.

The Italian Invasion of Abyssinia 1935-36-David Nicolle 2012-07-20 In October 1935 Mussolini ordered the invasion of Ethiopia from Italian-held Eritrea and Somaliland, thinking that he would easily crush an ill-prepared and badly equipped enemy. The Italians, in the face of widespread condemnation from the League of Nations, spread terror and destruction through their indiscriminate use of air power and poison gas against an enemy more used to medieval methods of warfare. David Nicolle examines in detail the units, equipment and uniforms of the forces on both sides of this conflict that unrealistically bolstered Il Duce's colonial ambitions. A great read ably supported by Raffaele Ruggeri's detailed full-page colour plates.

Brazilian Expeditionary Force in World War II-Cesar Campiani Maximiano 2011-12-20 In the English-

speaking world, it is generally unknown that a volunteer Brazilian Expeditionary Force (FEB) fought alongside the US Army in Italy from mid-1944 until the end of the war. This was in effect a light infantry division, consisting of three infantry regiments augmented with artillery and light armour. It was supported by a Brazilian Air Force contingent of a light reconnaissance squadron as well as a P-47 Thunderbolt-equipped fighter squadron. Although all weapons, uniform, kit and equipment were either American-supplied or American models, there were distinctive Brazilian adaptations to uniforms and other key pieces of kit. This is a seriously researched volume on a little-studied subject matter complete with a range of previously unpublished photographs and specially commissioned artwork plates.

Caesar in Abyssinia-G. L. Steer 2020-10-16 I have no desire, however, to belittle the military achievement of Italy in Ethiopia. I believe that an absurd excess of force was used that considering the condition of the Italian Treasury the war might have been waged more cheaply, and that the war provides no index whatsoever of the behaviour of an Italian Army, even of the organisation of an Italian Army, fighting against an equal enemy. The Italians, nevertheless, did reach their objective, Addis Ababa, within seven months of the outbreak of aggression. My task is rather in this book to show what was the strength and spirit of the Ethiopian armies sent against a European Great Power. My conclusions are that they had no artillery, no aviation, a pathetic proportion of automatic weapons and modern rifles, and ammunition sufficient for two days modern battle. I have seen a child nation, ruled by a man who was both noble and intelligent, done brutally to death almost before it had begun to breathe. The Italians do not figure much in these pages, which are more the study of the Ethiopian people under fire than of the mechanical means and processes used to destroy their resistance. The primary cause of their defeat was that they had no arms, and were allowed none. The secondary cause of their defeat was Italian air supremacy, exploited eventually by the spraying of mustard gas. The great Ras said that they could not fight the heavens or the burning rain.
