Seize the Trident-Douglas R. Burgess 2005 Seize the Trident re-creates the Anglo-German race to build the biggest, fastest, most luxurious passenger ships in the world. Sparked in 1889 by the kaiser's declaration that he would "seize the trident" from English shipping firms, this friendly rivalry soon became a clash of fierce national pride, personal ego, and global ambitions, including those of wealthy robber barons such as J. P. Morgan. Douglas Burgess delivers a riveting account of the race's origins, how it both paralleled and influenced the naval rearmament of the same period, and the crowning irony of its outcome. In size and splendor, the Germans won hands-down, but German ships in U.S. ports were seized at the outbreak of World War I. Later, they would carry hundreds of thousands of U.S. troops to fight against Germany. Seize the Trident is must reading for maritime enthusiasts, history buffs, and anyone impressed by the splendor of this bygone era.

Amidst Mass Atrocity and the Rubble of Theology-Peter Admirand 2012-03-16 It is hubris to claim answers to unanswerable questions. Such questions, however--as part of their burden and worth--must still be asked, investigated, and contemplated. How there can be a loving, all-powerful God and a world stymied by suffering and evil is one of the unanswerable questions we must all struggle to answer, even as our responses are closer to gasps, silences, and further questions. More importantly, how and whether one articulates a

response will have deep, lasting repercussions for any belief in God and in our judgments upon one another. Throughout this wide-ranging, interdisciplinary work, Peter Admirand draws upon his extensive research and background in theology and testimonial literature, trauma and genocide studies, cultural studies, philosophy of religion, interreligious studies, and systematic theology. As David Burrell writes in the Foreword: ". . .[T]he work's intricate structure, organization, and development will lead us to appreciate that the best one can settle for is a fractured faith built on a fractured theodicy, expressed in a language explicitly fragmented, pluralist, and broken."
