The Cheese Monkeys-Chip Kidd 2008-12-26 'Show me something I've never seen before and will never be able to forget - if you can do that, you can do anything.' It's 1957, long before computers have replaced the trained eye and skilful hand. Our narrator at State University is determined to major in Art, and after several risible false starts, he accidentally ends up in a new class: 'Introduction to Graphic Design'. His teacher is the enigmatic Winter Sorbeck, equal parts genius, seducer and sadist. Sorbeck is a bitter yet fascinating man whose assignments hurl his charges through a gauntlet of humiliation and heartache, shame and triumph, ego-bashing and enlightenment. Along the way, friendships are made and undone, jealousies simmer, and the sexual tango weaves and dips. By the end of their 'Introduction to Graphic Design', Sorbeck's students will never see the world in the same way again. And, with Chip Kidd's insights into the secrets of graphic design, neither will you.

The Learners-Chip Kidd 2008-02-19 Fresh out of college in the summer of 1961, Happy lands his first job as a graphic designer (okay, art assistant) at a small Connecticut advertising agency populated by a cast of endearing eccentrics. Life for Happy seems to be -- well, happy. But when he's assigned to design a newspaper ad recruiting participants for an experiment in the Yale Psychology Department, Happy can't resist responding to the ad himself. Little does he know that the experience will devastate him, forcing a reexamination of his past, his soul, and the nature of human cruelty -- chiefly, his own. Written in sharp, witty prose and peppered with absorbing ruminations on graphic design, The Learners again shows that Chip Kidd's writing is every bit as original, stunning, and memorable as his celebrated book jackets.

Chip Kidd-Véronique Vienne 2003 Chip Kidd is best known for his book jacket designs, which have been credited with spawning a revolution in the art of the book cover in the US. Master of the graphic non-sequitur, Kidd has designed covers for books by authors such as John Updike, Dean Koontz, Michael Crichton, Peter Carey and William Boyd that engage the reader's intelligence as well as imagination. This illustrated volume presents an appraisal of his oeuvre.

Go: A Kidd's Guide to Graphic Design-Chip Kidd 2013-10-08 "An excellent introduction to graphic design through [the author's] own excellent work. Anyone interested in the subject, including most practitioners, will find it delightful."—Milton Glaser Kids love to express themselves, and are designers by nature—whether making posters for school, deciding what to hang in their rooms, or creating personalized notebook covers. Go, by the award-winning graphic designer Chip Kidd, is a stunning introduction to the ways in which a designer communicates his or her ideas to the world. It's written and designed just for those curious kids, not to mention their savvy parents, who want to learn the secret of how to make things dynamic and interesting. Chip Kidd is "the closest thing to a rock star" in the design world (USA Today), and in Go he explains not just the elements of design, including form, line, color, scale, typography, and more, but most important, how to use those elements in creative ways. Like putting the word "go" on a stop sign, Go is all about shaking things up—and kids will love its playful spirit and belief that the world looks better when you look at it differently. He writes about scale: When a picture looks good small, don't stop there—see how it looks when it's really small. Or really big. He explains the difference between vertical lines and horizontal lines. The effect of cropping a picture to make it beautiful—or, cropping it even more to make it mysterious and compelling. How different colors signify different moods. The art of typography, including serifs and sans serifs, kerning and leading. The book ends with ten projects, including an invitation to share your designs at GoTheBook.com.

Judge This-Chip Kidd 2015-06-02 A fun, playful look at the importance of first impressions—in design and in life—from acclaimed book designer Chip Kidd. First impressions are everything. They dictate whether something stands out, how we engage with it, whether we buy it, and how we feel. In Judge This,

renowned designer Chip Kidd takes us through his day as he takes in first impressions of all kinds. We follow this visual journey as Kidd encounters and engages with everyday design, breaking down the good, the bad, the absurd, and the brilliant as only someone with a critical, trained eye can. From the design of your morning paper to the subway ticket machine to the books you browse to the smartphone you use to the packaging for the chocolate bar you buy as an afternoon treat, Kidd reveals the hidden secrets behind each of the design choices, with a healthy dose of humor, expertise, and of course, judgment as he goes. Judge This is a design love story, exposing the often invisible beauty and betrayal in simple design choices—ones most of us never even think to notice. And with each object, Kidd proves that first impressions, whether we realize it or not, have a huge impact on the way we perceive the world.

Only What's Necessary 70th Anniversary Edition-Chip Kidd 2015-10-20 Charles M. Schulz (1922-2000) believed that the key to cartooning was to take out the extraneous details and leave in only what's necessary. In all, 17,897 strips were published, making it "arguably the longest story ever told by one human being," according to Robert Thompson, professor of popular culture at Syracuse University. For Only What's Necessary: Charles M. Schulz and the Art of Peanuts, renowned designer Chip Kidd was granted unprecedented access to the extraordinary archives of the Charles M. Schulz Museum and Research Center in Santa Rosa, California. The Antagonist-Lynn Coady 2013-01-22 A piercing epistolary novel, The Antagonist explores, with wit and compassion, how the impressions of others shape, pervert, and flummox both our perceptions of ourselves and our very nature. Gordon Rankin Jr., aka "Rank," thinks of himself as "King Midas in reverse"—and indeed misfortune seems to follow him at every turn. Against his will and his nature, he has long been considered—given his enormous size and strength—a goon and enforcer by his classmates, by his hockey coaches, and, not least, by his "tiny, angry" father. He gamely lives up to their expectations, until a vicious twist of fate forces him to flee underground. Now pushing forty, he discovers that an old, trusted friend from his college days has published a novel that borrows freely from the traumatic events of Rank's own life. Outraged by this betrayal and feeling cruelly misrepresented, he bashes out his own version of his story in a barrage of e-mails to the novelist that range from funny to furious to heartbreaking. With The Antagonist, Lynn Coady demonstrates all of the gifts that have made her one of Canada's most respected young writers. Here she gives us an astonishing story of sons and fathers and mothers, of the rewards and betrayals of male friendship, and a large-spirited, hilarious, and exhilarating portrait of a man tearing his life apart in order to put himself back together. Louis I. Kahn-Per Olaf Fjeld 2019-10-04 Louis I. Kahn: The Nordic Latitudes is a new and personal reading of the architecture, teachings, and legacy of Louis I. Kahn from Per Olaf Fjeld's perspective as a former student. The book explores Kahn's life and work, offering a unique take on one of the twentieth century's most important architects. Kahn's Nordic and European ties are emphasized in this study that also covers his early childhood in Estonia, his travels, and his relationships with other architects, including the Norwegian architect Arne Korsmo. The authors have gathered personal reflections, archival material, and other student work to offer insight into the wisdom that Kahn imparted to his students in his famous masterclass. Louis I. Kahn: The Nordic Latitudes addresses Kahn's legacy both personally and in terms of the profession, documents a research trip the University of Pennsylvania's Louis I. Kahn Collection, and confronts the affiliation of Kahn's work with postmodernism.

Seek My Face-John Updike 2007-12-18 John Updike's twentieth novel, like his first, *The Poorhouse Fair*, takes place in one day, a day that contains much conversation and some rain. The seventy-nine-year-old painter Hope Chafetz, who in the course of her eventful life has been Hope Ouderkirk, Hope McCoy, and Hope Holloway, answers questions put to her by a New York interviewer named Kathryn, and recapitulates, through stories from her career and many marriages, the triumphant, poignant saga of postwar American art. In the evolving relation between the two women, interviewer and subject move in and out of the roles of daughter and mother, therapist and patient, predator and prey, supplicant and idol. The scene is central Vermont; the time, the early spring of 2001.

From student to line cook to teacher to waitress and eventually to award-winning author, Patchett's own life has taken many twists and turns that make her exploration genuine and resonant. As Patchett writes, "'What now?' represents our excitement and our future, the very vitality of life." She highlights the possibilities the unknown offers and reminds us that there is as much joy in the journey as there is in reaching the destination.

Our Days Are Like Full Years-Harriet Pattison 2020-10-27 An intimate glimpse into the professional and romantic relationship between Harriet Pattison and the renowned architect Louis Kahn On a winter day in 1953, a mysterious man in a sheepskin coat stood out to Harriet Pattison, then a theater student at Yale. She would later learn he was the architect Louis Kahn (1901-1974). This chance encounter served as preamble to a fifteen-year romance, with Pattison becoming the architect's closest confidante, his intellectual partner, and the mother of his only son. Here for the first time, Pattison recounts their passionate and sometimes searing relationship. Married and twenty-seven years her senior, Kahn sent her scores of letters—many from far-flung places—until his untimely death. This book weaves together Pattison's own story with letters, postcards, telegrams, drawings, and photographs that reveal Kahn's inner life and his architectural thought process, including new insight into some of his greatest works, both built and unbuilt. What emerges is at once a poignant love story and a vivid portrait of a young woman striving to raise a family while forging an artistic path in the shadow of her famous partner.

It wasn't long before a variety of merchandise was licensed--secret decoders, figurines, buttons, paper rockets, tin toys, puzzles, costumes--and a fan club was created to keep up with the demand. These collectibles now sell for outrageous prices on eBay and in comic book stores and conventions. Seventy years later, an unprecedented assortment of these artifacts are gathered together by award-winning writer/designer Chip Kidd and photographer Geo Spear. Join Kidd, Spear, and the World's Mightiest Mortal in this first, fully authorized celebration of ephemera, artwork, and rare, one-of-a-kind toys, and recapture the magic that was Shazam!

Memories of the Ford Administration-John Updike 2012-09-18 When historian Alfred "Alf" Clayton is invited by an academic journal to record his impressions of the Gerald R. Ford Administration (1974-77), he recalls not the political events of the time but rather a turbulent period of his own sexual past. Alf's highly idiosyncratic contribution to *Retrospect* consists not only of reams of unbuttoned personal history but also of pages from an unpublished project of the time, a chronicle of the presidency of James

Buchanan (1857–61). The alternating texts mirror each other and tell a story in counterpoint, a frequently hilarious comedy of manners contrasting the erotic etiquette and social dictions of antebellum Washington with those of late-twentieth-century southern New Hampshire. Alf's style is Nabokovian. His obsessions are vintage Updike.

Holidays on Ice-David Sedaris 2009-05-04 David Sedaris's beloved holiday collection is new again with six more pieces, including a never before published story. Along with such favorites as the diaries of a Macy's elf and the annals of two very competitive families, are Sedaris's tales of tardy trick-or-treaters ("Us and Them"); the difficulties of explaining the Easter Bunny to the French ("Jesus Shaves"); what to do when you've been locked out in a snowstorm ("Let It Snow"); the puzzling Christmas traditions of other nations ("Six to Eight Black Men"); what Halloween at the medical examiner's looks like ("The Monster Mash"); and a barnyard secret Santa scheme gone awry ("Cow and Turkey"). No matter what your favorite holiday, you won't want to miss celebrating it with the author who has been called "one of the funniest writers alive" (Economist).

The Mind's Eye-Oliver Sacks 2010-10-26 In The Mind's Eye, Oliver Sacks tells the stories of people who are able to navigate the world and communicate with others despite losing what many of us consider indispensable senses and abilities: the power of speech, the capacity to recognize faces, the sense of three-dimensional space, the ability to read, the sense of sight. For all of these people, the challenge is to adapt to a radically new way of being in the world. There is Lilian, a concert pianist who becomes unable to read music and is eventually unable even to recognize everyday objects, and Sue, a neurobiologist who has never seen in three dimensions, until she suddenly acquires stereoscopic vision in her fifties. There is Pat, who reinvents herself as a loving grandmother and active member of her community, despite the fact that she has aphasia and cannot utter a sentence, and Howard, a prolific novelist who must find a way to continue his life as a writer even after a stroke destroys his ability to read. And there is Dr. Sacks himself, who tells the story of his own eye cancer and the bizarre and disconcerting effects of losing vision to one side. Sacks explores some very strange paradoxes—people who can see perfectly well but cannot recognize their own children, and blind people who become hyper-visual or who navigate by “tongue vision.” He also considers more fundamental questions: How do we see? How do we think? How important is internal imagery—or vision, for that matter? Why is it that, although writing is only five thousand years old, humans have a universal, seemingly innate, potential for reading? The Mind's Eye is a testament to the complexity of vision and the brain and to the power of creativity and adaptation. And it provides a whole new perspective on the power of language and communication, as we try to imagine what it is to see with another person's eyes, or another person's mind.

Lon Chaney Speaks-Pat Dorian 2020 A stunning graphic debut: the life of the legendary silent-film actor Lon Chaney (the original Phantom of the Opera and Hunchback of Notre Dame), as imagined by an artist whose work recalls the style and skill of early-era New Yorker cartoonists. From the artist: 'No one will ever love me!' I believe it was this near-universal fear that makes Lon Chaney's characters continue to resonate with us today. On their surface, most of them are distinctly unlikeable: they are monsters, outcasts, criminals. But through his unique magic, Chaney makes them empathetic. He pioneered the craft of makeup artist long before that term ever existed, and he used his expertise to hide himself from public view--what if nobody loved him? PART OF THE PANTHEON GRAPHIC LIBRARY

Naked-David Sedaris 2009-05-04 In Naked, David Sedaris's message alternately rendered in Fakespeare,

Italian, Spanish, and pidgin Greek is the same: pay attention to me. Whether he's taking to the road with a thieving quadriplegic, sorting out the fancy from the extra-fancy in a bleak fruit-packing factory, or celebrating Christmas in the company of a recently paroled prostitute, this collection of memoirs creates a wickedly incisive portrait of an all-too-familiar world. It takes Sedaris from his humiliating bout with obsessive behavior in *A Plague of Tics* to the title story, where he is finally forced to face his naked self in the mirrored sunglasses of a lunatic. At this soulful and moving moment, he picks potato chip crumbs from his pubic hair and wonders what it all means. This remarkable journey into his own life follows a path of self-effacement and a lifelong search for identity, leaving him both under suspicion and overdressed.

Icons of Graphic Design-Steven Heller 2008 Traces a century's worth of design history through the examples of one hundred of the industry's most influential designs and designers, in a lavishly illustrated account that offers insight into the inspirations that contributed to the works of such artists as Toulouse-Lautrec, Milton Glaser, and Art Chantry. Little Green Men-Christopher Buckley 2011-07-20 In 1994, Christopher Buckley published one of the most acclaimed and successful comic novels of the decade, *Thank You for Smoking*. Now Buckley returns to the strange land of Washington, D.C., in *Little Green Men*, a millennial comedy of manners about aliens and pundits . . . and how much they have in common. The reluctant hero of this hilarious novel is John Oliver Banion, a stuffy Washington talk-show host, whose privileged life is thrown into upheaval when aliens abduct him from his exclusive country-club golf course. But were his gray-skinned captors aliens . . . or something far more sinister? After Banion is abducted again--this time in Palm Springs--he believes he has been chosen by the extraterrestrials to champion the most important cause of the millennium, and he embarks on a crusade, appearing before a convention of UFO believers and demanding that Congress and the White House seriously investigate UFOs. His friends and family suspect that Banion is having some kind of manic-depressive midlife crisis and urge him to seek therapy before his credibility as a pillar of the punditocracy is ruined. So John Oliver Banion must choose: keep his establishment status or become the leader of millions of impassioned and somewhat scruffy new friends who want to expose the government's secret alien agenda. *Little Green Men* proves once and for all that the truth is out there. Way out there. And it reaffirms Christopher Buckley's status as the funniest humanoid writer in the universe. Coming soon from Christopher Buckley: *One of Our Whales Is Missing*

A Model World-Michael Chabon 2011-12-20 A story collection from the Pulitzer Prize-winning author of *The Amazing Adventures of Kavalier & Clay*, "one of his generation's most eloquent new voices" (*The New York Times*). With his first novel, *The Mysteries of Pittsburgh*, Michael Chabon announced his presence as a literary wunderkind of style and substance. *A Model World and Other Stories* only burnished his reputation as a distinctive prose stylist. In eleven elegant tales—some of them linked—by the *New York Times*-bestselling author of *Telegraph Avenue* and *The Amazing Adventures of Kavalier & Clay*, Chabon's singular characters hold tight to private dreams even as their closest relationships crumble. Five stories follow an anxious adolescent from the beach vacation where he learns of his parents' divorce to the confused days of a woefully misguided crush. Others find ex-lovers tormenting each other at an oceanside café, a washed-up professional baseball player attending a teammate's funeral, and a Pittsburgh disc jockey still pining for a woman who married him to get her American citizenship. "Chabon moves across powerful emotional ground with certainty and delicacy," raves the *Chicago Tribune*. "There are heartbreaking moments in these stories, but they are rendered so precisely, through incidents that capture the subtlest of feelings, that the reader can only smile at Chabon's skill." This ebook features a biography of the author.

When You Are Engulfed in Flames-David Sedaris 2008-06-03 "David Sedaris's ability to transform the mortification of everyday life into wildly entertaining art," (*The Christian Science Monitor*) is elevated to wilder and more entertaining heights than ever in this remarkable new book. Trying to make coffee when the water is shut off, David considers using the water in a vase of flowers and his chain of associations takes him from the French countryside to a hilariously uncomfortable memory of buying drugs in a mobile home in rural North Carolina. In essay after essay, Sedaris proceeds from bizarre conundrums of daily life—having a lozenge fall from your mouth into the lap of a fellow passenger on a plane or armoring the windows with LP covers to protect the house from neurotic songbirds—to the most deeply resonant human truths. Culminating in a brilliant account of his venture to Tokyo in order to quit smoking, David Sedaris's

sixth essay collection is a new masterpiece of comic writing from "a writer worth treasuring" (Seattle Times). Praise for *When You Are Engulfed in Flames*: "Older, wiser, smarter and meaner, Sedaris...defies the odds once again by delivering an intelligent take on the banalities of an absurd life." --Kirkus Reviews This latest collection proves that not only does Sedaris still have it, but he's also getting better....Sedaris's best stuff will still--after all this time--move, surprise, and entertain." --Booklist Table of Contents: It's Catching Keeping Up The Understudy This Old House Buddy, Can You Spare a Tie? Bright Shiny Morning-James Frey 2009-10-13 One of the most celebrated and controversial authors in America delivers his first novel—a sweeping chronicle of contemporary Los Angeles that is bold, exhilarating, and utterly original. Dozens of characters pass across the reader's sight lines—some never to be seen again—but James Frey lingers on a handful of LA's lost souls and captures the dramatic narrative of their lives: a bright, ambitious young Mexican-American woman who allows her future to be undone by a moment of searing humiliation; a supremely narcissistic action-movie star whose passion for the unattainable object of his affection nearly destroys him; a couple, both nineteen years old, who flee their suffocating hometown and struggle to survive on the fringes of the great city; and an aging Venice Beach alcoholic whose life is turned upside down when a meth-addled teenage girl shows up half-dead outside the restroom he calls home. Throughout this strikingly powerful novel there is the relentless drumbeat of the millions of other stories that, taken as a whole, describe a city, a culture, and an age. A dazzling tour de force, *Bright Shiny Morning* illuminates the joys, horrors, and unexpected fortunes of life and death in Los Angeles.

Villages-John Updike 2007-12-18 In this wry novel of sentimental education and sexual pursuit, we follow Owen Mackenzie, a representative man of the author's generation, from cradle to grave, and from bed to bed. His life and relationships are shaped by three villages, warm-lit communities that keep the darkness at bay from within and without. In Willow, Pennsylvania, the young Owen is transfixed by his first glimpses of female beauty. In Middle Falls, Connecticut, he marries, becomes a first-wave computer programmer, and discovers the very grownup pleasures of serial adultery. Finally, married for a second time, he retires with his memories, illusions, and fantasies to the somewhat geriatric community of Haskells Crossing, Massachusetts. John Updike turns Owen's personal odyssey into a radiant, sensual fable of the seasons of a man's life—and of the getting of wisdom in America.
