The Lost Dogs-Jim Gorant 2011-09-06 An inspiring story of survival and our powerful bond with man's best friend, in the aftermath of the nation's most notorious case of animal cruelty. Animal lovers and sports fans were shocked when the story broke about NFL player Michael Vick's brutal dog fighting operation. But what became of the dozens of dogs who survived? As acclaimed writer Jim Gorant discovered, their story is the truly newsworthy aspect of this case. Expanding on Gorant's Sports Illustrated cover story, The Lost Dogs traces the effort to bring Vick to justice and turns the spotlight on these infamous pit bulls, which were saved from euthanasia by an outpouring of public appeals coupled with a court order that Vick pay nearly a million dollars in "restitution" to the dogs. As an ASPCA-led team evaluated each one, they found a few hardened fighters, but many more lovable, friendly creatures desperate for compassion. In The Lost Dogs, we meet these amazing animals, a number of which are now living in loving homes, while some even work in therapy programs: Johnny Justice participates in Paws for Tales, which lets kids get comfortable with reading aloud by reading to dogs; Leo spends three hours a week with cancer patients and troubled teens. I'm a Good Dog-Ken Foster 2012-10-25 Filled with inspiring stories and photographs, this heartfelt tribute to the pit bull celebrates one of America's most popular yet misunderstood dogs. Perhaps more than any other breed, the pit bull has been dogged by negative stereotypes. In truth, pit bulls are innately wonderful family pets, as capable of love and good deeds as any other type of dog. Setting the record straight, Ken Foster sings the praises of pit bulls in I'm a Good Dog, a gorgeously illustrated, tenderly written tribute to this most misunderstood of canines. Founder of the Sula Foundation, which promotes responsible pit bull ownership in New Orleans, and the author of two acclaimed books about abandoned dogs, Foster has made it his mission to bring overlooked canines into the limelight. I'm a Good Dog traces the fascinating history of this particularly maligned breed. A century ago, the pit bull was considered a family dog, featured in family photos and trusted as loving companions for children. More recently, pit bulls have been portrayed by the media as stereotypes of everything they are not. Foster shatters that reputation through moving profiles of pit bulls that serve as therapy dogs, athletic heroes, search-and-rescue dogs, and educators, not to mention as loving pets. Foster also profiles many pit bull lovers, from Helen Keller and Dr. Seuss to actor Todd Cerveris, who took his pit bull on tour with him for the musical Spring Awakening. Proving that there's much to love and nothing to fear, I'm a Good Dog restores the pit bull to its rightful place as friend, family member, athlete and entertainer.

Fanatic-Jim Gorant 2008-04-01 An ardent and lifelong sports fanatic describes his year-long odyssey to ten iconic sporting events that exemplify the world of American sports, including the Super Bowl, the Daytona 500, the Kentucky Derby, Wimbledon, the Final Four, the Masters, and opening day at Fenway Park, among others. Reprint. Pit Bull-Bronwen Dickey 2017 The hugely illuminating story of how a popular breed of dog became the most demonized and supposedly the most dangerous of dogs-and what role humans have played in the transformation. A When Bronwen Dickey brought her new dog home, she saw no traces of the infamous viciousness in her affectionate, timid pit bull. Which made her wonder: How had the breed-behaved by Teddy Roosevelt, Helen Keller, and Hollywood's oLittle Rascals-come to be known as a brutal fighter? Her search for answers takes her from nineteenth-century New York City dogfighting pits-the cruelty of which drew the attention of the recently formed ASPCA-to early twentieth-century movie sets, where pit bulls cavorted with Fatty Arbuckle and Buster Keaton; from the battlefields of Gettysburg and the Marne, where pit bulls earned presidential recognition, to desolate urban neighborhoods where the dogs were loved, prized-and sometimes brutalized. Whether through love or fear, hatred or devotion, humans are bound to the history of the pit bull. With unfailing thoughtfulness, compassion, and a firm grasp of scientific fact, Dickey offers us a clear-eyed portrait of this extraordinary breed, and an insightful view of Americans' relationship with their dogs. From the Hardcover edition.

Another Good Dog: One Family and Fifty Foster Dogs-Cara Sue Achtenberg 2018-08-07 A warm and entertaining memoir about what happens when you foster fifty dogs in less than two years--and how the dogs save you as much as you save them. When Cara felt her teenaged children slipping away and saw an empty nest on the horizon, she decided the best way to fill that void was with dogs--lots of them--and so her foster journey began. In 2015, her Pennsylvania farm became a haven for Operation Paws for Homes. There were the nine puppies at once, which arrived with less than a day's notice; a heart-worm positive dog; a deeply traumatized stray pup from Iraq, and countless others who just needed a gentle touch and a warm place to sleep. Operation Paws for Homes rescues dogs from high-kill shelters in the rural south and shuttles them north to foster homes like Cara's on the way to their forever homes. What started as a search for a good dog, led to an epiphany that there wasn't just one that could ll the hole left in her heart from her children gaining independence--she could save dozens along the way. The stories of these remarkable dogs--including an eighty-pound bloodhound who sang arias for the neighbors--and the joy they bring to Cara and her family (along with a few chewed sofa cushions) fill the pages of this touching and inspiring new book that reveals the wonderful rewards of fostering. When asked how she can possibly say goodbye to that many loveable pups, Cara says, "I if don't give this one away, I can't possibly save another." Filled with humanity and hope, Another Good Dog will take the reader on a journey of smiles, laughs, and tears--and lead us to wonder how many other good dogs are out there and what we can do to help.

My Life Among the Underdogs-Tia Torres 2019-01-15 From one of the most respected figures in the dog rescue community come the harrowing, funny, and inspiring stories of nine incredible dogs that shaped her life. Tia Torres, beloved underdog advocate and star of Animal Planet's hit show Pit Bulls & Parolees, chronicles her roller-coaster life in this heartwarming memoir featuring some of her best-loved dogs. With inimitable honesty and characteristic brashness, Tia captures the spirit and heart of these intelligent and loving canines, while carrying us behind the scenes of her TV show, into the heart of post-Katrina New Orleans, onto the soundstages of Hollywood films, and even to the jungles of Sri Lanka. Tia has devoted her life to shattering the stereotype that pit bulls are dangerous, vicious predators. As the top dog at the Villalobos Rescue Center in New Orleans, the largest pit bull rescue in the United States, she and her team have rescued, rehabilitated, and rehomed hundreds of animals that might otherwise have been destroyed. As she puts it, "Most of the stories in this book are about animals (and a few humans) that needed someone to believe in them and a purpose in order to show their true nobility." You'll meet Duke, whose intelligence and matinee-idol looks made him a star in movies and music videos; Junkyard Joe, whose single-minded passion for tennis balls was channeled into expertise as a drug-sniffing dog; Bluuie, the unswerving protector of Tia's daughter Tania; and a host of other unforgettable canines. My Life Among the Underdogs is above all a love story--one that is sure to grip the heart of anyone who has ever loved a dog.

The Dogs Who Found Me-Ken Foster 2016-08-01 Now regarded as a classic in dog literature, Ken Foster's memoir chronicles his journey from first-time dog owner to rescuer--and all the lessons and mistakes he made along the way. Bookended by the tragedies of 9/11 and Katrina, Foster finds that dogs open his eyes to the benefits of compassion, selflessness, and the chaotic beauty of living each day in the moment. But more than Foster's own story, readers remember the dogs. Among them are Duke, a Costa Rican stray; Brandto, Foster's first adopted dog and a supposed pit bull mix who outgrew his Manhattan studio apartment; Rocco, a clownish red pit bull whose owner mistakenly gives him away to the wrong person; Zephyr, a cheerful Rotweiler mix who awakens Foster by sitting on his chest when his heart stops working; and Sula, the tiny lost pit bull who showed up at Foster's door one day and stayed. Whether bearing witness to national tragedy, grieving the death of a friend, or dealing with his own mortality, Foster finds strength in his dogs, and in the reciprocal nature of rescue.

Rescue Road-Peter Zheutlin 2015-10-06 "Peter Zheutlin has written a lovely, moving, important book about a subject that is both heartbreaking and joyful." - Dean Koontz How far would you go to save a life? This is the extraordinary story of one man who has driven more than 1 million miles to rescue thousands of dogs from hunger, abuse and neglect and give them a second chance at life and love. For years, Greg Mahle struggled to keep the last of his family-run restaurants afloat in Ohio. When it finally closed, he was broke and unsure what to do next. Then a stranded van-load of puppies changed his life forever. Join journalist Peter Zheutlin as he travels with Greg from Ohio to the Gulf Coast on his Rescue Road Trips to bring hard-luck dogs from the deep South to loving "forever families" up north looking to adopt a pet, with the help of many selfless volunteers along the way. From Houston's impoverished Fifth Ward--where thousands of strays roam the streets--and high-kill animal shelters in Louisiana, to joyous scenes of adopters embracing their new pups in the Northeast, Rescue Road is full of heart: an inspiring story about the unique bond between dogs and humans, and how going the extra mile can make a life-changing difference for these loyal canines--and for us all. A heartwarming, awe-inspiring story of how one man can impact so many lives, human and puppy alike. Fans of Marley and Me, Oogy: The Dog Only A Family Could Love, and You Had Me At Woof will be inspired and touched by this story. What readers are saying about Rescue Road: "I stand in awe of those who can do this kind of rescue work, for their persistence, compassion and willingness to get dirty in the service of animals." "A heartwarming & eye opening journey into the world of dog rescue." "I highly recommend this book if you are looking to restore your faith in humanity." "A heart-warming story that reaffirms there are many compassionate people who work tirelessly to save dogs." What reviewers are saying about Rescue Road: "An unabashedly sentimental and affecting portrait of a modern-day animal-loving hero." Kirkus "a canine caravan with heart and soul..." - Teresa Rhyme, author of the #1 NYT bestseller The Dog Lived (And So Will I) "Heartwarming doesn't suffice to describe it... restores faith in humanity." - Alexandra Horowitz, author of Inside of a Dog: What Dogs See, Smell, and Know "A tender, inspiring homage..." - Matthew Gilbert, author of Off the Leash: A Year at the Dog Park "Inspiring and riveting new book... a must-read..." - The Bark Oogy-Laurence M. Levin 2012 In 2002, Larry Levin and his twelve-year-old sons, Dan and Noah, took their elderly cat to the vet to be put to sleep. Yet what began as one of the family's saddest days took a sharp turn for the better when the oddest-looking dog they had ever seen bounded across the waiting room into their arms. The friendly white puppy was missing an ear and half of his face was covered in scar tissue, but Larry and his boys soon discovered the truth - the puppy had been used as bait in a dogfight and left for dead, and it was only the tireless work of their local veterinary staff that had saved him. The Levins accepted the young pup as one of their own from the moment they met him and from that point on he marked himself indelibly on their lives, healing old wounds and showing the boys, themselves adopted as infants, that unbreakable bonds can be formed in all kinds of families.

Afro-Dog-Bénédicte Boisseron 2018-08-14 The animal-rights organization PETA asked "Are Animals the New Slaves?" in a controversial 2005 fundraising campaign; that same year, after the Humane Society rescued pets in the aftermath of Hurricane Katrina while black residents were neglected, some declared that white America cares more about pets than black people. These are but two recent examples of a centuries-long history in which black life has been pitted against animal life. Does comparing human and animal suffering trivialize black pain, or might the intersections of racialization and animalization shed light on interlinked forms of oppression? In Afro-Dog, Bénédicte Boisseron investigates the relationship between race and the animal in the history and culture of the Americas and the black Atlantic, exposing a hegemonic system that compulsively links and opposes blackness and animality to measure the value of life. She analyzes the association between black civil disobedience and canine repression, a history that spans the era of slavery through the use of police dogs against protesters during the civil rights movement of the 1960s to today in places like Ferguson, Missouri. She also traces the lineage of blackness and the animal in Caribbean literature and struggles over minorities' right to pet ownership alongside nuanced readings of Derrida and other French theorists. Drawing on recent debates on black lives and animal welfare, Afro-Dog retrames the fast-growing interest in human-animal relationships by positioning blackness as a focus of animal inquiry, opening new possibilities for animal studies and black studies to think side by side.

DogTown-Stefan Bechtel 2009-10-27 From Marley and Me to Temple Grandin's groundbreaking books to Cesar Millan's television show, America's many millions of pet owners eagerly seek new insights into animal behavior, and one of the most popular sources of compelling stories and practical advice is DogTown, the National Geographic Channel's latest hit show. A national rescue organization with more than 200,000 members, DogTown is the area where dogs live at the nation's largest companion animal sanctuary run by Best Friends Animal Society. This informative, inspiring book presents representative stories of dogs considered unadoptable by other shelters. They come from many backgrounds: some were abandoned; some prowled the streets as strays; others suffer from mysterious illnesses, serious injuries, or antisocial behaviors that discourage potential adopters. But good fortune led them to Best Friends and the dedicated people devoted to helping them recover and find welcoming homes. These compelling, winningly illustrated true stories, each uniquely moving and inspirational, draw upon the experience of veterinarians, trainers, and volunteers to probe a range of tough, touching cases that evoke both the joy and the occasional but inevitable heartbreak that accompanies this work. Each chapter follows a dog from the first day at Dogtown until he ultimately finds (or doesn't find) a permanent new home, focusing both on the relationship between the dog and the Dogtown staff and on the latest discoveries about animal health and behavior. We learn how dogs process information, how trauma affects their behavior, and how people can help them overcome their problems. In the end, we come to see that there are no "bad dogs" and that with patience, care, and compassion, people can help dogs to heal.

Animals in Translation-Temple Grandin 2009-08-11 In this exciting new e edition, Temple Grandin returns to her groundbreaking work, Animals in Translation, to address the last ten years of developments in behavioral research, animal welfare, and farming regulations. Originally published in 2005, Animals in Translation received unanimous critical praise and was a bestseller in both hardcover and paperback, and Grandin's Q&A updates this classic text with the most current scientific research. Grandin's training as an animal scientist and her experience as a person with autism give her a perspective unlike any other expert in the field. Grandin and coauthor Catherine Johnson present their powerful theory that people with autism may be able to empathically understand animal behavior in a way that eludes neurotypical people--putting them in the ideal position to translate "animal talk." Exploring animal fear, pain, aggression, love, friendship, communication, learning, and even genius, Grandin is a faithful guide into the world. Grandin, standing at the intersection of autism and animal science, offers unparalleled observations and extraordinary ideas, revealing that animals are smarter and more complex than anyone could have imagined.

The Pit Bull Placebo-Karen Delise 2007 First it was the Bloodhound, sensationalized in the dramatizations of Uncle Tom's Cabin. Then it was the Doberman, symbol of the Nazi menace. Today, it is the Pit bull that is vilified for the depravity of his masters. Today, police chase down fleeing Pit bulls in the street, firing dozens of wild shots in response to media-fed rumors of supermaternal Pit bull abilities. Politicians coach and nurture this fear with their own brand of rhetoric used to assist in the passing of quick and ineffective legislation created to pacify communities ignorant of the real cause for dog attacks. Hundreds of animal shelters throughout the country kill all unclaimed Pit bull-looking dogs, as they are deemed "unadoptable" solely on their physical appearance. This has occurred because the human/dog bond, the most complex and profound inter-species relationship in the history of mankind, has been reduced to a simple axiom: Breed of dog = degree of dangerousness. We have come to accept that hanging entire breeds of dogs in effigy for the sins of their owners is an acceptable solution to canine aggression because we have been placated by a Pit Bull Placebo. Like the pharmacologically inactive sugar pill dispensed to pacify a patient who supposes it to be medicine, eradication of the Pit bull is the placebo administered to ease the public's anxiety about dog attacks. The book, The Pit Bull Placebo: The Media, Myths and Politics of Canine Aggression, explores how our views and beliefs about canine aggression have changed over the last 150 years and how our perceptions about the nature and behavior of dogs has been influenced by persons and organizations who often times disseminate information about dog attacks which is tailored to further an agenda unrelated to the improvement of the human/dog bond. We are in the midst of a social hysteria about Pit bulls because we have abandoned centuries-old common-sense and have been duped by inaccurate reporting from the "Pit Bull Papparazzi" and by politicians who traffic in rumors, myths and pseudoscience in their efforts to pass legislation that demonizes dogs while exonerating criminal and abusive owners. If we truly believe that the extremely rare cases of fatal dog attacks merit extreme measures in the management of dogs, if our concern and shock is genuine, then we must be equally genuine and sincere in seeking out and addressing the real causes for these incidents. Only by stepping back from the swirl of present-day hysteria surrounding isolated cases of severe canine aggression and examining the problem from a broader and more objective perspective can we hope to understand and address the human and canine behaviors which contribute to these incidents.

Scent of the Missing-Susannah Charleson 2010-04-14 A "haunting meditation on trust, hope and love" by a woman who adopts and trains a Golden Retriever puppy to become a search-and-rescue dog (People). In the wake of the Oklahoma City bombing, Susannah Charleson's attention was caught by a newspaper photograph of a canine handler, his exhausted face buried in the fur of his search-and-rescue dog. Susannah, a dog lover and pilot with search experience herself, was so moved by the image that she decided to volunteer with a local canine team, plunging herself into an astonishing new world. While the team worked long hours for nonexistent pay and often heart-wrenching results, Charleson discovered the joy of working in partnership with a canine friend and the satisfaction of using their combined skills to help her fellow human beings. Once she qualified to train a dog of her own, Charleson adopted Puzzle--a smart, spirited Golden Retriever puppy who exhibited unique aptitudes as a working dog, but was a bit less interested in the role of compliant house pet. Scent of the Missing is the story of Charleson's adventures with Puzzle as they search for a lost teen; an Alzheimer's patient wandering in the cold; and signs of the crew amid the debris of the space shuttle Columbia disaster--all while unraveling the mystery of the bond between humans and dogs. "A riveting view of both the human animal bond and the training of search and rescue dogs. All dog lovers and people interested in training service dogs should read this book." --Temple Grandin, author of Animals Make Us Human

Squirrel Seeks Chipmunk-David Sedaris 2010-09-28 Featuring David Sedaris's unique blend of hilarity and heart, this new collection of keen-eyed animal-themed tales is an utter delight. Though the characters may not be human, the situations in these stories bear an uncanny resemblance to the insanity of everyday life. In "The Toad, the Turtle, and the Duck," three strangers commiserate about animal bureaucracy while waiting in a complaint line. In "Hello Kitty," a cynical feline struggles to sit through his prison-mandated AA meetings. In "The Squirrel and the Chipmunk," a pair of star-crossed lovers is separated by prejudiced family members. With original illustrations by Ian Falconer, author of the bestselling Olivia series of children's books, these stories are David Sedaris at his most observant, poignant, and surprising.

Few people are more qualified to speak about the abilities and potential of dogs than Jennifer Arnold, who for the past twenty years has trained service dogs for people with physical disabilities and special needs. Arnold has developed a unique understanding of dogs' capabilities, intelligence, sensitivity, and extra-sensory skills. Her training method is based on teaching dogs to make choices--as opposed to following commands--through kindness and encouragement rather than fear and submission, and her results are extraordinary. To Arnold, dogs are neither wolves in need of a pack leader nor babies in need of coddling; rather, they are extremely trusting beings attuned to their owners' needs and they aim to please. Relationships between dogs and humans go awry when we fail to understand our dogs and when we send them confusing, mixed signals. Arnold's firsthand experience--from what moved her to start her exemplary nonprofit and how she developed her methodology--guides this book and gives it a powerful emotional heft. Stories drawn from Arnold's life and the lives of the dogs who were her greatest teachers are convincing, unforgettable, and compelling testimony and make this book a heart-warming, captivating read that will forever change the way you see your dog by showing you the way your dog sees the world.
