Earth Goddess-Richard Herley 1990-10-01

Redliners-David Drake 1997-07-01 They were the toughest fighters in the galaxy- until they got used up. The mission: redemption-or death, The troops were walking dead already, so there wasn't much of a downside. Major Arthur Farrell and the troops of Strike Force Company C41 had seen too much war with the

alien Kalendru. They had too many screaming memories to be fit for combat again, but they were far too dangerous to themselves and others to be returned to civilian life. The bureaucracy that administered human affairs arranged a final mission with the same ruthless efficiency as it conducted the war against the Kalendru. C41 would guard a colony being sent to a hell planet. If the troops succeeded, they might be ready to return to human society. When the mission went horribly wrong, Art Farrell and his troops found their lives on the line as never before, protecting civilians to whom bureaucratic injustice was a new experience. And there was one more thing... A story of soldiers and civilians, of hope and, possibly, redemption. At the publisher's request, this title is sold without DRM (Digital Rights Management).

Pennsylvania, Political, Governmental, Military and Civil-Frederic Antes Godcharles 2018-10-13 Excerpt from Pennsylvania, Political, Governmental, Military and Civil: Military Volume The military history of Pennsylvania dates from the year 1747, although in the charter to William Penn, the Governor was given the authority to levy, muster, and train men, to make war upon and pursue the enemy, even beyond the limits of the Province. That the early authorities felt the necessity of armed forces is evidenced from the fact that in 1702, only twenty years after the granting of the charter, Lieutenant Governor Hamilton asked the Assembly to enact a bill for providing what may come against us by land or by sea nothing, however, was done under it in the way of organizing any military force for defense. Lieutenant Governor Evans, a few years later, urged a similar law, and sent to the Assembly a form of an act for establishing and regulating militia, but the idea was unpopular, and failed of passage. Several similar bills were also defeated, yet the Assembly occasion ally appropriated funds for the King's use, for the purchase of bread, beef, pork, flour, wheat, and 'other grain' for the maintenance of those who voluntarily offered to bear arms in the defense of the Province. Franklin says the other grain meant black grains, otherwise gunpowder, and While the Assembly would not sanc tion the purchase of munitions of war, no Governor was ever charged with appli cation of public moneys in making use of them for this purpose. So far as the Assembly was concerned there was no provision made for raising and maintaining an armed force, that provision being vested in the Governor by provision of the charter. Benjamin Franklin, in the year 1747, was largely instrumental in effecting a military association, which was entirely a voluntary organization, made up of about of the most influential men of the Province, and with this influence the total enrollment was in a short time increased to The following year the aggre gate membership in the Associated Companies, by which name the organization became known, was horse, foot, and artillery, each armed and equipped at personal expense, and the officers chosen from the members. Franklin was one of the original colonels, but being unable to serve, another was elected in his stead. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Weapons of Choice: World War 2.1-John Birmingham 2007-11-10 The impossible has spawned the unthinkable. A near-future military experiment has thrust a US-led multinational armada back to 1942, right into the middle of the naval task force speeding towards Midway Atoll-and what was to be a spectacular Allied triumph in the war in the Pacific. In the chaos that ensues, thousands are killed, but the ripples have only just begun. For these veterans of Pearl Harbor have never seen a helicopter, or a satellite link, or a nuclear weapon. And they've never encountered an African American colonel or a female Australian submarine commander. While they embrace the armada's awesome firepower, they may find the twenty-first-century sailors themselves far from acceptable. Initial jubilation at news the Allies would win the war is quickly doused by the chilling realisation that the time-travellers themselves-by their very presence-have

rendered history null and void. Celebration turns to dread when the possibility arises that other elements of the twenty-first-century task force may also have made the trip-and might now be aiding the enemy forces. What happens next is anybody's guess - and everybody's nightmare...

River Town-Peter Hessler 2010-09-21 A New York Times Notable Book Winner of the Kiriyama Book Prize In the heart of China's Sichuan province, amid the terraced hills of the Yangtze River valley, lies the remote town of Fuling. Like many other small cities in this ever-evolving country, Fuling is heading down a new path of change and growth, which came into remarkably sharp focus when Peter Hessler arrived as a Peace Corps volunteer, marking the first time in more than half a century that the city had an American resident. Hessler taught English and American literature at the local college, but it was his students who taught him about the complex processes of understanding that take place when one is immersed in a radically different society. Poignant, thoughtful, funny, and enormously compelling, River Town is an unforgettable portrait of a city that is seeking to understand both what it was and what it someday will be.

Hidden Steel-Doranna Durgin 2008 Steve Spaneas doesn't have a clue. Who'd have thought that the woman who stumbles her way into his gym, looking and acting so very much like a street person off her meds, is really a CIA case officer whose memory has been obliterated by experimental drugs used by some very bad people? And seriously, who'd have thought that her attempts to untangle the few clues she's got would lead him right into her world of spies and counterspies, death and deception—and holy cow, stockpiled nuclear weapons? But Steve had better figure out who he trusts—his years of experience on the streets, or the heart of a gritty woman determined to reclaim herself—and he'd better figure it out fast. Because suddenly there's a body out behind the gym, surveillance teams lurking, and a series of unsavory goons following the trail of a woman temporarily named Mickey right through his life. In the Penal Colony-Franz Kafka 2019-03-16 The story is set in an unnamed penal colony. Internal clues and the setting on an island suggest Octave Mirbeau's The Torture Garden as an influence. As in some of Kafka's other writings, the narrator in this story seems detached from, or perhaps numbed by, events that one would normally expect to be registered with horror. In the Penal Colony describes the last use of an elaborate torture and execution device that carves the sentence of the condemned prisoner on his skin in a script before letting him die, all in the course of twelve hours. As the plot unfolds, the reader learns more and more about the machine, including its origin, and original justification.

Western Portraits-Steve Carver 2019-09-20 The American West, as we know it, is defined by the movies, and the Western is the oldest film genre. When the movies were born, it was not that long after Promontory Point and the Civil War, so those memories were still there in the minds of the very first movie audiences as they watched The Great Train Robbery. And the myth-making is as important as the brutal truths of history. As the reporter tells Jimmy Stewart in Ford's The Man Who Shot Liberty Valance, "This is the West, sir. When the legend becomes fact, print the legend." Rendered in rare, evocative tones reminiscent of Edward Sheriff Curtis's immortal photographs, Western Portraits provides readers with a collection of stylized portraits that capture the allure and mystique of the Old West, complete with authentic costuming, weaponry and settings. From the epic feature film to the TV series and serial, this coffee table book will put the story of character actors and the significance of their memorable roles into an entertaining perspective. The subjects include such popular, recognizable actors as Karl Malden, David Carradine, Denver Pyle, R. G. Armstrong, L. Q. Jones, Horst Buchholz, Henry Silva, Ruta Lee, Morgan Woodward, Bo Hopkins, Clu Gulager and 72 others. The market for this book will include lovers of classic cinema, Western history aficionados, writers, scholars and collectors of nostalgia and fine art photography. It will awaken movie memories in people's hearts, introduce others to the amazing work of these acting artists and serve as a record of the best of the Hollywood Western. THE PHOTOGRAPHS: R. G. Ireland's Huguenots and Their Refuge, 1662-1745-Raymond Hylton 2005 Of the nearly 200,000 Huguenots whose consciences compelled them to leave France during the 17th and 18th centuries, some 10,000 chose to settle in that most unlikely of refugesâ??Ireland. The story of why and how these most ardent of Protestant believers found themselves in this most fervently Catholic of islands is one of history's great paradoxes. This book explores this question and attempts to reveal precisely who these Huguenots were, what they contributed to and received from their adopted land, and why Huguenot ancestry is so respected and prized even among devout Irish Catholics. The true chronicle of Ireland's Huguenots is, in opposition to the narrow misrepresentations of the past, one of extraordinary richness and variety, as befits an ethnic group whose influence permeated every nook of Irish life and society.
