

[Books] The Scandal Of Evangelical Mind Mark A Noll

Recognizing the quirk ways to get this ebook **the scandal of evangelical mind mark a noll** is additionally useful. You have remained in right site to begin getting this info. acquire the the scandal of evangelical mind mark a noll join that we have the funds for here and check out the link.

You could buy lead the scandal of evangelical mind mark a noll or get it as soon as feasible. You could speedily download this the scandal of evangelical mind mark a noll after getting deal. So, later you require the books swiftly, you can straight acquire it. Its so unconditionally simple and hence fats, isnt it? You have to favor to in this flavor

The Scandal of the Evangelical Mind-Mark A. Noll 1994 Mark Noll has written a major indictment of American evangelicalism. Reading this book, one wonders if the evangelical movement has pandered so much to American culture and tried to be so popular only to lose not only it's mind but it's soul as well. For evangelical pastors and parishoners alike, this is a must read! --Robert Wuthnow. The Scandal of the Evangelical Mind-Mark A. Noll 1994 "The scandal of the evangelical mind," says historian Mark Noll, "is that there is not much of an evangelical mind." This critical yet constructive book explains the decline of evangelical thought in North America and seeks to find, within evangelicalism itself, resources for turning the situation around. According to Noll, evangelical Protestants make up the largest single group of religious Americans; they also enjoy increasing wealth, status political influence, and educational achievement. Yet, despite its size and considerable intellectual potential, evangelical Protestantism makes only a slight contribution to first-order public discourse in North America: it neither sponsors a single research university, nor supports a single periodical devoted to in-depth interaction with modern culture, nor cultivates attitudes that treat the worlds of science, the arts, politics, and social analysis with the seriousness that God intends. The Scandal of the Evangelical Mind explains how this situation developed by tracing the history of evangelical thinking in America. Noll's analysis shows how Protestants successfully aligned themselves with national ideals and with the particular expressions of an American Enlightenment in the decades before the Civil War; explains how fundamentalists at the start of the twentieth century preserved essential elements of the faith, but only by grievously damaging the life of the mind; gives specific attention to evangelical thought on politics and science; and discusses what some have called an "evangelical intellectual renaissance" in recent decades and shows why it is more apparent than real. Written to encourage reform as well as to inform, this book ends with an outline of some preliminary steps by which evangelicals might yet come to love the Lord more thoroughly with the mind. The State of the Evangelical Mind-Todd C. Ream 2018-12-11 Are the opportunities for faithful intellectual engagement and witness even greater now than before? These essays invite readers to a virtual "summit meeting" on the current state of the evangelical mind. The insights of national leaders in their fields will aid readers to reflect on the past contributions of evangelical institutions for the life of the mind as well as prospects for the future. The Real Scandal of the Evangelical Mind-Carl Trueman 2011-01-01 What is an evangelical. . . and has he lost his mind? Carl Trueman wrestles with those two provocative questions and concludes that modern evangelicals emphasize experience and activism at the expense of theology. Their minds go fuzzy as they downplay doctrine. The result is "a world in which everyone from Joel Osteen to Brian McLaren to John MacArthur may be called an evangelical." Fifteen years ago in The Scandal of the Evangelical Mind, historian Mark Noll warned that evangelical Christians had abandoned the intellectual aspects of their faith. Christians were neither prepared nor inclined to enter into intellectual debates, and had become culturally marginalized. Trueman argues that today "religious beliefs are more scandalous than they have been for many years"—but for different reasons than Noll foresaw. In fact, the real problem now is exactly the opposite of what Noll diagnosed: evangelicals don't lack a mind, but rather an agreed upon evangel. Although known as gospel people, evangelicals no longer share any consensus on the gospel's meaning. Provocative and persuasive, Trueman's indictment of evangelicalism also suggests a better way forward for those theologically conservative Protestants famously known as evangelicals. Jesus Christ and the Life of the Mind-Mark A. Noll 2013-10-16 In The Scandal of the Evangelical Mind (1994) Mark Noll offered a forthrightly critical assessment of the state of evangelical thinking and scholarship. Now, nearly twenty years later, in a sequel more attuned to possibilities than to problems, Noll updates his earlier assessment and charts a positive way forward for evangelical scholarship. Noll's Jesus Christ and the Life of the Mind shows how the orthodox Christology confessed in the ancient Christian creeds, far from hindering or discouraging serious scholarship, can supply the motives, guidance, and framework for learning. Christian faith, Noll argues, can richly enhance intellectual engagement in the various academic disciplines -- and he demonstrates how by applying his insights to the fields of history (his own area of expertise), science, and biblical studies in particular. In a substantial postscript Noll candidly addresses the question How fares the "evangelical mind" today? as he highlights "hopeful signs" of intellectual life in a host of evangelical institutions, and movements. -- From publisher description. The Scandal of the Evangelical Conscience-Ronald J. Sider 2005-02 Recent surveys show that the lives of evangelicals often prove to be no different than nonbelievers. This book offers solutions to the disconnect between Christians' beliefs and day-to-day lives. The Rise of Evangelicalism-Mark A. Noll 2015-05-21 Winner of a Christianity Today 2005 Book Award! The word evangelical is widely used and widely misunderstood. Where did evangelicals come from? What motivated them? How did their influence become so widespread throughout the world during the eighteenth century? In this paper edition of this inaugural book in a series that charts the course of English-speaking evangelicalism over the last 300 years, Mark Noll offers a multinational narrative of the origin, development and rapid diffusion of evangelical movements in their first two generations. Theology, hymnody, gender, warfare, politics and science are all taken into consideration. But the focus is on the landmark individuals, events and organizations that shaped the story of the beginnings of this vibrant Christian movement. The revivals in Britain and North America in the mid-eighteenth century proved to be foundational in the development of the movement, its ethos, beliefs and subsequent direction. In these revivals, the core commitments of evangelicals were formed that continue to this day. In this volume you will find the fascinating story of their formation, their strengths and their weaknesses, but always their dynamism. Between Faith and Criticism-Mark A. Noll 2004 Historian Mark Noll traces evangelicalism from its nineteenth-century roots. He applies lessons learned in the milieu of Great Britain and North America to answer the question: Have evangelicals grown to mature confidence in their views of God and Scripture so they may stand-alone if they must-between faith and higher critical skepticism? "This is nuts-and-bolts history at its best." - Douglas Jacobsen, Fides et Historia "This is not only an outstanding study of evangelical biblical scholarship, it is the best survey of the twentieth-century evangelical thought that we have." - George Marsden "This book will be of immense value to all who want to know what the background to current evangelical biblical scholarship is, and who want to explore the likely developments in the future." - Gerald Bray, The Churchman " Noll] has enriched our knowledge of this history through his mastery of its substance and has come to grips with its findings." - Todd Nichol, Word and World Mark A. Noll, the McManis Professor of Christian Thought and professor of church history at Wheaton College, has written more than ten books, including Religion, Faith and American Politics, and Christian Faith and Practice in the Modern World. He edited Confessions and Catechisms of the Reformation. His PhD degree is from Vanderbilt University.

Evangelicals-Mark A. Noll 2019-11-25 The past, present, and future of a movement in crisis What exactly do we mean when we say "evangelical"? How should we understand this many-sided world religious phenomenon? How do recent American politics change that understanding? Three scholars have been vital to our understanding of evangelicalism for the last forty years: Mark Noll, whose Scandal of the Evangelical Mind identified an earlier crisis point for American evangelicals; David Bebbington, whose "Bebbington Quadrilateral" remains the standard characterization of evangelicals used worldwide; and George Marsden, author of the groundbreaking Fundamentalism and American Culture: The Shaping of Twentieth-Century Evangelicalism. Now, in Evangelicals, they combine key earlier material concerning the history of evangelicalism with their own new contributions about present controversies and also with fresh insights from other scholars. The result begins as a survey of how evangelicalism has been evaluated, but then leads into a discussion of the movement's perils and promise today. Evangelicals provides an illuminating look at who evangelicals are, how evangelicalism has changed over time, and how evangelicalism continues to develop in sometimes surprising ways. Turning Points-Mark A. Noll 2000 Now organized around 14 key moments in church history, this well-received text provides contemporary Christians with a fuller understanding of God as He has revealed his purpose through the centuries and around the world. Original.

No Place for Truth-David F. Wells 1994-12-20 Looks at how the Evangelical movement is working within American secular culture

Evangelicals Incorporated-Daniel Vaca 2019-12-03 American evangelicalism is big business. It is not, Daniel Vaca argues, just a type of conservative Protestantism that market forces have commodified. Rather evangelicalism is an expressly commercial practice, in which the faithful participate, learn, and develop religious identities by engaging corporations and commercial products.

The End of Christianity-William A. Dembski 2009 A leading intelligent design supporter writes to prove a good God's existence in an evil world, in turn explaining what the end result of true Christianity must be.

The Old Religion in a New World-Mark A. Noll 2002 A foremost historian of religion chronicles the arrival of Christianity in the New World, tracing the turning points in the development of the immigrant church which have led to today's distinctly American faith.

American Evangelical Christianity-Mark A. Noll 2001 Mark Noll describes and interprets American Evangelical Christianity, utilising research by theologians, sociologists and political scientists, as well as the author's own historical interests, to explain the position Evangelicalism now occupies at the beginning of the new century.

Discipleship of the Mind-James W. Sire 1990-04-04 Shows ways to develop a Christian world-view and to apply it to ethical issues and the study of academic disciplines

Renewing the Evangelical Mission-Richard Lints 2013-05-26 The "culture story" of evangelicalism during the second half of the twentieth century has been well told. It is important now to think about the theological mission of the church in an ever-increasing post-Christian and post-partisan context. What is the theologian's calling at the beginning of the third millennium? How do global realities impact the mission of evangelical theology? What sense can be made of the unity of evangelical theology in light of its many diverse voices? This collection of essays draws together a stellar roster of evangelical thinkers with significant institutional memory of the evangelical movement who nonetheless see new opportunities for the evangelical voice in the years ahead. Contributors: Os Guinness Michael S. Horton Richard Lints Bruce McCormack Mark Noll J. I. Packer Gary Parrett Rodney Peterson Cornelius Plantinga Tite Tienou Kevin J. Vanhooser Adonis Vidu Miroslav Volf

Fit Bodies, Fat Minds-Os Guinness 1994 Traces the retreat of the evangelical mind, explaining how evangelicalism has been dumbed down through popular culture.

Christians in the American Revolution-Mark A. Noll 2006 Noll examines the influence of various religious convictions on the movement for independence and, conversely, the effect of the Revolution on colonial church bodies and their understanding of Christian truth.

Confessions and Catechisms of the Reformation-Mark A. Noll 2004 "Both by his choice of confessions and by his judicious and scholarly introductions, Mark Noll has made [the major Reformation confessions and catechisms] available in a form that is sure to deepen and enlighten doctrinal discussion and confessional awareness and that will therefore contribute to solidly evangelical and hence soundly ecumenical theology. I am delighted to see this book appear." - Jaroslav Pelikan, Yale University "It is a delight to welcome Mark Noll's well-chosen, well-edited selection of key sixteenth-century statements of faith - Lutheran, Reformed, Anglican, Anabaptist, Roman Catholic. To have this significant material brought together in one book is a boon, for the enrichment that comes of studying it as a whole is very great. For anyone who would take the measure of the Reformation conflict, this collection is a "must." - J.I. Packer, Regent College "Mark Noll has ably introduced these still living confessions to a modern audience more prone to forgetfulness than any since the sixteenth century. This collection will be useful not only for classes in historical and systematic theology, but also to pastors and lay readers who wish better to understand their Protestant heritage." - Thomas C. Oden, Drew University Is the Reformation Over?Mark A. Noll 2008-04-01 For the last few decades, Catholics and Protestants have been working to heal the wounds caused by centuries of mistrust. This book, a Christianity Today 2006 Book Award winner, provides an evaluation of contemporary Roman Catholicism and the changing relationship between Catholics and evangelicals. The authors examine past tensions, post-Vatican II ecumenical dialogues, and social/political issues that have brought Catholics and evangelicals together. While not ignoring significant differences that remain, the authors call evangelicals to gain a new appreciation for the current character of the Catholic Church. Written by Mark Noll, one of the premier church historians of our day, and Carolyn Nystrom, this book will appeal to those interested in the relationship between evangelicals and the Catholic Church. A History of Christianity in the United States and Canada-Mark A. Noll 2019-10-17 A best-selling text thoroughly updated, including new chapters on the last 30 years "An excellent study that will help historians appreciate the importance of Christianity in the history of the United States and Canada." - The Journal of American History "Scholars and general readers alike will gain unique insights into the multifaceted character of Christianity in its New World environment. Nothing short of brilliant." - Harry S. Stout, Yale University "A new standard for textbooks on the history of North American Christianity." - James Turner, University of Notre Dame Mark Noll's A History of Christianity in the United States and Canada has been firmly established as the standard text on the Christian experience in North America. Now Noll has thoroughly revised, updated, and expanded his classic text to incorporate new materials and important themes, events, leaders, and changes of the last thirty years. Once again readers will benefit from his insights on the United States and Canada in this superb narrative survey of Christian churches, institutions, and cultural engagements from the colonial period through 2018.

The Spiritual Danger of Donald Trump-Ronald J. Sider 2020-06-01 What should Christians think about Donald Trump? His policies, his style, his personal life? Thirty evangelical Christians (listed below) wrestle with these tough questions. They are Republicans, Democrats, and Independents. They don't all agree, but they seek to let Christ be the Lord of their political views. They seek to apply biblical standards to difficult debates about our current political situation. Vast numbers of white evangelicals enthusiastically support Donald Trump. Do biblical standards on truth, justice, life, freedom, and personal integrity warrant or challenge that support? How does that support be President Trump affect the image of Christianity in the larger culture? Around the world? Many younger evangelicals today are rejecting evangelical Christianity, even Christianity itself. To what extent is that because of widespread evangelical support for Donald Trump? Don't read this book to find support for your views. Read it to be challenged--with facts, reason, and biblical principles. With contributions from: Michael W. Called to the Life of the Mind-Richard J. Mouw 2014-11-27 I wasn't supposed to spend my life in the world of scholarship, Richard Mouw acknowledges at the beginning of Called to the Life of the Mind. Yet he has indeed spent his career in the academy -- and has become one of the most widely respected evangelical Christian scholars of our time. In this wise little book Mouw defends Christian scholarship as an important and legitimate endeavor, responding in particular to those traditions that continue to be suspicious of intellectual pursuits. Writing in an inviting, conversational style, Mouw reflects candidly on the faithful Christian cultivation of the life of the mind and offers gentle advice on how Christians, especially evangelicals, might fruitfully navigate the world of the academy as followers of Jesus.

God and Mammon-Mark A. Noll 2002 This collection of essays by leading historians offers a close look at the connections between American Protestants and money in the Antebellum period. During the first decades of the new American nation, money was everywhere on the minds of church leaders and many of their followers. Economic questions figured regularly in preaching and pamphleteering, and convictions about money contributed greatly to perceptions of morality both public and private. In fact, money was always a religious question. For this reason, argue the authors of these essays, it is impossible to understand broader cultural developments of the period--including political developments--without considering religion and economics together. In God and Mammon, several essays examine the ways in which the churches raised money after the end of establishment put a stop to state funding, such as the collection of pew rents and lotteries. Free-will offerings only came later and at first were used only for special causes, not operating expenses. Other essays look at the role of money and markets in the rise of Christian voluntary societies. Still others examine inter-denominational strife, documenting frequent accusations that theological error led to the misuse of money and the arrogance of wealth. Taken together, the essays provide essential background to a relationship that continues to loom large and generate controversy in American religious communities.

To Think Christianly-Charles E. Cotherman 2020-04-28 In this comprehensive history, Charles Cotherman traces the stories of notable study centers and networks, as well as their influence on twentieth-century Christianity. Beginning with the innovations of L'Abri and Regent College, Cotherman sheds new light on these defining places in evangelicalism's life of the mind.

America's God-Mark A. Noll 2002-10-03 Religious life in early America is often equated with the fire-and-brimstone Puritanism best embodied by the theology of Cotton Mather. Yet, by the nineteenth century, American theology had shifted dramatically away from the severe European traditions directly descended from the Protestant Reformation, of which Puritanism was in the United States the most influential. In its place arose a singularly American set of beliefs. In America's God, Mark Noll has made a biography of this new American ethos. In the 125 years preceding the outbreak of the Civil War, theology played an extraordinarily important role in American public and private life. Its evolution had a profound impact on America's self-definition. The changes taking place in American theology during this period were marked by heightened spiritual inwardness, a new confidence in individual reason, and an attentiveness to the economic and market realities of Western life. Vividly set in the social and political events of the age, America's God is replete with the figures who made up the early American intellectual landscape, from theologians such as Jonathan Edwards, Nathaniel W. Taylor, William Ellery Channing, and Charles Hodge and religiously inspired writers such as Harriet Beecher Stowe and Catherine Stowe to dominant political leaders of the day like Washington, Jefferson, and Lincoln. The contributions of these thinkers combined with the religious revival of the 1740s, colonial warfare with France, the consuming struggle for independence, and the rise of evangelical Protestantism to form a common intellectual coinage based on a rising republicanism and commonsense principles. As this Christian republicanism affirmed itself, it imbued in dedicated Christians a conviction that the Bible supported their beliefs over those of all others. Tragically, this sense of religious purpose set the stage for the Civil War, as the conviction of Christians both North and South that God was on their side served to deepen a schism that would soon rend the young nation asunder. Mark Noll has given us the definitive history of Christian theology in America from the time of Jonathan Edwards to the presidency of Abraham Lincoln. It is a story of a flexible and creative theological energy that over time forged a guiding national ideology the legacies of which remain with us to this day.

The Civil War as a Theological Crisis-Mark A. Noll 2006 Although Christian believers agreed that the Bible was authoritative and that it should be interpreted through commonsense principles, there was rampant disagreement about what Scripture taught about slavery. This book tells how most Americans were radically divided in their interpretations of what God was doing in and through the Civil War.

In the Beginning Was the Word-Mark A. Noll 2015-10-14 In the beginning of American history, the Word was in Spanish, Latin, and native languages like Nahuatl. But while Spanish and Catholic Christianity reached the New World in 1492, it was only with the coming of the Mayflower that English-language Bibles and Protestant Christendom arrived. ThePuritans brought with them intense devotion to Scripture, as well as their ideal of Christendom - a civilization characterized by a thorough intermingling of the Bible with everything else. That ideal began this country's journey from the Puritan's City on a Hill to the Bible-quoting country theU.S. remains to this day. In the Beginning shows how important the Bible remained, even as that Puritan ideal changed considerably through the early stages of American history.It is no exaggeration to claim that the Bible has been - and by far - the single most widely-read text, distributed object, and cited or referenced book in all of American history. Author Mark Noll shows how seventeenth-century Americans received conflicting models of scriptural authority fromEurope: the Bible under Christendom (high Anglicanism), the Bible over Christendom (moderate Puritanism), and the Bible against Christendom (Anabaptists, enthusiasts, Quakers). In the eighteenth century, the colonists turned increasingly to the Bible against Christendom, a stance that fueled theRevolution against Anglican Britain and prepared the way for a new country founded on the separation of church and state.One of the foremost scholars of American Christianity, Mark Noll brings a wealth of research and wisdom to In the Beginning. This book is the first of a projected two-volume study of the Bible in American history, and provides a sweeping, engaging, and insightful survey of the relationship between the Bible and public issues from the beginning of European settlement. A seminal new work from a world-class scholar, In the Beginning offers a fresh account of the contested, sometimes ambiguous, but definite biblical roots of American history.

Finding Truth-Nancy Pearcey 2015-03-01 Christianity has the Resources to Address Intellectual and Cultural Issues. Do You? Christians can feel overwhelmed at the sheer number of competing worldviews in today's pluralistic, multicultural society. Thankfully, you don't have to memorize a different argument to answer every new issue. Instead, you can master a single line of defense, grounded in Scripture, that applies to any theory. In Romans, Paul reveals the strategy for defending the Christian message in a pluralistic culture where many are hearing it for the first time. Finding Truth is the real-world training manual that equips you to confidently address issues you'll face in the classroom, workplace, and popular culture.

From Every Tribe and Nation (Turning South: Christian Scholars in an Age of World Christianity)-Mark A. Noll 2014-10-14 Christianity's demographics, vitality, and influence have tipped markedly toward the global South and East. Addressing this seismic shift, one of America's leading church historians shows how studying world Christianity changed and enriched his understanding of the nature of the faith as well as of its history. Mark Noll illustrates the riches awaiting anyone who gains even a preliminary understanding of the diverse histories that make up the Christian story. He shows how coming to view human culture as created by God was an important gift he received from the historical study of world Christian diversity, which then led him to a deeper theological understanding of Christianity itself. He also offers advice to students who sense a call to a learned vocation. This is the third book in the Turning South series, which offers reflections by eminent Christian scholars who have turned their attention and commitments beyond North America.

A Mind for God-James Emery White 2009-09-20 To be fully human is to think. The apostle Paul calls us to "take captive every thought to make it obedient to Christ" (2 Cor 10:5). But James Emery White fears that Western Christians are failing in this task. Because we have not developed good intellectual habits, our minds instead have been captured by our culture. A Mind for God is written to help us break free from this cultural captivity through the spiritual and intellectual disciplines of reading, study and reflection. This inspirational and practical "rule for the mind" encourages and enables us to develop our minds for God. Includes book lists and resources so you can "grow your brain."

I Kissed Dating Goodbye-Joshua Harris 2003-04 Dating. Isn't there a better way? Reorder your romantic life in the light of God's word and find more fulfillment than the dating game could ever give - a life of purposeful singleness.

Still Evangelical?-Mark Labberton 2018-02-01 Evangelicalism in America has cracked. What defines the evangelical social and political vision—is it the gospel or is it culture? Edited by Mark Labberton, this collection of essays offers a diverse and provocative set of reflections from evangelical "insiders" who wrestle with the question of what it means to be evangelical in today's polarized climate.

Karl Barth-Mark Galli 2017 Karl Barth has long been an object of both suspicion and curiosity for evangelical Christians. Those who do want to know more about Barth often find themselves daunted by the sheer volume of his massive output, unsure of where to start or how to engage with the famously prolific theologian. "We flip through the nearly 9,000 pages of the Church Dogmatics," says author Mark Galli, "read a passage or two of his dense prose, and run for our theological lives." In this reader-friendly introduction to Karl Barth, Galli takes readers on a whirlwind tour of the life and writings of this giant of twentieth-century theology, paying special attention to themes and topics of concern for contemporary evangelicals, who may need Barth's acute critique as much as early-twentieth-century liberals did--and for surprisingly similar reasons. "To be sure, Barth has his share of personal and theological flaws," admits Galli. Even so, he contends, "because his theology is so grounded in Scripture, Barth is able as few can to remind us of the height, breadth, and depth of God's love in Jesus Christ."

The Anointed-Randall J. Stephens 2011-11-29 Why do so many evangelicals follow leaders with dubious credentials when they have other options in their own faith? Exploring intellectual authority within evangelicalism, the authors reveal how the concept of anointing—being chosen by God to speak for him—established a conservative evangelical leadership isolated from secular arts and sciences.

Clouds of Witnesses-Mark A. Noll 2011-04-24 As Africa and Asia take their place as the new Christian heartlands, a new and robust company of saints is coming into view. In seventeen inspiring narratives Mark Noll and Carolyn Nystrom introduce pivotal Christian leaders in Africa and Asia who had tenacious faith in the midst of deprivation, suffering and conflict. Spanning a century, from the 1880s to the 1980s, their stories demonstrate the vitality of the Christian faith in a diversity of contexts. This kaleidoscopic witness to the power of the gospel will both inspire and educate. Whether for a class in global Christianity or for a personal journey to other times and places of faith, Clouds of Witnesses is a book that tugs at our curiosity and resists being laid down. An engaging traveling companion to Mark Noll's award-winning book The New Shape of World Christianity.

African Pentecostalism-Ogbu Kalu 2008-03-06 In this book, Ogbu Kalu provides an overview of Pentecostalism in Africa. He shows the amazing diversity of the faith, which flourishes in many different forms in diverse local contexts, and demonstrates that African Pentecostalism is distinctly African in character, not imported from the West.

The Outrageous Idea of Christian Scholarship-George M. Marsden 1998 In this book, Marsden argues forcefully that mainstream American higher education needs to be more open to explicit expressions of faith and to accept what faith means in an intellectual context.

The New Shape of World Christianity-Mark A. Noll 2010-02-25 2010 Christianity Today Book Award winner! With characteristic rigor and insight, in this book Mark Noll revisits the history of the American church in the context of world events. He makes the compelling case that how Americans have come to practice the Christian faith is just as globally important as what the American church has done in the world. Noll backs up this substantial claim with the scholarly attentiveness we've come to expect from him, lucidly explaining the relationship between the development of Christianity in North America and the development of Christianity in the rest of the world, with attention to recent transfigurations in world Christianity. Here is a book that will challenge your assumptions about the nature of the relationship between the American church and the global church in the past and predict what world Christianity may look like.
