"Slowly, Slowly, Slowly," said the Sloth-Eric Carle 2020-08-11 Slowly, slowly, slowly . . . that's the way the sloth moves. Slowly, it eats and then, slowly, it falls asleep. "What strange kind of creature is this?" the other animals wonder. Why doesn't it run or fly or play or hunt like the rest of us? "Why are you so slow?" the howler monkey inquires. But the sloth doesn't answer any questions until the jaguar asks, "Why are you so lazy?" Anyone who has ever felt too busy will appreciate the sloth's peaceful lifestyle and realize that it's okay to take time to enjoy life. Eric Carle' s dazzling collage illustrations introduce readers to the exotic beauty of the Amazon rain forest and the many unusual animals living there.

Waiting for the Biblioburro-Monica Brown 2013-04-24 Ana loves stories. She often makes them up to help her little brother fall asleep. But in her small village there are only a few books and she has read them all. One morning, Ana wakes up to the clip-clop of hooves, and there before her, is the most wonderful sight: a traveling library resting on the backs of two burros-all the books a little girl could dream of, with enough stories to encourage her to create one of her own. Inspired by the heroic efforts of real-life librarian Luis Soriano, award-winning picture book creators Monica Brown and John Parra introduce readers to the mobile library that journeys over mountains and through valleys to bring literacy and culture to rural Colombia, and to the children who wait for the BiblioBurro. A portion of the proceeds from sales of this book was donated to Luis Soriano's BiblioBurro program.

Each Kindness-Jacqueline Woodson 2012-10-23 Jacqueline Woodson is the 2018-2019 National Ambassador for Young People's Literature WINNER OF A CORETTA SCOTT KING HONOR AND THE JANE ADDAMS PEACE AWARD! Each kindness makes the world a little better This unforgettable book is written and illustrated by the award-winning team that created The Other Side and the Caldecott Honor winner Coming On Home Soon. With its powerful anti-bullying message and striking art, it will resonate with readers long after they've put it down. Chloe and her friends won't play with the new girl, Maya. Every time Maya tries to join Chloe and her friends, they reject her. Eventually Maya stops coming to

school. When Chloe's teacher gives a lesson about how even small acts of kindness can change the world, Chloe is stung by the lost opportunity for friendship, and thinks about how much better it could have been if she'd shown a little kindness toward Maya.

Lesson Imaging in Math and Science-Michelle Stephan 2016-10-26 From respected voices in STEM education comes an innovative lesson planning approach to help turn students into problem solvers: lesson imaging. In this approach, teachers anticipate how chosen activities will unfold in real time—what solutions, questions, and misconceptions students might have and how teachers can promote deeper reasoning. When lesson imaging occurs before instruction, students achieve lesson objectives more naturally and powerfully. A successful STEM unit attends to activities, questions, technology, and passions. It also entails a careful detailed image of how each activity will play out in the classroom. Lesson Imaging in Math and Science presents teachers with * A process of thinking through the structure and implementation of a lesson * A pathway to discovering ways to elicit student thinking and foster collaboration * An opportunity to become adept at techniques to avoid shutting down the discussion—either by prematurely giving or acknowledging the “right” answer or by casting aside a “wrong” answer Packed with classroom examples, lesson imaging templates, and tips on how to start the process, this book is sure to help teachers anticipate students’ ideas and questions and stimulate deeper learning in science, math, engineering, and technology.

Teaching Students to Drive Their Brains-Donna Wilson 2016-06-28 If the difference between a student's success and failure were something specific you could teach, wouldn't you? Metacognition is exactly

that—a tool that helps students unlock their brain's amazing power and take control of their learning. Educational researchers and professional developers Donna Wilson and Marcus Conyers have been exploring and using the explicit teaching of metacognition for years, and in this book they share a practical way to teach preK-12 students how to drive their brains by promoting the following practices: * Adopt an optimistic outlook toward learning, * Set goals, * Focus their attention, * Monitor their progress, and * Engage in practices that enhance cognitive flexibility. Wilson and Conyers explain metacognition and how it equips students to meet today's rigorous education standards. They present a unique blend of useful metaphors, learning strategies, and instructional tips you can use to teach your students to be the boss of their brains. Sample lessons show these ideas in a variety of classroom settings, and sections on professional practice help you incorporate these tools (and share them with colleagues and parents) so that you are teaching for and with metacognition. Research suggests that metacognition is key to higher student achievement, but studies of classroom practice indicate that few students are taught to use metacognition and the supporting cognitive strategies that make learning easier. You can teach metacognition to your students, so why wouldn't you? This book shows you how.

Henry's Freedom Box-Ellen Levine 2016-03-29 A stirring, dramatic story of a slave who mails himself to freedom by a Jane Addams Peace Award-winning author and a Coretta Scott King Award-winning artist. Henry Brown doesn't know how old he is. Nobody keeps records of slaves' birthdays. All the time he dreams about freedom, but that dream seems farther away than ever when he is torn from his family and put to work in a warehouse. Henry grows up and marries, but he is again devastated when his family is sold at the slave market. Then one day, as he lifts a crate at the warehouse, he knows exactly what he must do: He will mail himself to the North. After an arduous journey in the crate, Henry finally has a birthday -- his first day of freedom.

Because of Winn-Dixie-Kate DiCamillo 2009-09-08 A classic tale by Newbery Medalist Kate DiCamillo,

America's beloved storyteller. One summer's day, ten-year-old India Opal Buloni goes down to the local supermarket for some groceries - and comes home with a dog. But Winn-Dixie is no ordinary dog. It's because of Winn-Dixie that Opal begins to make friends. And it's because of Winn-Dixie that she finally dares to ask her father about her mother, who left when Opal was three. In fact, as Opal admits, just about everything that happens that summer is because of Winn-Dixie. Featuring a new cover illustration by E. B. Lewis and an excerpt of Kate DiCamillo's newest novel, *Raymie Nightingale*.

Learning in the Making-Jackie Gerstein 2019-08-27 Making is a dynamic and hands-on learning experience that directly connects with long-established theories of how learning occurs. Although it hasn't been a focus of traditional education or had a prominent place in the classroom, teachers find it an accessible, exciting option for their students. The maker movement brings together diverse communities dedicated to creating things through hands-on projects. Makers represent a growing community of builders and creators—engineers, scientists, artists, DIYers, and hobbyists of all ages, interests, and skill levels—who engage in experimentation and cooperation. Transferring this innovative, collaborative, and creative mindset to the classroom is the goal of maker education. A makerspace isn't about the latest tools and equipment. Rather, it's about the learning experiences and opportunities provided to students. Maker education spaces can be as large as a school workshop with high-tech tools (e.g., 3D printers and laser cutters) or as small and low-tech as the corner of a classroom with bins of craft supplies. Ultimately, it's about the mindset—not the "stuff." In *Learning in the Making*, Jackie Gerstein helps you plan, execute, facilitate, and reflect on maker experiences so both you and your students understand how the knowledge, skills, and attitudes of maker education transfer to real-world settings. She also shows how to seamlessly integrate these activities into your curriculum with intention and a clearly defined purpose.

The Common Core Lesson Book, K-5-Gretchen Owocki 2012 "To reach their potential, children need an engaging environment and a reason to learn. This book is aimed at helping teachers implement quality Common Core instruction around this principle." -Gretchen Owocki The quality of instruction is the most

important factor in helping students meet the Common Core Standards. That's why Gretchen Owocki's Common Core Lesson Book empowers teachers with a comprehensive framework for implementation that enhances existing curriculum and extends it to meet Common Core goals. "Children," writes Gretchen (author of *The RTI Daily Planning Book*), "need teachers who believe in the power of meaningful reading as a context for instruction." She breaks the CCSS reading standards into manageable chunks that emphasize engaged, authentic reading and differentiated teaching. For each standard, she offers: a clear description of what it asks from students an instructional decision tree that connects assessment to planning instructional strategies that gradually release responsibility to students techniques for intensifying instruction when readers need more support. "In implementing the standards," writes Gretchen, "we want children to deeply engage with multiple forms of reading. I wrote this book to offer encouragement to stay grounded in meaningful instruction, and to offer a set of strategies that emphasize meaningful reading." Respond to the Common Core with *The Common Core Lesson Book*-you'll help students meet the standards, and so much more. PLCs and book-study groups! Save 15% when you buy 15 copies with the Common Core Lesson Book Book Study Bundle!

Here Today-Ann M. Martin 2013-04-30 Newbery Honor medalist Ann M. Martin's "unforgettable" (Booklist, starred) family story, now in paperback "In 1963, Ellie's mother, Doris Day Dingman, was crowned the Bosetti Beauty at Mr. Bosetti's supermarket, President John F. Kennedy was assassinated, and the Dingmans began to fall apart." So begins 11-yr-old Eleanor Roosevelt Dingman's story. Ellie, who is about to start 6th grade in the small town of Spectacle, NY, is the oldest child in her off-center family. Her father works construction jobs, while her mother, Doris, has only one dream - to become a rich and famous actress. But when that dream leads to Doris's abandonment of the family, it is Ellie who is called upon to take charge.

Creative Bible Teaching-Lawrence O. Richards 2020-08-04 Bring the Bible to Your Students like Never Before Communicating the Scriptures is much like building a bridge. However, instead of ravines or rivers, the teacher must span both cultural boundaries and great gulfs of time between the present and the pasts of Moses, David, Jesus, and Paul. Though God's Word is always relevant, the teacher must help students see Scripture's vast treasures. The effective, engaging Bible teacher must, therefore, become creative. Together, Lawrence Richards and Gary Bredfeldt have created the ultimate guide to building bridges for those seeking to learn about God's Word. Creative Bible Teaching offers a five-step process by which Christian educators can construct a bridge across time, geography, and culture to help students of all ages connect with God's Word. This newly revised edition makes learning about God's Word more accessible for both teachers and students today. Simple, clear, and memorable, the method laid out in Creative Bible Teaching provides a sure-fire way of communicating God's Word in a way that sticks.

Inclusion Lesson Plan Book for the 21st Century-Toby Karten 2011-08 This Teacher Training Edition is for use by both instructors and their students in training sessions on inclusion practices. It is specifically designed for college professors and staff trainers who teach lesson planning skills as part of their pre-service or in-service courses. The content parallels the original Inclusion Plan Book, but is organized for

training purposes and includes professional activities to examine inclusion practices for whole class, small groups, and individual students. It contains additional downloadable forms for inclusion documentation and online resources that are valuable tools for any "teacher-in-training" staff development program. Purchase multiple copies for your in-service professional learning experiences or have your college bookstore order copies for students taking your inclusion course.

Today Is My Monday...-Alura T Jefferies 2012-08-14 This is not your typical fitness book that would like for you to mimic everything that they have done to get you to a possible mirror image of themselves. This is a book about gaining knowledge, power and changing mindsets. I want the reader to feel that they are important enough to take a little time out to care for their bodies. As a Personal Trainer and Nutrition Counselor I constantly run into people that know nothing about changing their lives for the better as far as fitness and nutrition. The fundamentals are not there so they do not dare to attempt. I have seen so many fly by night fad diets that give false hopes and dreams but none try to start where most people are at, the beginning. Good nutrition and exercise working together has been the key to better health all along. Unfortunately living in a microwave society there are many that will come along trying to sell you pipe dreams. They leave out the parts telling that it is extra hard work that takes a lot of focus, dedication, soul searching and sacrifices. There are no short cuts, but with hard work and tenacity you will gain a better more fulfilling life. This book will not only give you the very basics for starting your journey but will also give you encouragement to stick with it for a life time. Changing your life first starts with changing your mind and gaining an understanding of what you need to do to care for it. If you start with that then the possibilities are unlimited. Hopefully Today is your Monday.

Teaching English Language Learners Across the Content Areas-Judie Haynes 2010-02-15 English language learners (ELLs) often face the difficult challenge of learning both a new language and new subject matter at the same time. In Teaching English Language Learners Across the Content Areas, Judie Haynes and Debbie Zacarian offer strategies, tools, and tips that teachers can use to help ELLs at all levels flourish in

mainstream classrooms. This book will show teachers how to

- * Determine their ELLs' stages of English language acquisition.
- * Modify assignments and assessments in different content areas for ELLs at different stages of language development.
- * Ensure that all ELLs participate fully in lesson activities alongside their English-fluent peers.
- * Communicate effectively with parents and guardians of students from diverse cultures.

Real-life examples of lessons from elementary, middle, and high school that have been modified for ELLs in language arts, math, science, and social studies classes show how to effectively put the authors' recommendations into practice. A glossary of important ELL and ESL terms is included as well, for those who are new to teaching ELLs. Whether novice or veteran, all teachers of ELLs will benefit from this wonderfully practical guide to ensuring that ELLs learn English by learning content--and learn content while learning English.
