Beyond the Pass-James A. Millward 1998-06-01 As analysis of the revenue available to Qing garrisons in Xinjiang reveals, imperial control over the region in the eighteenth and nineteenth centuries depended upon sizeable yearly subsidies from China. In an effort to satisfy criticism of their expansion into Xinjiang and make the territory pay for itself, the Qing court permitted local authorities great latitude in fiscal matters and encouraged the presence of Han and Chinese Muslim merchants. At the same time, the court recognized the potential for unrest posed by Chinese mercantile penetration of this Muslim, Turkic-speaking area. They consequently attempted, through administrative and legal means, to defend the native Uyghur population against economic depredation. This ethnic policy reflected a conception of the realm that was not Sinocentric, but rather placed the Uyghur on a par with Han Chinese. Both this ethnic policy and Xinjiang's place in the realm shifted following a series of invasions from western Turkestan starting in the 1820's. Because of the economic importance of Chinese merchants and the efficacy of merchant militia in Xinjiang, the Qing court revised its policies in their favor, for the first time allowing permanent Han settlement in the area. At the same time, the court began to advocate provincehood and the Sinicization of Xinjiang as a resolution to the perennial security problem. These shifts, the author argues, marked the beginning of a reconception of China to include Inner Asian lands and peoples—a notion that would, by the twentieth century, become a deeply held tenet of Chinese nationalism.

Machine Learning and Knowledge Discovery in Databases-Walter Daelemans 2008-09-04 When in 1986 Yves Kodrato? started the European Working Session on Le- ning at Orsay, France, it could not be foreseen that the conference would grow year by year and become the premier European conference of the ?eld, attr- ting submissions from all over the world. The ?rst European Conference on Principles of Data Mining and Knowledge Discovery was organized by Henryk Jan Komorowski and Jan Zytkowin 1997 in Trondheim, Norway. Since 2001 the two conferences have been colocated, o?ering participants from both areas the opportunity to listen to each other's talks. This year, the integration has moved even further. Instead of ?rst splitting the ?eld according to ECML or PKDD topics, we ?attended the structure of the ?eld to a single set of topics. For each of the topics, experts were invited to the Program Committee. Submitted papers were gathered into one collection and characterized according to their topics. The reviewers were then asked to bid on all papers, regardless of the conference. This allowed us to allocate papers more precisely. The hierarchical reviewing process as introduced in 2005 was continued. We nominated 30 Area Chairs, each supervising the reviews and discussions of about 17 papers. In addition, 307 reviewers completed the Program Committee. Many thanks to all of them! It was a considerable e?ort for the reviewers to carefully review the papers, some providing us with additional reviews even at short - tice.

Situating the Uyghurs Between China and Central Asia-Ildiko Beller-Hann 2016-12-14 Drawing together distinguished international scholars, this volume offers a unique insight into the social and cultural hybridity of the Uyghurs. It

bridges a gap in our understanding of this group, an officially recognized minority mainly inhabiting the Xinjiang Uyghur Autonomous Region of the People's Republic of China, with significant populations also living in the Central Asian states. The volume is comparative and interdisciplinary in focus: historical chapters explore the deeper problems of Uyghur identity which underpin the contemporary political situation; and sociological and anthropological comparisons of a range of practices from music culture to life-cycle rituals illustrate the dual, fused nature of contemporary Uyghur social and cultural identities. Contributions by 'local' Uyghur authors working within Xinjiang also demonstrate the possibilities for Uyghur advocacy in social and cultural policy-making, even within the current political climate.

Fulfilling the Export Potential of Small and Medium Firms-Brian Levy 2012-12-06 Fulfilling the Export Potential of Small and Medium Firms addresses the question, 'How can economic policy contribute to a strong export performance by small and medium enterprises (SMEs) in developing countries?' In today's increasingly integrated world economy, such a performance can make a significant difference to the growth, employment creation and income distribution of many developing countries. The study uses information from specifically designed surveys of SME exporters in Japan, Indonesia, Korea and Colombia, together with a range of evidence from other sources, to ascertain what types of support within the areas of technology, marketing and finance are most useful to SME exporters and how such support can best be provided to them. The quality of the support systems is found to vary widely among the four countries. Finally, a number of policy conclusions are put forward.

Just My Type-Synithia Williams 2014-06-02 Janiyah Henderson may be an adult, but her dad doesn't see it that way. Granted, she's enjoying her post-college life of little-to-no responsibility, but when her dad announces at a family meeting that she can't handle working a "real job," there's only one thing to do: land a desk job and prove him wrong. When her brother's best friend, Fredrick Jenkins, needs a new assistant, she knows she's the perfect candidate. So what if she's had a crush on the conservative accountant since she was nine? She's the last woman Freddy would fall for. But Fredrick is far from impervious to Janiyah's charms. Though he can't help but be attracted to her, he knows Janiyah is more interested in eating his cereal and teasing him than viewing him as more than the good guy next door. When he offers her the job, he can't imagine her giving up her late mornings and colorful outfits for 8:00 a.m. meetings and pantyhose for too long. But as Janiyah excels as his employee, he fears he's in danger of falling hard for a woman he shouldn't care for. Pretty soon the attraction they've tried to ignore boils to the surface. And after Fredrick shows Janiyah the man behind the numbers, she's ready to show him that she's just the type of woman he needs. Sensuality Level: Sensual

Vehicle Dynamics of Modern Passenger Cars-Peter Lugner 2018-05-22 The book provides the essential features necessary to understand and apply the mathematical-mechanical characteristics and tools for vehicle dynamics including control mechanism. An introduction to passenger car modeling of different complexities provides the basics for the dynamical behavior and presents vehicle models later used for the application of control strategies. The presented modeling of the tire behavior, also for transient changes of the contact patch properties, shows the necessary mathematical descriptions used for the simulation of the vehicle dynamics. The introduction to control for cars and its extension to complex applications using e.g. observers and state estimators is a main part of the book. Finally the formulation of proper multibody codes for the simulation leads to the integration of all parts. Examples of simulations and corresponding test verifications show the profit of such a theoretical support for the investigation of the dynamics of passenger cars.

Linear Algebra-Richard C. Penney 2020-12-08 Praise for the Third Edition "This volume is ground-breaking in terms of mathematical texts in that it does not teach from a detached perspective, but instead, looks to show students that competent mathematicians bring an intuitive understanding to the subject rather than just a master of applications." - Electric Review Learn foundational and advanced topics in linear algebra with this concise and approachable resource A comprehensive introduction, Linear Algebra: Ideas and Applications, Fifth Edition provides a discussion of the theory and applications of linear algebra that blends abstract and computational concepts. With a focus on the development of mathematical intuition, the book emphasizes the need to understand both the applications of a particular technique and the mathematical ideas underlying the technique. The book introduces each new concept in the context of explicit numerical examples, which allows the abstract concepts to grow organically out of the necessity to solve specific problems. The intuitive discussions are consistently followed by rigorous statements of results and proofs. Linear Algebra: Ideas and Applications, Fifth Edition also features: A new application section on section on Google's Page Rank Algorithm. A new application section on pricing long term health insurance at a Continuing Care Retirement Community (CCRC). Many other illuminating applications of linear algebra with self-study questions for additional study. End-of-chapter summaries and sections with true-false questions to aid readers with further comprehension of the presented material Numerous computer exercises throughout using MATLAB® code Linear Algebra: Ideas and Applications, Fifth Edition is an excellent undergraduate-level textbook for one or two semester undergraduate courses in mathematics, science, computer science, and engineering. With an emphasis on intuition development, the book is also an ideal self-study reference.

Micro-hydro Design Manual-Adam Harvey 1993-01 Micro-Hydro Design Manual has grown from Intermediate Technology's field experiences with micro-hydro installations and covers operation and maintenance, commissioning, electrical power, induction generators, electronic controllers, management, and energy surveys. There is an increasing need in many countries for power supplies to rural areas, partly to support industries, and partly to provide illumination at night. Government authorities are faced with the very high costs of extending electricity grids. Often micro-hydro provides an economic alternative to the grid. This is because independent micro-hydro schemes save on the cost of grid transmission lines, and because grid extension schemes often have very expensive equipment and staff costs. In contrast, micro-hydro schemes can be designed and built by local staff and smaller organizations following less strict regulations and using 'off-the-shelf' components or locally made machinery.
