adoption of mobile phones has occurred amidst controversy over whether the technology poses a risk to human health. Like other devices that transmit radio signals, mobile phones emit radio-frequency (RF) energy. At high power levels, RF energy can heat biological tissue and cause damage. Though mobile phones operate at power levels well below the level at which this thermal effect occurs, the question of whether long-term exposure to RF energy emitted from mobile phones can cause other types of adverse health effects, such as cancer, has been the subject of research and debate. This book examines what is known about the health effects of RF energy from mobile phones, with a focus on the FCC and FDA's regulatory responsibilities; and other scientific research.

The Grappler-William K. Richardson 2011-04-07 Jamal Hayes is fifteen and caught up in the wrong stuff in Chicago. Because his mother cannot take care of him, he is sent to live with his grandfather in Memphis. Pop is old-school in every way. From the moment he arrives in Memphis, Jamal knows that Pop means business and that he will have to do his best to win his respect. As a way to get out of the work his grandfather lines up for him daily, Jamal goes to wrestling practice one afternoon. He is worn out after his first practice and really sore the next morning, but he also has a feeling of accomplishment and he respects the coach. Led by Coach Zane Russo, the wrestling team and its practices are tough, but Jamal knows that he has found something that he is good at where he can succeed. Every day, Jamal endures the work and finds his niche, landing in the 152 finals of the Freshman City Championships. As he becomes stronger and better at wrestling, his relationship with his grandfather improves. The future looks better and better for Jamal but can it continue?

chan and the Daruma Doll, a gorgeous multicultural children's book by author/illustrator Sunny Seki, takes readers on a journey into ancient Japan and the story behind the famous Daruma Doll. Yuko-chan, an adventurous blind orphan, is able to do amazing things. She confronts a burglar in the dead of night, and crosses treacherous mountain passes to deliver food to hungry people. During her travels, Yuko-chan trips and tumbles down a snowy cliff. She discovers a strange thing as she waits for help: her tea gourd, regardless of how she drops it, always lands right-side-up. The tea has frozen in the bottom of the gourd! Inspired by this, she creates the famous Daruma doll toy, which rights itself when tipped—a true symbol of resilience. Thanks to Yuko-chan's invention, the villagers are able to earn a living and feed themselves by selling the dolls. Yuko-chan never gave up, no matter the obstacles she faced, and the Daruma doll is a charming reminder of the power of perseverance. With text in English and Japanese this book is of special interest to bicultural families.

used your imagination to solve a problem? When Albert Einstein was young, he was fascinated by the way magnetism made a compass work. As an adult, he used thought experiments to solve some of the universe's greatest mysteries. Einstein loved to think about math and science. He worked for a while at a patent office, but his mind wasn't focused on inventions. Instead, he thought about the universe. In 1905, Einstein's Special Theory of Relativity solved questions that scientists had grappled with for hundreds of years. Learn how Einstein's imagination became a powerful tool that helped him understand the nature of space and time.

Hope in the Ecumenical Future-Mark D. Chapman 2017-09-20 This book offers fresh insights into the contemporary state of Ecumenism. Following the election of Pope Francis, there has been a significant thaw in ecumenical relations, and there are grounds for thinking that this will continue into the future. The twelve chapters, written both by experienced ecumenical theologians as well as younger scholars, that have been gathered together in this collection, offer one of the first detailed assessments of the impact of Francis' papacy on ecumenical dialogue. Drawing on ecumenical methodology, as well as many practical examples and illustrations, the authors discuss the developments in culture and missiology as these affect the practice of ecumenism, particularly in response to theologies of hope as well as inter-religious dialogue and pluralism. What emerges is a clear sense of hope for the future in a rapidly changing world and even a sense of optimism that real ecumenical progress might be made.

A Little Union Scout-Joel Chandler Harris 2020-01-30 A young lady, just returned from college, was making a still-hunt in the house for old things-old furniture, old china, and old books. She had a craze for the antique, and the older things were the more precious they were in her eyes. Among other things she found an old scrap-book that her mother and I thought was safe under lock and

in a sunny place and read it page by page, and, when she had finished, her curiosity was aroused. The clippings in the old scrapbook were all about the adventures of a Union scout whose name was said to be Captain Frank Leroy. The newspaper clippings that had been preserved were queerly inconsistent. The Northern and Western papers praised the scout very highly, and some of them said that if there were more such men in the army the cause of the Union would progress more rapidly; whereas the Southern papers, though paying a high tribute to the dash and courage of the scout, were highly abusive. He was "one of Lincoln's hirelings" and as villainous as he was bold.
