Uelsmann/Yosemite-Jerry Uelsmann 1996 Acclaimed as an international master of photomontage, Jerry Uelsmann creates images of Yosemite so wild and personal that they expand the concept of nature photography. In his efforts to fathom the secrets of the park, Uelsmann says he wrestles with the Yosemite gods, fighting the whole notion of the romantic landscape tradition, every time he works with his Yosemite negatives. 64 duotone photos.

The Oxford Dictionary of American Art & Artists-Ann Lee Morgan 2018-10-04 This new edition of The Oxford Dictionary of American Art and Artists has been fully revised and updated as well as including dozens of new entries offering an insightful and informative view of America's artistic heritage. An indispensable biographical and critical guide to American art from colonial times to contemporary postmodernism, this valuable resource provides readers with a wealth of factual detail and perceptive analysis of America's leading artists. This new edition has been updated to include a number of entries on prevailing topics such as body art, light and space, Indian-American art, scatter art, and transactional art, and features many new or greatly expanded biographical entries on artists such as Ida Applebroog, Guerilla Girls, Peter Hujar and Shirin Neshat. Morgan offers readers a wealth of authoritative information as well as well-informed analysis and criticism of artists and their work. Filled with fascinating historical background and penetrating insight, The Oxford Dictionary of American Art and Artists is an essential resource for art lovers everywhere.

Oxford Dictionary of American Art and Artists-Ann Lee Morgan 2008 This comprehensive dictionary is an indispensable guide to American art from colonial times to contemporary postmodernism. It is the most extensive, most up-to-date dictionary on American art currently available.

Encyclopedia of Twentieth-Century Photography, 3-Volume Set-Lynne Warren 2005-11-15 The Encyclopedia of Twentieth-Century Photography explores the vast international scope of twentieth-century photography and explains that history with a wide-ranging, interdisciplinary manner. This unique approach covers the aesthetic history of photography as an evolving art and documentary form, while also recognizing it as a developing technology and cultural force. This Encyclopedia presents the important developments, movements, photographers, photographic institutions, and theoretical aspects of the field along with information about equipment, techniques, and practical applications of photography. To bring this history alive for the reader, the set is illustrated in black and white throughout, and each volume contains a color plate section. A useful glossary of terms is also included.

Yosemite and Sequoia-Richard J. Orsi 1993 This collection of essays and photographs, originally published as a special issue of California History, the journal of the California Historical Society, documents the creation and management of California's first three national parks, focusing on the debate over preservation versus development. As the authors of these essays remind us, tourists visited Yosemite long before its establishment as a national park; and the issues of park development so hotly debated today were raised and debated first in Yosemite, nearly a hundred years ago.

Camerawork- 1996

Homeland of the Imagination-Donald Burton Kuspit 1996

Common Ground-Philip Brookman 2004 Common Ground: Discovering Community in 150 Years of Art brings together over 120 works of art that explore the universal human experiences of struggle, transcendence, and salvation. Drawn from the collection of Washington D.C.-based Julia (Judy) Norrell, these inspiring works illustrate the essential common threads that unite people of all cultures, irrespective of their politics, race, or religion.

Twentieth Century United States Photographers-Kristin G. Congdon 2008 Presents the lives and accomplishments of leading twentieth-century American photographers, discussing their individual styles and the major themes of their work, and their influence on the current generation of photographers.

Adobe Photoshop Master Class-John Paul Caponigro 2003 Adobe Photoshop Master Class: John Paul Caponigro, 2nd Edition is no ordinary book on Photoshop. It is a true master class by renowned artist and photographer John Paul Caponigro, in which he shares his insights and discoveries as a visual artist. Although the book contains step-by-step tutorials that deconstruct some of Caponigro's most inspirational photographic works, the emphasis is on technique and visual problem solving, enabling you to take the concepts and apply them to your own unique projects. Updated for Photoshop 7, the revised edition of this master class includes numerous new and revised chapters that explain how to achieve color accuracy and extend dynamic range, direct attention through focus, control atmospheric perspective, and more. You don't have to be a professional photographer to appreciate and learn from this beautiful and informative book.Caponigro starts out with a section covering Photoshop essentials before moving on to more advanced artistic techniques.

Jerry Uelsmann-Jerry Uelsmann 1992 Photographs create a surrealistic mood by seamlessly combining and overlapping images

Yosemite in Time-Mark Klett 2008-02-01 These photographs and essays reconsider the iconic status of Yosemite in America's conception of wilderness, examining how the place was appropriated by its early Euro-American visitors and showing how conceptions of landscape have altered and how land has changed--or not--over time.

Other Realities-Jerry Uelsmann 2005-09-09

Photography-Henry Horenstein 2004 This art book shows contemporary and cutting-edge work as well as historical. It deals with real-life issues of taking pictures and making prints in the practical way working photographers do. Using strong contemporary portfolio photographs, profiles of top photographers with a look at career matters, it includes practical strategies for taking and printing photographs, and a seamless mix of color, black-and-white, and digital technologies. For photographers and photojournalists.

70', la photographie américaine-Anne Biroleau 2008 En 1971, la Bibliothèque nationale présenta une exposition consacrée à de jeunes Américains alors peu connus. Loin du pictorialisme, à distance du pur document, ces photographes ne rompaient pourtant pas avec la riche tradition qu'incarnaient Walker Evans, Harry Callahan ou Aaron Siskind. Le portrait (Diane Arbus), le paysage (Paul Caponigro, Lewis Baltz), les expérimentations photographiques (Duane Michals ou Les Krims) font écho aux scènes de rue de Garry Winogrand, William Klein, aux héros marginaux de Larry Clark, à l'humour décalé de Bill Owens. L'ensemble offre la part belle à l'onirisme et au fantasma. Cette nouvelle exposition et son catalogue mettent en évidence l'audace et la vigueur des formes. Elle entend montrer la confondante liberté qui, à cette époque, balaya les stéréotypes et exerce encore son emprise sur la conception postmoderne de la photographie.

Carleton Watkins-Carleton E. Watkins 1993

Light on the Landscape-William Neill 2020-07 See the images and read the stories behind the creative process of one of America's most respected landscape photographers, William Neill. For more than two decades, William Neill has been offering his thoughts and insights about photography and the beauty of nature in essays that cover the techniques, business, and spirit of his photographic life. Curated and collected here for the first time, and accompanying 128 beautiful reproductions of Neill's photographs, these essays are both pragmatic and profound, offering readers an intimate look behind the scenes at Neill's creative process behind individual photographs as well as a discussion of the larger and more foundational topics that are key to his philosophy and approach to work. Drawing from the tradition of behind-the-scenes books like Ansel Adams' Examples: The Making of 40 Photographs and Galen Rowell's Mountain Light: In Search of the Dynamic Landscape, Light on the Landscape covers in detail the core photographic fundamentals such as light, composition, camera angle, and exposure choices, but it also deftly considers those subjects that are less frequently examined: portfolio development, marketing, printmaking, nature stewardship, inspiration, preparation, self-improvement, and more. The result is a profound and wide-ranging exploration of that magical convergence of light, land, and camera. Filled with beautiful and inspiring photographs, Light on the Landscape is also full of the kind of wisdom that only comes from a deeply thoughtful photographer who has spent a lifetime communicating with a camera. Incorporating the lessons within the book, you too can learn to achieve not only technically excellent and beautiful images, but photographs that truly rise above your best and reveal your deeply personal and creative perspective--your vision, your voice.

Photoshop Fine Art Effects Cookbook-John Beardsworth 2006 How would you like to create your own impressionist landscape, a van Gogh still life, or a surrealist Salvador Dali dream world? Or perhaps a classic Ansel Adams photograph of Yosemite or an authentic-looking 19th century Daguerrotype? You can do all of that and more with Photoshop Fine Art Effects Cookbook. The book tells you all you need to know to turn your original digital photographs into images that mimic the styles of great photographers and painters. From advice on how to develop an eye for appropriate subject matter to 62 detailed recipes that demonstrate exactly how to create an "original" van Gogh, Vermeer, Edward Weston, or Andy Warhol (among others), this book is an authentic guide to understanding and simulating the work of great artists-and a whole lot of fun. Analyzing the styles of great artists: format, composition, angles of view, color palettes, and image textures Shooting for digital manipulation, working non-destructively, making your own brushes and patterns Creating Daguerrotypes, cyanotypes, stop-motion photographs, cross-processed images, Polaroid transfers, and infrared effects Mimicking photographic styles from the pre-Raphaelites and the Naturalists to Jerry Uelsmann and David Hockney Exploring painting and printmaking techniques from Rembrandt to Warhol: Dutch portraits, 18th century landscape painting, Japanese woodblocks, Impressionism, Pointillism, Fauvism, Art Nouveau, Cubism, Futurism, Surrealism, and Pop Art Packed with step-by-step instructions, an inspirational selection of full-color digital imagery, and authoritative information and advice, Photoshop Fine ArtEffects Cookbook is the ultimate guide to creating convincing digital masterpieces in the styles of many of the world's greatest artists.

Silver Meditations-Jerry Uelsmann 1975

Ansel Adams' Yosemite-Ansel Adams 2019-10-01 America's greatest photographer on his greatest subject--featuring the Yosemite Special Edition Prints, a collectible collection of photographs selected by Ansel Adams during his lifetime, yet never before published in book form. The photographs of Ansel Adams are among America's finest artistic treasures, and form the basis of his tremendous legacy of environmental activism. In the late 1950s, Adams selected eight photographs of Yosemite National Park to offer exclusively to park visitors as affordable souvenirs. He hoped that these images might inspire tourists to become activists by transmitting to them the same awe and respect for nature that Yosemite had instilled in him. Over the following decades, Adams added to this collection to create a stunning view of Yosemite in all its majesty. These photographs, the Yosemite Special Edition Prints, form the core of this essential volume. Adams' luminous images of Yosemite's unique rock formations, waterfalls, meadows, trees, and nature details are among the most distinctive of his career. Today, with America's public lands increasingly under threat, his creative vision remains as relevant and convincing as ever. Introduced by bestselling photographer Pete Souza, with an essay by Adams' darkroom assistant Alan Ross, Ansel Adams' Yosemite is a powerful continuation of Adams' artistic and environmental legacies, and a compelling statement during a precarious time for the American earth.
