Verizon Untethered-Ivan Seidenberg 2018-05-01 The Verizon leadership team stands apart from most leadership teams today in their willingness repeatedly to put the enterprise before the individual. At first blush, this might look like a hopelessly old-fashioned notion in the age of the selfie. Yet, I would argue this is a trait that future leaders and boards of directors across industries would do well to understand and embrace. Seidenberg not once but twice in the service of company shareholders and employees subordinated himself and put off taking sole leadership of the company to advance the enterprise's odds of success. And many others in this story exhibited the same trait to help build this industry-leading enterprise. They understood that the risk of not acting and thereby destroying value during a period of accelerating technological change and industry consolidation—a situation faced by leadership teams around the world today—was much greater than the risk of stepping in as No. 2 or co-CEO. In my 50 years of experience, it is a rare leadership team that will subordinate itself for the benefit of the industry, customers and the company. That principle, that the company comes first, the individual second, is what will define successful leadership teams of the future. Multiple leadership principles, some new, some timeless, emerge from this narrative and will be of great use to the next generation of leaders across industries and around the world. By taking a look at a company that successfully executed exponential transformation, we can take the strategies of Verizon leaders and apply them to our own experiences.—Ram Charan

How to American-Jimmy O. Yang 2018-03-13 Standup comic, actor and fan favorite from HBO's Silicon Valley and the film Crazy Rich Asians shares his memoir of growing up as a Chinese immigrant in California and making it in Hollywood. "I turned down a job in finance to pursue a career in stand-up comedy. My dad thought I was crazy. But I figured it was better to disappoint my parents for a few years than to disappoint myself for the rest of my life. I had to disappoint them in order to pursue what I loved. That was the only way to have my Chinese turnip cake and eat my American apple pie too." Jimmy O. Yang is a standup comedian, film and TV actor and fan favorite as the character Jian Yang from the popular HBO series Silicon Valley. In How to American, he shares his story of growing up as a Chinese immigrant who pursued a Hollywood career against the wishes of his parents: Yang arrived in Los Angeles from Hong Kong at age 13, learned English by watching BET RapCity for three hours a day, and worked as a strip club DJ while pursuing his comedy career. He chronicles a near deportation episode during a college trip Tijuana to finally becoming a proud US citizen ten years later. Featuring those and many other hilarious stories, while sharing some hard-earned lessons, How to American mocks stereotypes while offering tongue in cheek advice on pursuing the American dreams of fame, fortune, and strippers.

The Age of Surveillance Capitalism-Shoshana Zuboff 2019-01-15 The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called "surveillance capitalism," and the quest by powerful corporations to predict and control our behavior. In this masterwork of original thinking and research, Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism. The stakes could not be higher: a global architecture of behavior modification threatens human nature in the twenty-first century just as industrial capitalism disfigured the natural world in the twentieth. Zuboff vividly brings to life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector. Vast wealth and power are accumulated in ominous new "behavioral futures markets," where predictions about our behavior are bought and sold, and the production of goods and services is subordinated to a new "means of behavioral modification." The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture: a "Big Other" operating in the interests of surveillance capital. Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight. Zuboff's comprehensive and moving analysis lays bare the threats to twenty-first century society: a controlled "hive" of total connection that seduces with promises of total certainty for maximum profit—at the expense of democracy, freedom, and our human future. With little resistance from law or society, surveillance capitalism is on the verge of dominating the social order and shaping the digital future—if we let it.
Unzipped-Lauren Blakely 2019-01-14 Wanted: Dating coach to help hot nerd win back the woman of his dreams... Picture this - I'm ready to give up the love of my life, and I'm going big this time. We're talking boom box, sing her name in the rain, let the whole damn neighborhood know I'm good and ready this time around. After all, if you're going to grand gesture the ever-loving hell out of a second chance, you need to pull out all the stops. There's only one little problem. My college girlfriend isn't the one who shows up when I play my "I'll do anything to win you back" tune. The woman who flings open the second-floor window tells me my ex doesn't live here anymore. But she'll help me win her back. Anything for romance, anything for a guy so willing to go big for love. And that's what I want at first. Until I get to know my new "romance coach" and discover she's funny, clever, and keeps me on my toes. And boy, do I ever need that. Now I don't want to win anyone else's heart. I want the woman who's been helping me all along. Trouble is - she thinks I'm in love with someone else, and when we take off on a road trip, everything I think I know about women is about to be unzipped and turned inside out. *Unzipped is a standalone spinoff in the Lucky in Love series of standalones*
