The Magic Vine Quilt-Eleanor Burns 2007-04-15 Grow a flower garden in beautiful fabrics to grace your bed or wall as Eleanor Burns presents Magic Vine. The patterns for Magic Vine originated in the 1930's in a newspaper quilt column written by Florence LaGanke Harris. As part of a series, LaGanke presented one new pattern each week. In addition to the pattern, the reader was treated to a fictitious story about a quilt group and their leader, Nancy Page. In the group, they shared stories, and decided on what colors to use for their flowers. Twenty-two flowers are appliqued in rows with twinning vines. It is magical because of the variety of flowers that grow on the vine. The vine grows quickly, like the magic vine in Jack and the Beanstalk. Whimsical flowers and leaves are easily made, using lightweight paper backed adhesive or the quick turn method using non-woven fusible interfacing. The outside edges are finished with a variety of techniques: satin stitch, blanket stitch, blind hemstitch, and hand applique. Give Magic Vine a traditional 1930's look using reproduction fabrics or bright and contemporary with vibrant batiks. Enjoy embellishing the flowers with hand or machine stitches, beads, and crystals. Eleanor offers assistance on fabric selection and yardage and cutting charts for all five quilt sizes. Bonus projects are included. The book is conveniently bound in wire-o to lay flat.

Patti Smith's Horses-Philip Shaw 2008-03-15 Described as the perfect fusion of poetry and garage band rock and roll (the original concept was "rock and Rimbaud"), Horses belongs as much to the world of literary and cultural criticism as it does to the realm of musicology. While Horses pays homage to the record's origins in the nascent New York punk scene, the book's core lies in a detailed analysis of Patti Smith's lyrics and includes discussions of lyrical preoccupations: love, sex, gender, death, dreams, god, metamorphosis, intoxication, apocalypse and transcendence. Philip shaw demonstrates how Horses transformed the possibilities of both poetry and rock music; and how it achieved nothing less than a complete and systematic derangement of the senses.

Social Science, Philosophy and Theology in Dialogue-Pierpaolo Donati 2019-04-09 This volume explores the potential of employing a relational paradigm for the purposes of interdisciplinary exchange. Bringing together scholars from the social sciences, philosophy and theology, it seeks to bridge the gap between subject areas by focusing on real phenomena. Although these phenomena are studied by different disciplines, the editors demonstrate that it is also possible to study them from a common relational perspective that connects the different languages, theories and perspectives which characterize each discipline, by going beyond their differences to the core of reality itself. As an experimental collection that highlights the potential that exists for cross-disciplinary work, this volume will appeal to scholars across a range of field concerned with critical realist approaches to research, collaborative work across subjects and the manner in which disciplines can offer one another new insights.

Woodcraft and Camping-George Washington Sears 2020-04-09 It is an age of hurry and worry. Fortunes are quickly made and freely spent. Nearly all busy, hard-worked Americans have an intuitive sense of the need that exists for at least one period of rest and relaxation during each year, and all—or nearly all—are willing to pay liberally, too liberally in fact, for anything that conduces to rest, recreation and sport. I am sorry to say that we mostly get swindled. To the man of millions it makes little difference. I do not write for him, and can do him little good. But there are hundreds of thousands of practical, useful men, many of them far from being rich; mechanics, artists, writers, merchants, clerks, business men—workers, so to speak—who sorely need and well deserve a season of rest and relaxation at least once a year. To these, and for these, I write. (George Washington Sears, Chapter I)

Loving Che-Ana Menendez 2007-12-01 In this "evocative first novel," an elderly woman looks back on the world of revolutionary Cuba as she recalls her intimate, secret love affair with Ernesto "Che" Guevara (Publishers Weekly). A young Cuban woman has been searching in vain for details of her birth mother. All she knows of her past is that her grandfather fled the turbulent Havana of the 1960s for Miami with her in tow, and that pinned to her sweater—possibly by her mother—were a few treasured lines of a Pablo Neruda poem. These facts remain her only tenuous links to her history, until a mysterious parcel arrives in the mail. Inside the soft, worn box are layers of writings and photographs. Fitting these pieces together with insights she gleans from several trips back to Havana, the daughter reconstructs a life of her mother, her youthful affair with the dashing, charismatic Che Guevara and the child she bore by the enigmatic rebel. Loving Che is a brilliant recapturing of revolutionary Cuba, the changing social mores, the hopes and disappointments, the excitement and terror of the times. It is also an erotic fantasy, a glimpse into the private life of a mythic public figure, and an exquisitely crafted meditation on memory, history, and storytelling. Finally, Loving Che is a triumphant unveiling of how the stories we tell about others ultimately become the story of ourselves. "A moving novel from a writer to watch." —Publishers Weekly "Inventive and hypnotic . . . [An] artful and restless examination of the exile soul." —Los Angeles Times "[Menendez] captures Cuba's potential, its desperation and decay, and also its dark humor." —The New York Times "The writing is consistently beautiful. Highly recommended." —Library Journal
