When We Fight, We Win-Greg Jobin-Leeds 2016-01-05 Same-sex marriage, #BlackLivesMatter, the DREAM Act, the People’s Climate March, End the New Jim Crow, Occupy Wall Street, the fight for a \$15 minimum wage—these are just a few of the remarkable movements that have blossomed in the past decade, a most fertile and productive era of activism. Now, in a visually rich and deeply inspiring book, the leaders and activists of these and other movements distill their wisdom, sharing lessons of what makes—and what hinders—transformative social change. Longtime social activist Greg Jobin-Leeds joins forces with AgitArte, a collective of artists and organizers, to capture the stories, philosophy, tactics, and art of today’s leading social change movements. When We Fight, We Win! weaves together interviews with today’s most successful activists and artists from across the country and beyond—including Patrisse Cullors-Brignac, Bill McKibben, Clayton Thomas-Muller, Karen Lewis, Favianna Rodriguez, Rea Carey, and Gaby Pacheco, among others—with narrative recountings of strategies and campaigns alongside full-color photos. It includes a foreword by Rinku Sen and an afterword by Antonia Darder. When We Fight, We Win! will give a whole generation of readers the chance to celebrate and benefit from a remarkable decade of activism—a decade that shows just how ripe these times are for social transformation.

We Fight To Win-Hava Rachel Gordon 2009-10-09 In an adult-dominated society, teenagers are often shut out of participation in politics. We Fight to Win offers a compelling account of young people’s attempts to get involved in community politics, and documents the battles waged to form youth movements and create social change in schools and neighborhoods. Hava Rachel Gordon compares the struggles and successes of two very different youth movements: a mostly white, middle-class youth activist network in Portland, Oregon, and a working-class network of minority youth in Oakland, California. She examines how these young activists navigate schools, families, community organizations, and the mainstream media, and employ a variety of strategies to make their voices heard on some of today’s most pressing issuesùwar, school funding, the environmental crisis, the prison industrial complex, standardized testing, corporate accountability, and educational reform. We Fight to Win is one of the first books to focus on adolescence and political action and deftly explore the ways that the politics of youth activism are structured by age inequality as well as race, class, and gender.

How We Fight for Our Lives-Saeed Jones 2020-07-07 From award-winning poet Saeed Jones, How We Fight for Our Lives—winner of the Kirkus Prize and the Stonewall Book Award—is a “moving, bracingly honest memoir” (The New York Times Book Review) written at the crossroads of sex, race, and power. One of the best books of the year as selected by The New York Times; The Washington Post; NPR; Time; The New Yorker; O, The Oprah Magazine; Harper’s Bazaar; Elle; BuzzFeed; Goodreads; and many more. “People don’t just happen,” writes Saeed Jones. “We sacrifice former versions of ourselves. We sacrifice the people who dared to raise us. The ‘I’ it seems doesn’t exist until we are able to say, ‘I am no longer yours.’” Haunted and haunting, How We Fight for Our Lives is a stunning coming-of-age memoir about a young, black, gay man from the South as he fights to carve out a place for himself, within his family, within his country, within his own hopes, desires, and fears. Through a series of vignettes that chart a course across the American landscape, Jones draws readers into his boyhood and adolescence—into tumultuous relationships with his family, into passing flings with lovers, friends, and strangers. Each piece builds into a larger examination of race and queerness, power and vulnerability, love and grief: a portrait of what we all do for one another—and to one another—as we fight to become ourselves. An award-winning poet, Jones has developed a style that’s as beautiful as it is powerful—a voice that’s by turns a river, a blues, and a nightscape set ablaze. How We Fight for Our Lives is a one-of-a-kind memoir and a book that cements Saeed Jones as an essential writer for our time.

Full Spectrum Resistance, Volume One-Aric McBay 2019-05-28 A guide to direct action for those disillusioned with the posturing of liberal “activism.” The radical left is losing, but it doesn’t have to be that way. Here is the radical’s guide to activist work—the manual we need at this crucial moment to organize for universal human rights, a habitable earth, and a more egalitarian society. Thoroughly exploring the achievements and failures of radical movements throughout history—from 19th-century anti-colonial rebellions in China and the environmental actions of First Nations and Native American tribes throughout the 20th century, to Black Lives Matter and the fight for Gay Liberation—the two volumes of Full Spectrum Resistance candidly advocate for direct action, not just risk-averse models of protest marches and call-ins. With in-depth histories and case studies of social justice and environmental movements, noted writer, activist, and farmer Aric McBay explains why passive resistance alone cannot work, and how we must be prepared to do whatever it takes to create substantial social change. In Volume 1: Building Movements and Fighting to Win, McBay describes the need for resistance movements, and paints a portrait of what a thriving resistance movement might look like today. Citing successful movements such as the Deacons of Defense of the American Civil Rights Movement, the anti-colonial revolutions in Guinea and Cape Verde, and activist groups like Act-UP, McBay deftly illustrates how to organize activist groups and encourage enlistment, while also noting the necessary precautions one must take to secure these radical circles from infiltration and collapse.

Serafina and the Black Cloak-Robert Beatty 2015-07-14 "Never go into the deep parts of the forest, for there are many dangers there, and they will ensnare your soul." Serafina has never had a reason to disobey her pa and venture beyond the grounds of the Biltmore estate. There's plenty to explore in her grand home, although she must take care to never be seen. None of the rich folk upstairs know that Serafina exists; she and her pa, the estate's maintenance man, have secretly lived in the basement for as long as Serafina can remember. But when children at the estate start disappearing, only Serafina knows who the culprit is: a terrifying man in a black cloak who stalks Biltmore's corridors at night. Following her own harrowing escape, Serafina risks everything by joining forces with Braeden Vanderbilt, the young nephew of the Biltmore's owners. Braeden and Serafina must uncover the Man in the Black Cloak's true identity...before all of the children vanish one by one. Serafina's hunt leads her into the very forest that she has been taught to fear. There she discovers a forgotten legacy of magic, one that is bound to her own identity. In order to save the children of Biltmore, Serafina must seek the answers that will unlock the puzzle of her past.

How We Win-Farah Pandith 2019-03-12 “Drawing on her decades of experience, Pandith unweaves the tangled web of extremism and demonstrates how government officials, tech CEOs, and concerned citizens alike can do their part to defeat it.” – Former Secretary of State Madeleine K. Albright There is a war being fought, and we are losing it. Despite the billions of dollars spent since 9/11 trying to defeat terrorist organizations, the so-called Islamic State, Al Qaeda, and other groups remain a terrifying geopolitical threat. In some ways the threat has grown worse: The 9/11 hijackers came from far away; the danger today can come from anywhere—from the other side of the world to across the street. Unable to stem recruitment, we seem doomed to a worsening struggle with a constantly evolving enemy that remains several steps ahead of us. Unfortunately, current policies seem almost guaranteed not to reduce extremist violence but instead to make it easier for terrorists to spread their hateful ideas, recruit new members, and carry out attacks. We actually possess the means right now to inoculate communities against extremist ideologies. In How We Win, Farah Pandith presents a revolutionary new analysis of global extremism as well as powerful but seldom-used strategies for vanquishing it. Drawing on her visits to eighty countries, the hundreds of interviews and focus groups she’s conducted around the world, and her high-level experience in the Bush and Obama administrations, Pandith argues for a paradigm shift in our approach to combat extremism, one that mobilizes the expertise and resources of diplomats, corporate leaders, mental health experts, social scientists, entrepreneurs, local communities, and, most of all, global youth themselves. There is a war being fought, and we can win it. This is how.

Playing to Win-Alan G. Lafley 2013 Explains how companies must pinpoint business strategies to a few critically important choices, identifying common blunders while outlining simple exercises and questions that can guide day-to-day and long-term decisions.

Stand Up!-Gordon Whitman 2018-01-16 Stand Up! How to Get Involved, Speak Out, and Win in a World on Fire A society that actively combats racism, treats climate change as a serious threat, and ensures that all people have a living wage and a decent life for themselves and their families is not a progressive pipe dream. Victories are being won every day, all over the country. But they didn't happen just by clicking “donate” on a website. Gordon Whitman says that fundamental change demands forming the kind of face-to-face relationships that have sustained every social movement in history. For two decades, Whitman has been working with PICO National Network to equip tens of thousands to fight racial discrimination and economic injustice. He brings that experience to this book, describing five kinds of conversations that enable people to create organizations that can successfully overcome the forces of oppression and reaction. The first conversation to have is with ourselves, to make sure we're clear about our purpose and in it for the long haul. Then we need to share the personal story of how we came to this point with others—there is no more powerful way to connect. They in turn will share their stories, and then we can have the third conversation, about becoming a team. This team reaches out to people they know to talk about their concerns and priorities, building a broad base of supporters.. Then, with our base at our back, we can have that final conversation, directly confronting the powers that be. Of course, this isn't as simple as it sounds. Appropriately enough, Whitman uses stories, his own and others, to illustrate how best to handle these conversations and to show how they work together to build a movement. We can't just sit on the sidelines sharing angry social media posts or signing online petitions. We need to get directly involved, reach out, knock on doors, and bring our whole selves to the table if the changes our country so desperately need are ever going to come.

The Art of War (Illustrated)-Sun Tzu 2020-03-03 The Art of War (孙子兵法), literally The Laws of War (military methods) by Master Sun is the most famous ancient Chinese treatise, dedicated to a military strategy and policy, written by Sun Tzu. As Sun Tzu said the art of war is of vital importants to the State. The treatise by Sun Tzu influenced crucially on a whole military art of the East. Although it is the first treatise on the military art, it includes clearly expressed common principles of strategy as well as tactics. A special place in a military theoretical literature belongs to comments on Sun Tzu, the earliest of which appeared in the Han era (206-220 AD), and the new ones are still being created... Illustrated by D. Fisher.

Why We Fight-Sebastian Gorka 2018-10-09 "Sebastian Gorka was [President Trump's] strategist. Dr. Gorka knows Donald Trump and the threats we face. Buy and read Why We Fight to find how we win and what it means to be an American hero. " — RUSH LIMBAUGH WAR. It will happen again. We must be ready. Sober words from Dr. Sebastian Gorka, a man who has made the unvarnished truth his specialty. And there’s one eternal truth that Americans are in danger of forgetting: the most important weapon in any geopolitical conflict is the will to win. And we must win. In this powerful manifesto, Dr. Gorka explains the basic principles that have guided strategists since Sun Tzu penned The Art of War in the sixth century B.C. To defeat your enemy, you must know him. But that’s the last thing liberal elites are interested in. Willful ignorance about our adversary—whether it’s Russia, China, or the global jihadi movement—has been crippling. Tearing off America’s politically correct blindfold, Dr. Gorka clarifies who our foes are and what makes them tick. An eight-year vacation from geopolitical reality under Obama left our country dangerously weakened. Dr. Gorka addresses the pressing questions we face as we rebuild under President Trump’s leadership: - What are the most serious threats to American security? - How are they different from the threats of the past? - What can we do to counter these threats? - How can we achieve the “perfect victory” of vanquishing our enemies without mortal combat? All the money and weapons in the world cannot substitute for the will to fight for our precious country and what she represents. To remind us of what the will to win looks like, Dr. Gorka intersperses the stories of four American heroes—Stephen Decatur, Chesty Puller, “Red” McDaniel, and a warrior who never took up arms, Whittaker Chambers—men who believed in their country and put everything on the line for her.

Unrigged: How Americans Are Battling Back to Save Democracy-David Daley 2020-03-17 A revelatory account by the best- selling author of Ratf\*\*ked that will give you hope that America’s fragile democracy can still be saved. Following Ratf\*\*ked, his “extraordinary timely and undeniably important” (New York Times Book Review) exposé of how a small cadre of Republican operatives rigged American elections, David Daley emerged as one of the nation’s leading authorities on gerrymandering. In Unrigged, he charts a vibrant political movement that is rising in the wake of his and other reporters’ revelations. With his trademark journalistic rigor and narrative flair, Daley reports on Pennsylvania’s dramatic defeat of a gerrymander using the research of ingenious mathematicians and the Michigan millennial who launched a statewide redistricting revolution with a Facebook post. He tells the stories of activist groups that paved the way for 2018’s historic blue wave and won crucial battles for voting rights in Florida, Maine, Utah, and nationwide. In an age of polarization, Unrigged offers a vivid portrait of a nation transformed by a new civic awakening, and provides a blueprint for what must be done to keep American democracy afloat.

A Primer on Social Movements-David A. Snow 2010 A brief, affordable introduction to collective behavior and social movements.

We Are Born to Fight to Win to Conquer and Overcome-Dumitru D. Coman 2011-06-01

Open Heart-Elie Wiesel 2015-09-29 The author, at age eighty-two, was told that he needed immediate surgery to clear his blocked arteries. On what he knew might very well be his deathbed, he reflected on his many losses and accomplishments, and on all that remained to be done. Fortunately, he survived the life-threatening heart surgery to turn those reflections into a book which discusses his affection for his family both departed and still living, his aspirations for his writing, and his hope that he improved the world

Good Trouble-Christopher Noxon 2019-01-08 Good Trouble is the helpful antidote to all the pessimism and name-calling that is permeating today’s political and social dialogues. Revisiting episodes from the civil rights movement of the 1950s and ’60s, it highlights the essential lessons that modern-day activists and the civically minded can extract and embrace in order to move forward and create change. In words and vivid pen-and-watercolor illustrations, journalist Christopher Noxon dives into the real stories behind the front lines of the Montgomery bus boycott and the Greensboro lunch counter sit-ins and notable figures such as Rosa Parks and Bayard Rustin, all while

exploring the parallels between the civil rights movement era and the present moment. This thoughtful, fresh approach is sure to inspire conversation, action, and, most importantly, hope.

When We Clicked-Yash Pawaskar 2014-03-28 Two strangers, one city, four days, one night, one lie and a fantastic journey. ‘When We Clicked’ is my twisted love story. I am Akhil Parlekar, a Mumbaikar in my early twenties. Like every other Mumbaikar I love my city, consider Sachin Tendulkar a God fantasize about Katrina Kaif, but I am about to die. Before I was dying, I lived my life in four days, when we clicked. It was love at first sight for me, but not for her. I spent the four days with her wandering in the city, thinking that she would fall in love with me, but the night that followed the fourth day, changed everything. This journey is about emotions like humour, lust, hatred, betrayal, heroism, friendship and the biggest emotion of them all; love. I am letting you in my heart as well as my brain, you be the judge if this is a love story or not. `You are the protagonist of your life’s story, the central character around which all the other characters and incidents occur. When the protagonist of your story changes to someone else, you are in love. That person becomes the central character of your story and everything else revolves around the person you love.’

The Third Side-William Ury 2000 Using new archaeological and anthropological evidence, the author explains how to resolve conflicts in the home, work, and the world by identifying the "Third Side" of seemingly black-and-white arguments. Originally published as Getting to Peace. Reprint.

Where Men Win Glory-Jon Krakauer 2009-09-15 This edition has been updated to reflect new developments and includes new material obtained through the Freedom of Information Act. Pat Tillman walked away from a multimillion-dollar NFL contract to join the Army and became an icon of post-9/11 patriotism. When he was killed in Afghanistan two years later, a legend was born. But the real Pat Tillman was much more remarkable, and considerably more complicated than the public knew... A stunning account of a remarkable young man's heroic life and death, from the bestselling author of Into the Wild, Into Thin Air, and Under the Banner of Heaven. From the Trade Paperback edition.

Until We Reckon-Danielle Sered 2019-03-05 "Profoundly necessary." —Michelle Alexander, New York Times columnist and author of The New Jim Crow In the eloquent tradition of Bryan Stevenson's Just Mercy, an award-winning leader in the movement to end mass incarceration takes on the vexing problem of violent crime Although over half the people incarcerated in America today have committed violent offenses, the focus of reformers has been almost entirely on nonviolent and drug offenses. Danielle Sered's brilliant and groundbreaking Until We Reckon steers directly and unapologetically into the question of violence, offering approaches that will help end mass incarceration and increase safety. Widely recognized as one of the leading proponents of a restorative approach to violent crime, Sered asks us to reconsider the purposes of incarceration and argues persuasively that the needs of survivors of violent crime are better met by asking people who commit violence to accept responsibility for their actions and make amends in ways that are meaningful to those they have hurt—none of which happens in the context of a criminal trial or a prison sentence. Sered launched and directs Common Justice, one of the few organizations offering alternatives to incarceration for people who commit serious violent crime and which has produced immensely promising results. Critically, Sered argues that the reckoning owed is not only on the part of those who have committed violence, but also by our nation's overreliance on incarceration to produce safety—at great cost to communities, survivors, racial equity, and the very fabric of our democracy.

This Fight Is Our Fight-Elizabeth Warren 2017-04-18 #1 New York Times bestseller The fiery U.S. Senator from Massachusetts and bestselling author offers a passionate, inspiring book about why our middle class is under siege and how we can win the fight to save it Senator Elizabeth Warren has long been an outspoken champion of America's middle class, and by the time the people of Massachusetts elected her in 2012, she had become one of the country's leading progressive voices. Now, at a perilous moment for our nation, she has written a book that is at once an illuminating account of how we built the strongest middle class in history, a scathing indictment of those who have spent the past thirty-five years undermining working families, and a rousing call to action. Warren grew up in Oklahoma, and she’s never forgotten how difficult it was for her mother and father to hold on at the ragged edge of the middle class. An educational system that offered opportunities for all made it possible for her to achieve her dream of going to college, becoming a teacher, and, later, attending law school. But now, for many, these kinds of opportunities are gone, and a government that once looked out for working families is instead captive to the rich and powerful. Seventy-five years ago, President Franklin Roosevelt and his New Deal ushered in an age of widespread prosperity; in the 1980s, President Ronald Reagan reversed course and sold the country on the disastrous fiction called trickle-down economics. Now, with the election of Donald Trump—a con artist who promised to drain the swamp of special interests and then surrounded himself with billionaires and lobbyists—the middle class is being pushed ever closer to collapse. Written in the candid, high-spirited voice that is Warren’s trademark, This Fight Is Our Fight tells eye-opening stories about her battles in the Senate and vividly describes the experiences of hard-working Americans who have too often been given the short end of the stick. Elizabeth Warren has had enough of phony promises and a government that no longer serves its people--she won't sit down, she won't be silenced, and she will fight back.

Game Theory, Alive-Anna R. Karlin 2017-04-27 We live in a highly connected world with multiple self-interested agents interacting and myriad opportunities for conflict and cooperation. The goal of game theory is to understand these opportunities. This book presents a rigorous introduction to the mathematics of game theory without losing sight of the joy of the subject. This is done by focusing on theoretical highlights (e.g., at least six Nobel Prize winning results are developed from scratch) and by presenting exciting connections of game theory to other fields such as computer science (algorithmic game theory), economics (auctions and matching markets), social choice (voting theory), biology (signaling and evolutionary stability), and learning theory. Both classical topics, such as zero-sum games, and modern topics, such as sponsored search auctions, are covered. Along the way, beautiful mathematical tools used in game theory are introduced, including convexity, fixed-point theorems, and probabilistic arguments. The book is appropriate for a first course in game theory at either the undergraduate or graduate level, whether in mathematics, economics, computer science, or statistics. The importance of game-theoretic thinking transcends the academic setting—for every action we take, we must consider not only its direct effects, but also how it influences the incentives of others.

Why We Fight-Josh Rosenblatt 2019-01-15 Finally, we can talk about Fight Club! or, A physical and philosophical mediation on why we are drawn to fight each other for sport, what happens to our bodies and brains when we do, and what it all means Anyone with guts or madness in him can get hit by someone who knows how; it takes a different kind of madness, a more persistent kind, to stick around long enough to be one of the people who does the knowing. Josh Rosenblatt was thirty-three years old when he first realized he wanted to fight. A lifelong pacifist with a philosopher’s hatred of violence and a dandy’s aversion to exercise, he drank to excess, smoked passionately, ate indifferently, and mocked physical activity that didn’t involve nudity. But deep down inside there was always some part of him that was attracted to the idea of fighting. So, after studying Muay Thai, Krav Maga, Brazilian jiu-jitsu, and boxing, he decided, at age forty, that it was finally time to fight his first—and only—mixed martial arts match: all in the name of experience and transcending ancient fears. An insightful and moving rumination on the nature of fighting, Why We Fight takes us on his journey from the bleachers to the ring. Using his own training as an opportunity to understand how the sport illuminates basic human impulses, Rosenblatt weaves together cultural history, criticism, biology, and anthropology to understand what happens to the human body and mind when under attack, and to explore why he, a self-described “cowardly boy from the suburbs,” discovered so much meaning in putting his body, and others’, at risk. From the psychology of fear to the physiology of pain, from Ukrainian shtetls to Brooklyn boxing gyms, from Lord Byron to George Plimpton, Why We Fight is a fierce inquiry into the abiding appeal of our most conflicted and controversial fixation, interwoven with a firsthand account of what happens when a mild-mannered intellectual decides to step into the ring for his first real showdown.

Win or Learn-John Kavanagh 2016-06-30 Growing up in Dublin, John Kavanagh was a skinny kid who was frequently bullied. After suffering a bad beating when he intervened to help a woman who was being attacked, he decided he had to learn to defend himself. Before long, he was training fighters in a tiny shed, and promoting the earliest mixed-martial arts events in Ireland. And then, a cocky young lad called Conor McGregor walked into his gym ... In Win or Learn, John Kavanagh tells his own remarkable life story - which is at the heart of the story of the extraordinary explosion of MMA in Ireland and globally. Kavanagh has become a guru to young men and women seeking to master the arts of combat. And as the trainer of the world's most charismatic male MMA star, he has become a magnet for talented fighters from all over the world. Kavanagh's portrait of Conor McGregor - who he has seen in his lowest moments, as well as in his greatest triumphs - is a revelation. What emerges from Win or Learn is a remarkable portrait of ambition, discipline, and persistence in the face of years and years of disappointment. It is a must read for every MMA fan - but also for anyone who wants to understand how to follow a dream and realize a vision.

The Mask of Motherhood-Susan Maushart 2006 When a woman becomes a mother, her relationships, her professional identity and her sense of self will never be the same again. Your Choice, Your Voice, Our Future-Richard Light 2017-04-06 Your Choice, Your Voice, Our Future What I am offering Maine is nothing like what others who have run for this position have offered. I have never wanted someone to be my voice, and I do not offer to be yours. I am using this opportunity to shine light on the system that creates a stage for elites and keeps everyone else from having a voice. I am running for Governor of Maine to educate, and if we win, I am smashing the stage so everyone may have their voice heard equally. Our system is disenfranchising, falsely binary, oppressive, and fraught with contention and slavery. We can rise against this or we can continue on the same path. It has been the result of the American system that generation after generation left this nation (and the world) freer and more prosperous than the last. We cast off race-based slavery, we have destroyed the notion that one gender should rule while the other obeys, we had built a nation of rights and freedom... but, we have backslidden. Our nation is not better off than it was a generation ago. We are in unprecedented debt, have resurfaced racism and sexism, we have instilled a class warfare, and we are being oppressed by fascism and authoritarians. Generation X and Millennials have less opportunity, less ability to grow and flourish, and less unity than our grandparents. We have been slowly taken over by a rotting infestation of cronies, puppet masters, propogandists, and dictators. As our nations becomes more centralized, Maine can stand in opposition. We have an opportunity to demonstrate what America has lost. Maine has strong educators, doctors, nurses, social workers, counselors, laborers of all types, and most respectably, we have strong work and moral ethics. Our State has diversity and a will to surpass obstacles and be reveled across the nation and world. We need the will to see an opportunity through the despair. By continuing what we do best, by growing rather than contracting, by embracing innovation and adaptation rather than antiquity and failed ideas, we can guide America back to prosperity. Maine can be the economic engine of tomorrow's America. Through this book, we have covered Education, Healthcare, ideological spectrums, Corrections, Rehabilitation, Culture, Community, politics, Economics, Energy, business, debt, governance, and a slew of other topics. Through this journey, we have delved into what keeps us from growth, how we can overcome oppressing obstruction, and what we could do to drop the shackles and pick up prosperous freedom. Reaching a better future for everyone takes change. Change is not always easy; change is often coupled with fear. We need not fear the future and change when we can be so positively impacted. When we decide to swallow our fear and move toward a better future, we will be unstoppable. I am applying for a job: the executive position of our State of Maine. This is your choice, your voice, our future. Richard Lee Light

Social Problems-Joel Best 2008 In his new textbook, Joel Best gives readers a complete set of tools for analyzing any social problem.

Boundaries-Douglas B. Carlyle 2013-08 Boundaries is a disturbing story about the blurred lines between love and betrayal, freedom and control, fantasy and treachery, good and evil, past and future. Diane Alders is a successful, workoholic sales executive in the medical field who has a void in her heart as a result of the tragic death of her husband seven years ago. Mickey Rollins is a genius and entrepreneur about to introduce a revolutionary new therapy that will 'repair' injured or impaired brains. Their sputtering romance hits full speed when Mickey invites Diane to accompany him on a lavish and bizarre vacation to the exotic South Seas intended to stretch their senses, fulfill wild dreams, and bring them closer together. Disaster strikes, and it is Diane who becomes Mickey's first human test subject. There's a catch...the healing process requires a surrogate, and Mickey chooses their mutual friend, lover and temptress—the beautiful Suki. The resurrection of Diane that transpires is not only a transfer of physical and cerebral attributes, but a blending of relationships, feelings, and emotions, drawing many into the fray, ending as shockingly as it begins.

Turtle Island-Dave Henry 2017-03-16 Sixteen-year-old Max and 10-year-old Tessa were fully prepared for another horrible summer vacation. While they always hoped to go somewhere fun like Disney World or Universal Studios, they usually went somewhere weird and cheap that their father, former boy bander Don Masters, found in an ad in a truck stop coupon magazine. But this year was different. Where they went couldn't be found on any map or in any truck stop coupon book. They passed through a portal to a place called Turtle Island, an alternate version of America that diverged from our history before the pilgrims landed at Plymouth Rock. It was there where they met world famous action movie star Jordie Paine -- star of such films as I Plan to Kill You Now and the sequel, I Plan to Kill You Now, Too, the ninja film, Chuck Butcher: Sword Wielding Jackal, as well as the light-hearted romp, Harry Hinklehoffer and the Giant Dancing Toad of East Nebraska -- who would be their guide in this strange new world. Jordie, they later learned, brought the Masters family to Turtle Island for a very specific reason. Because they look just like the ruthless first family of Turtle Island, the Masters are pawns in a coup to overthrow the dictator. But things don't go as planned and the Masters wind up in the Survival Games, Turtle Island's national pastime/system of justice where criminals competitors, or crimpetitors, compete for their freedom. In this scifi comedy, the stakes are very simple -- if they win, they rule, if they lose, they must suffer the consequences.
