The Superinsulated Home Book-J. D. Ned Nisson 1985-02-25 This book, written by two authoritative figures in the area of energy technology, is the first to thoroughly describe in simple, clear language the technology known as superinsulation. Appropriate for anyone involved in residential construction and for students of engineering technology, it provides a conceptual understanding of the superinsulated house as well as details for assembling the construction elements of such a system. Includes over 250 photos and architectural drawings.

Kenya Gazette- 2001-02-16 The Kenya Gazette is an official publication of the government of the Republic of Kenya. It contains notices of new legislation, notices required to be published by law or policy as well as other announcements that are published for general public information. It is published every week, usually on Friday, with occasional releases of special or supplementary editions within the week.

Save Our Planet-Lonni Sue Johnson 1991-12 Even though you are just one person who may have never done anything extraordinary before, you can change the world. Did you know: * Every day the Earth receives enough solar energy to heat every home in the world for one year-free. * It takes twenty trees to keep one baby in disposable diapers for two years. * Of the billion pounds of pesticides used each year in the U.S., less than one percent reaches a pest. * The average American throws out their own weight in packaging every month. * If your office recycled one ton of the paper it uses, you'd be saving seventeen trees and keeping sixty pounds of air pollution out of the sky. There are hundreds of tips in this book, but don't let the numbers throw you. Even if you follow just one or two of the suggestions provided, tangible progress will be made towards restoring vitality to the Earth.

Moody's International Manual- 2000

Materials and Components of Interior Architecture-J. Rosemary Riggs 1999 An outstanding reference source for practicing designers, this thoroughly up-to-date guide to interior design provides a firm understanding of the products, properties, and uses of all materials. It offers a refreshing, "synergistic" approach, stressing the importance of cooperation between interior designers and architects, and mutual understanding of each others tools towards achieving a working and successful final project. It progresses from the ground up - literally - looking beyond the more decorative aspects of design to study the properties and uses of both finishing materials in the design field and structural materials in the architectural field. Threading a theme of environmental awareness throughout (i.e. recycling as ways to help cope with the growing landfill problems), it goes on to cover paints and finishes (and how these products have changed due to laws governing toxic emissions); carpets (with commercial specifications supplied by the Carpet and Rug Institute); flooring, walls, and ceilings (including their installation methods and maintenance requirements); cabinet construction; kitchens and bathrooms (featuring dynamic new materials now used in remodeling); and more. The metric system is integrated throughout, and manufacturers websites are listed for additional research.

Maine Register, State Year-book and Legislative Manual- 1966

Maine Register, State Year-book and Legislative Manual-Maine 1962 Vols. for 19 include Classified business directory of the entire state.
