Why I Sneeze, Shiver, Hiccup, & Yawn-Melvin Berger 2000-01-05 Ka-choo! Brrr. Yawnnnn. Have you ever wondered what makes you sneeze when you're in a dusty room? Or shiver when you get out of the bathtub? Or yawn when you're tired? All of these actions are reflexes. Your body makes them happen even though you don't tell it to. Budding young scientists will be amazed as Melvin Berger and Paul Meisel reveal the mysteries behind the reflexes that happen in our bodies every day and offer fun-filled experiments to try on family and friends. Let's Read and Find Out Science, Stage 2.

Why I Cough, Sneeze, Shiver, Hiccup, & Yawn-Melvin Berger 1983 An introduction to reflex acts that explains why we cough, sneeze, shiver, hiccup, yawn, and blink.

What Makes You Cough, Sneeze, Burp, Hiccup, Blink, Yawn, Sweat and Shiver?-Jean Stangl 2001-03-01 Describes what makes people cough, sneeze, burp, yawn and have other such reflex responses and explains the role these actions play in maintaining health.

A Drop of Blood-Paul Showers 2004-05 You've seen your own blood, when you have a cut or a scrape. You can see the veins in your wrist, and you've seen the scab that forms as a cut heals. But do you know what blood does for you?

Without blood, you couldn't play, or grow, or learn. That's because just about every part of your body needs blood, from your muscles to your bones to your brain. How does your body use blood? Read and find out!

Too Hot? Too Cold?-Caroline Arnold 2013-02-01 Explains how people and animals living in different parts of the world survive in hotter and colder climates using remarkable adaptive strategies and behaviors.

Getting Ready to Read-Shirley B. Spriegel 2004-06-28

Germes Make Me Sick!-Melvin Berger 2020-03-31 Share this book with children to help them, in a safe and calm way, understand how germs work. In addition to straightforward, helpful information told in a warm and approachable way, the book contains a chart of rules for good health that reinforces healthful living. This nonfiction picture book is an excellent choice to share during homeschooling, in particular for children ages 5 to 7 who are ready to read independently. It's a fun way to keep your child engaged and as a supplement for activity books for children. Germes are all around us, but they're too small to see. Many germs are harmless, but two kinds, viruses and bacteria, can make you sick. How? Read and find out! This Level 2 Let's-Read-and-Find-Out picture book is all about germs, how they can make you sick, and how your body works to fight them off. This book features rich vocabulary and simple diagrams to explain why you feel poorly when you're sick and how your body keeps you healthy by producing antibodies. Both text and artwork were vetted for accuracy by Dr. Melanie Marin. An excellent resource in this time of COVID-19. This is a Level 2 Let's-Read-and-Find-Out Science book, which means the book explores more challenging concepts perfect for children in the primary grades and supports the Common Core Learning Standards and Next Generation Science Standards. Let's-Read-and-Find-Out is the winner of the American Association for the Advancement of Science/Subaru Science Books & Films Prize for Outstanding Science Series.

Hear Your Heart-Paul Showers 2000-12-26 Let's-read-and-find-out about Your Heart Night and day, whether you're asleep or awake, your heart is always beating. Read and find out how your heart works and how to keep it healthy.

What Happened to the Dinosaurs?-BRANLEY 1991-03-15 What happened to the dinosaurs? For millions of years these fantastic creatures roamed our planet. Then, suddenly, they all disappeared. Scientists wonder why. What could have caused this huge extinction 65 million years ago? In this enlarged edition, distinguished writer Franklyn M. Branley and award-winning artist Marc Simont provide the perfect introduction to an always fascinating subject - the disappearance of the dinosaurs. Outstanding Science Trade Books for Children 1989 (NSTA/CBC)

What Happens to a Hamburger?-Paul Showers 2001-05-08 What happens to food after you eat it? In this newly illustrated book, complete with photos, Paul Showers and Edward Miller take you on a journey through the human digestive system into the mouth, down the gullet, into the stomach, and finally into the small and large intestines. You will learn what each of these body parts does to help transform the food you eat. And you will also find out what happens to the food your body cannot use. Everything that happens inside your body whenever you swallow a bite of food will amaze you!

I Wonder Why I Blink-Brigid Avison 2003-04-25 Favorite questions such as "Why do I get hiccups?"; "What makes me sneeze?"; "What is sleepwalking?" are answered in this lively look at the human body.

Through Grandpa's Eyes-Patricia MacLachlan 1983-06-29 On John's visits to Grandpa's house, his blind grandfather shares with him the special way he sees and moves in the world.

Chirping Crickets-Melvin Berger 1998-04-18 Chirp! Chirp! Chirp! That's the sound crickets make. You've probably heard them chirp on a summer evening. But did you know that they make their chirping sounds by rubbing their wings together, and that only male crickets can chirp? Inside this book you'll learn about crickets, and even how to tell the temperature by counting a cricket's chirps. Melvin Berger and Megan Lloyd have created a wonderful introduction to a fascinating insect: the cricket. Chirrrr, chirrrr, chirrrrthat's the sound of crickets on a summer evening. A male cricket makes this sound by rubbing his legs against a bumpy vein on his wing. Find out more about crickets, including how they hear with their knees, in this stunningly illustrated introduction to the cricket.

Spinning Spiders-Ruth Berman 1998-01-01 Describes the physical characteristics and behavior of spiders and how they use their silk for weaving webs and other purposes.

The Wim Hof Method-Wim Hof 2020-10-20 INSTANT NEW YORK TIMES BESTSELLER The only definitive book authored by Wim Hof on his powerful method for realizing our physical and spiritual potential. “This method is very simple, very accessible, and endorsed by science. Anybody can do it, and there is no dogma, only acceptance. Only freedom.” —Wim Hof Wim Hof has a message for each of us: “You can literally do the impossible. You can overcome disease, improve your mental health and physical performance, and even control your physiology so you can thrive in any stressful situation.” With The Wim Hof Method, this trailblazer of human potential shares a method that anyone can use—young or old, sick or healthy—to supercharge their capacity for strength, vitality, and happiness. Wim has become known as “The Iceman” for his astounding physical feats, such as spending hours in freezing water and running barefoot marathons over deserts and ice fields. Yet his most remarkable achievement is not any record-breaking performance—it is the creation of a method that thousands of people have used to transform their lives. In his gripping and passionate style, Wim shares his method and his story, including: • Breath—Wim’s unique practices to change your body chemistry, infuse yourself with energy, and focus your mind • Cold—Safe, controlled, shock-free practices for using cold exposure to enhance your cardiovascular system and awaken your body’s untapped strength • Mindset—Build your willpower, inner clarity, sensory awareness, and innate joyfulness in the miracle of living • Science—How users of this method have redefined what is medically possible in study after study • Health—True stories and testimonials from people using the method to overcome disease and chronic illness • Performance—Increase your endurance, improve recovery time, up your mental game, and more • Wim’s Story—Follow Wim’s inspiring personal journey of discovery, tragedy, and triumph • Spiritual Awakening—How breath, cold, and mindset can reveal the beauty of your soul Wim Hof is a man on a mission: to transform the way we live by reminding us of our true power and purpose. “This is how we will change the world, one soul at a time,” Wim says. “We alter the collective consciousness by awakening to our own boundless potential. We are limited only by the depth of our imagination and the strength of our conviction.” If you’re ready to explore and exceed the limits of your own potential, The Wim Hof Method is waiting for you.
