Marine Auxiliary Machinery-H. D. McGeorge 2013-10-22 Marine Auxiliary Machinery, Seventh Edition is a 16-chapter text that covers the significant advances in marine auxiliary machinery relevant to the certification of competency examinations. The introductory chapters deal with the basic components of marine machineries, such as propulsion system, heat exchanger, valves, and pipelines. The succeeding chapters describe the pumps and pumping system, specifically the tanker and gas carrier cargo pumps. Considerable chapters are devoted to the operation of machinery's major components, including the propeller shaft, steering gear, auxiliary power, bow thrusters, and stabilizers. Other chapters consider the refrigeration, heating, ventilation, and air conditioning systems. The final chapters tackle the safety system of marine auxiliary machinery, particularly the fire protection, safety, instrumentation, and control systems. This book will prove useful to marine and mechanical engineers.

Sideways on a Scooter-Miranda Kennedy 2011-04-26 When twentysomething reporter Miranda Kennedy leaves her job in New York City and travels to India with no employment prospects, she longs to immerse herself in the turmoil and excitement of a rapidly developing country. What she quickly learns in Delhi about renting an apartment as a single woman—it's next to impossible—and the proper way for women in India to ride scooters—perched sideways—are early signs that life here is less Westernized than she'd counted on. Living in Delhi for more than five years, and finding a city pulsing with possibility and hope, Kennedy experiences friendships, love affairs, and losses that open a window onto the opaque world of Indian politics and culture—and alter her own attitudes about everything from food and clothes to marriage and family. Along the way, Kennedy is drawn into the lives of several Indian women, including her charismatic friend Geeta—a self-described “modern girl” who attempts to squeeze herself into the traditional role of wife and mother; Radha, a proud Brahmin widow who denies herself simple pleasures in order to live by high-caste Hindu principles; and Parvati, who defiantly chain-smokes and drinks whiskey, yet feels compelled to keep her boyfriend a secret from her family. In her effort to understand the hopes and dreams that motivate her new friends, Kennedy peels back India's globalized image as a land of call centers and fast-food chains and finds an ancient place where, in many ways, women's lives have scarcely changed for centuries. Incisive, witty, and written with a keen eye for the lush vibrancy of the country that Kennedy comes to love, Sideways on a Scooter is both a remarkable memoir and a cultural revelation. From the Hardcover edition.

101 Tips on Writing and Selling Your First Novel-Prudy Taylor Board 2003-09-01 "101 Tips on Writing and Selling Your First Novel takes you from the baby steps of getting organized to full-blown marketing with well-written, well-organized, information-packed pages that have even the 'greenest' of writers submitting a professional and polished manuscript for publication. Ms. Taylor's readers will be empowered with confidence, having the knowledge that all their bases are covered when submitting their first, and subsequent, novels for publication." -Ingrid Taylor, Small Press Review "As a novice writer, you must have a good grasp of the basics, and now it's here! Not only will 101 TIPS show you how to write, but once your book is ready, how to sell. Allow yourself to be one of the very small percentage of writers who approach agents, editors, and publishers, in a professional manner, with your work ready to be seen!" -Babs Lakey, Publisher, Futures Mysterious Anthology Magazine, www.fmam.biz "For years I have been struggling with a novel in progress. Prudy Taylor Board's worksheet pages, calendars, making the characters alive and functioning, have all helped me see my novel as a living, moving, productive vehicle. Every writer should have this book and every workshop facilitator should use it as a textbook. It is the most complete "trip ticket" for writers I have come across in 40 years of writing." -Virginia B. Elliott, Naples, Florida

The Mammoth Book of Vampire Romance-Trisha Telep 2009-06-01 Paranormal romance is a supernatural force to be reckoned with. Although packed with a menagerie of werewolves, shapeshifters and assorted demons, its undisputed king is none other than our favourite centuries-old bloodsucker - the vampire. We're now living in a post-Buffy world of dark urban fantasy à la Laurell K. Hamilton's Anita Blake, Sherrilyn Kenyon's irresistible Dark Hunters and the blood-lusting soul mates of Christine Feehan. But it doesn't stop there. This Mammoth collection opens a vein to reveal the mind-boggling scope of the supercharged phenomenon created when vampires met romance. Let the biggest and brightest names in the paranormal romance business take you hot on the haemoglobin trail of the sexiest creatures of the night. Witness the bewildering array of complex vampire codes of conduct, dark ritual and dating practices, as they chat up the locals and engage in the most erotic encounters you will sink your teeth into this side of un-Death. These ain't your mother's vampires!

The Lies About Truth-Courtney Stevens 2015-11-03 In the same vein as Jandy Nelson and Gayle Forman comes a novel from the gifted author of Faking Normal, Courtney C. Stevens, about hope and courage and the struggle to overcome the pain of loss. Sadie Kingston is living in the aftermath. A year after surviving a car accident that killed her friend Trent and left her body and face scarred, she can't move forward. The only person who seems to understand her is Trent's brother, Max. As Sadie begins to fall for Max, she's unsure if she is truly healed enough to be with him. But Max looks at her scars and doesn't shy away. And Max knows about the list she writes in the sand at the beach every night, the list of things that Sadie knows she must accomplish before she can move on from the accident. And while he can help her with number six (kiss someone without flinching), she knows she's on her own with number three (forgive Gina and Gray) and the rest of the seemingly impossible tasks that must be made possible before she can live in the now again.

The Economics of Alfred Marshall-Richard Arena 2016-01-18 The Economics of Alfred Marshall brings together a number of leading international scholars for a timely reappraisal of Marshall's contribution to the development of economics. The aims of the contributors are firstly to revisit the work of Alfred Marshall and to investigate the unity of his projects, which contemporary authors often tend to underestimate; and secondly to show how Marshall's approach is not only a subject for historians of economic thought, but may also provide a message that is relevant for the progress of economics.

Design of Small Fishing Vessels-John F. Fyson 1985 The importance of small fishing craft to the world catch of fish cannot be underestimated but little attention has in the past been given to their design. The primary purpose of this book is to disseminate the specialized knowledge needed for designing improved small fishing vessels. It has been structured to cover every item which needs to be taken into account, working in easy stages from background material to the specification for a finished design. The logical and well-balanced format takes the reader through general principles to factors specific to fishing vessels and the content is so comprehensive that much will be of equal value to users and designers of larger vessels. It is an invaluable volume enhanced by detailed drawings of exceptional standard.

The Harry Bosch Novels Volume 5-Michael Connelly 2012 THE OVERLOOK sees Harry Bosch plunged into the dangerous world of international terrorism. When a physicist is murdered in LA it seems the killer has no fear of publicity, leaving the body on The Mulholland overlook, a site with a stunning view over the city. And when it's discovered that the victim turned over a quantity of a lethal chemical to his killer before he died, Harry knows he has more than just a single death to worry about. Alongside the forces of Homeland Security, Harry realizes he must solve the murder or face unimaginable consequences. In NINE DRAGONS, the shooting of a Chinese liquor store owner in LA brings Harry Bosch back to the Rodney King riots and the moment a stranger gave a young cop sanctuary. Now, the debt must be repaid, and Harry soon discovers the old man's death was no ordinary holdup. Homing in on clues disregarded by the cops on the scene, Harry builds a picture of corruption and intimidation, with the local Triads at the heart of it. But as he tries to build a case and breach the impenetrable wall of silence in the local community, he finds he is taking a dragon by the tail - a dragon whose talons reach well beyond LA, and even the States. Suddenly the most precious thing in Harry's life is under threat, and he will need to leave the familiarity of his home turf, alone and without backup, if he is going to stop his worst nightmare from happening. Harry Bosch is facing the end of the line in THE DROP. He's been put on the Deferred Retirement Option Plan - and given three years before his retirement is enforced. Seeing the end of the mission coming, he's anxious for cases. He doesn't have to wait long. First a cold case gets a DNA hit for a rape and murder which points the finger at a 29-year-old convicted rapist who was only eight at the time of the murder. Then a city councilman's son is found dead - fallen or pushed from a hotel window - and he insists on Bosch taking the case despite the two men's history of enmity. The cases are unrelated but they twist around each other like the double helix of a DNA strand. One leads to the discovery of a killer operating in the city for as many as three decades; the other to a deep political conspiracy that reached back into the dark history of the police department.
